e-Quals Unit Syllabus

Level 3 Integrating applications to create advanced presentations

7266 - 045
About City & Guilds
City & Guilds is the UK’s leading provider of vocational qualifications, offering over 500 awards across a wide range of industries, and progressing from entry level to the highest levels of professional achievement. With over 8500 centres in 100 countries, City & Guilds is recognised by employers worldwide for providing qualifications that offer proof of the skills they need to get the job done.

City & Guilds Group
The City & Guilds Group includes City & Guilds, ILM (the Institute of Leadership & Management) which provides management qualifications, learning materials and membership services, NPTC which offers land-based qualifications and membership services, and HAB (the Hospitality Awarding Body). City & Guilds also manages the Engineering Council Examinations on behalf of the Engineering Council.

Equal opportunities
City & Guilds fully supports the principle of equal opportunities and we are committed to satisfying this principle in all our activities and published material. A copy of our equal opportunities policy statement Access to assessment and qualifications is available on the City & Guilds website.

Copyright

Unit 045  Integrating applications to create advanced presentations

Syllabus Overview

Rationale
The aim of this unit is to provide candidates with an advanced level of skills and knowledge to competently prepare for, perform or supervise the performance of others in a variety of integrated applications tasks using Information and Communication Technologies (ICT). Candidates will develop a more in depth understanding of the applications, their integration, the operating system in everyday usage and the ability to work in a supervisory role performing advanced tasks with a high degree of competence, using ‘problem solving’ skills and giving direction to others.

Learning outcomes
There are **five** outcomes to this unit. The candidate will be able to:
- Build word processed documents
- Build spreadsheets
- Build database reports
- Use mail merge
- Combine and link data from different applications and sources

Guided learning hours
It is recommended that 90 hours should be allocated for this unit. This may be on a full time or part time basis.

Connections with other qualifications
This unit contributes towards the knowledge and understanding required for the following qualifications:

**IT Users N/SVQ (iTQ) Level 3**

<table>

Key Skills
This unit contributes towards the Key Skills in the following areas:

<table>
<thead>
<tr>
<th>Application of number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication</td>
</tr>
<tr>
<td>C 2.2, C 3.3</td>
</tr>
<tr>
<td>IT</td>
</tr>
<tr>
<td>IT 3.1, IT 3.2, IT 3.3</td>
</tr>
<tr>
<td>Working with others</td>
</tr>
<tr>
<td>Problem solving</td>
</tr>
<tr>
<td>P5 2.1</td>
</tr>
<tr>
<td>Improving own learning</td>
</tr>
</tbody>
</table>

Assessment and grading
Assessment will be by means of a set assignment covering both practical activities and underpinning knowledge.
Unit 045  Integrating applications to create advanced presentations

Outcome 1  Build word processed documents

Practical skills
The candidate will be able to:
1  use bulleted and numbered lists
2  convert text to table and vice versa
3  use superscript, subscript, special characters, strikethrough, watermarks
4  merge and split cells in tables
5  join and split tables
6  align text within cells: right, left and centre
7  align tables
8  alter the page orientation within documents and document sections
9  use automatic insertion of text: filename, date, page number, page total
10  embed objects eg hierarchy charts and formulae/equations
11  scan documents and optimise images
12  save scanned images in suitable file formats
13  insert and manipulate scanned image files
14  use different headers in the same document
15  create and use masters/template documents
16  use styles eg create, rename and modify (characters, tabs and paragraphs)
17  use grammar, spell check and preview facilities to find and correct errors in documents
18  produce printed copies of complete documents and select pages of documents.

Underpinning knowledge
The candidate will be able to:
1  describe the basic methods for numbering paragraphs within a document
2  identify the importance of proof reading and the limitations of spell-check tools.
Unit 045  Integrating applications to create advanced presentations

Outcome 2  Build spreadsheets

Practical skills
The candidate will be able to:

1. input spreadsheets according to given designs
   a. enter titles and headings
   b. enter formulas, functions and constant data using absolute cell, absolute worksheet and absolute spreadsheet references
   c. format columns, rows and cells
   d. import data from delimited .txt files

2. use suitable formats for data eg
   a. alignment: left, centre, right
   b. text enhancements
   c. cell attributes: size, borders, background
   d. numeric: general, number, percentages, currency, date/time

3. select and use: look-up functions, date and time functions

4. select and use chart-types to suit data singly and in combination
   a. pie - single data series 100%
   b. bar - grouped/discrete data - especially comparing size
   c. line - continuous data, trends at equal intervals and logarithmic intervals
   d. using two x or two y axes

5. format chart information to suit data
   a. titles and axes labels
   b. axes scales and limits
   c. gridlines, and gridline density
   d. legends and data labels

6. format charts changing
   a. background
   b. attributes of line, area, and text
   c. chart size relative to spreadsheet
   d. colours to suit monochrome/colour output
print out spreadsheets
a monochrome/colour printing facilities
b selected areas or whole sheet
c as single charts
d using borders
e with/without headers & footers
f fit to one page
g with/without repeated table headings
h with specific data.
Unit 045  Integrating applications to create advanced presentations

Outcome 3  Build database reports

Practical skills
The candidate will be able to:
1. open existing databases displaying the records and fields for editing, build new databases to provided specifications, build new databases by importing delimited .txt files containing structure and data
2. assign primary key and validation data to fields
3. build queries based on multiple condition searches including the use of the "*" wildcard export queries in other useable form eg .rtf
4. build reports based on queries
   a. headings, subheadings, totals
   b. all selected records and all fields
   c. selected records and selected fields
5. edit report layouts
   a. rearrange the order in which fields are displayed
   b. format fields: field width, alignment of the data, font size and data
   c. insert a new label and field
   d. add a function to a field to calculate a total
   e. group records together by field.
Unit 045  Integrating applications to create advanced presentations
Outcome 4  Use mail merge

Practical skills
The candidate will be able to:
1  generate labels, envelopes and letters/documents using records from spreadsheets, databases, mail merge data sources
2  change data sources for main documents
3  edit data sources for mail merge records
4  edit main documents to reflect required fields from data sources
5  save documents both locally and remotely.

Underpinning knowledge
The candidate will be able to:
1  describe the benefits of being able to change the mail merge data sources
2  describe the benefits of editing data sources.
Unit 045  Integrating applications to create advanced presentations

Outcome 5  Practical skills

The candidate will be able to:

1. input and link into word processed documents: other word processed documents, spreadsheet worksheets and charts and database queries to enable auto-update from local and remote file sources
2. objects of other types
3. save database records in text delimited files
4. save spreadsheet records in text delimited files.

Underpinning knowledge

The candidate will be able to:

1. state the meaning of the term ‘text delimited files’
2. explain the need for using text delimited files (eg comma, tab)
3. Use open, close, save, save as, print preview and print functions
4. Identify and manage directory/folders locally and remotely
5. Identify how to combine information including hyperlinks, object linking, embedding.
Unit record sheet

Use this form to track your progress through this unit.

Tick the boxes when you have covered each outcome. When they are all ticked, you are ready to be assessed.
