Dry & finish hair GB2

Unit GB5 (City & Guilds Unit 027)

Dry and finish men's hair

Mandatory

This unit has three outcomes. As some are linked, you can be observed by your assessor for all three outcomes at the same time.

Outcome 1

Maintain effective and safe methods of working when drying hair

Outcome 2

Dry and finish hair

Outcome 3

Provide aftercare advice.

Evidence requirements

To achieve this unit you must practically demonstrate in your everyday work that you have met the standard for drying and finishing men's hair. The standards cover things you must do (performance criteria), things that you must cover (range) and things that you must know.

What you must do

Your assessor will observe these aspects of your performance on at least 3 occasions which must include the use of 3 different styling and finishing products.

What you must cover

You will see key words in bold on the 'What you must do' list. For each of these, there is a range of things that you must cover. You must show that you have:

- used **3 out of the 5*** styling and finishing products
- dried and finished all hair types
- considered all factors
- used all the styling techniques
- achieve all the finished looks
- given all the advice

It is likely most evidence of your performance will be gathered from the observations made by your assessor but you may be required to produce other evidence to support your performance if your assessor has not been present.

What you must do

** Covered by observation

Covered by oral questioning

Outcome 1

Maintain effective and safe methods of working when drying by

- a) ensuring your client's clothing is effectively protected throughout the service
- b) wearing personal protective equipment, if required
- c) positioning your client to meet the needs of the service without causing them discomfort
- d) ensuring your own posture and position whilst working minimises fatigue and the risk of injury
- e) keeping your work area clean and tidy throughout the service
- f) using working methods that minimise the wastage of **styling and finishing products** minimise the risk of damage to tools minimise the risk of cross infection make effective use of your working time ensure the use of cleaning resources minimise the risk of harm or injury to yourself and others
- h) ensuring your personal standards of health and hygiene minimise the risk of cross-infection, infestation and offence to your clients and colleagues
- i) sing styling products, methods and equipment identified as a result of consultation with your client
- i) using equipment that is safe and fit for purpose
- k) testing the temperature of heated styling equipment prior to use and continually throughout the service *
- l) keeping your tools and heated styling equipment free of product build **

Hints and tips

Men do not usually want too much volume in their blow dried look. Forget this and you may not see them again!

What you must do (continued)

Outcome 3

Provide aftercare advice by

- a) giving **advice** and recommendations accurately and constructively
- b) giving your client suitable **advice** on the maintenance of their cut and style

LAGOOM JAM DE LA

Hints and tips

A round brush is likely to create more volume whilst a flat brush is good for creating specific movement.

Comment form

This form can be used to record oral questioning, or for assessor/candidate comments, if required

Hints and tips

The client's face and head shape should determine how much volume is needed in the blow dried look – but too much volume is not likely to be welcomed.

What you must know

| You need to understand: | Evidence type | Date | Portfolio ref. |
|--|------------------|------|----------------|
| Salon and legal requirements | | | |
| your salon requirements for client preparation | E3 | | |
| your salon's expected service times for drying and finishing hair | E3 | | |
| your own responsibilities under the current Control of Substances Hazardous to Health Regulations in relation to the use of styling and finishing products | E3 | | |
| 4. your responsibilities under the current Electricity at Work Regulations | E3 | | |
| How to work safely and hygienically when drying hair To shape | | | |
| what is contact dermatitis and how to avoid developing it whilst carrying out styling and finishing services | E3 | | |
| 6. the range of protective clothing that should be available for clients | E3 | | |
| 7. why it is important to use personal protective equipment | E3 | | |
| 8 the type of personal protective equipment available | E3 | | |
| how the position of your client and yourself can affect the desired outcome and reduce fatigue and the risk of injury | E3 | | |
| 10. the importance of positioning equipment for ease of use | E3 | | |
| the safety considerations which must be taken into account when drying and finishing hair | E3 | | |
| 12. why it is important to keep your work area clean and tidy | E3 | | |
| methods of working safely and hygienically and which minimises the risk of cross-infection and cross- infestation | E3 | | |
| 14. the importance of personal hygiene | E3 | | |
| 15. why it is important to check electrical equipment used to aid the drying and finishing processes | E3 | | |
| 16. methods of cleaning, disinfecting and/or sterilisation used in salons | E3 | | |
| 17. the importance of using products economically | E3 | | |
| 18. the reason why tools and heated styling equipment should be kept free from excess oils and product build | E3 | | |
