Answer:

Band 1 (1-4marks)

A brief discussion that shows little or no acknowledgement for the suitability and difficulties that could be encountered when offering services. The response is brief, under developed, lacks clarity and is not entirely relevant and/or accurate. The response demonstrates basic understanding of some of the techniques that would be used to achieve the client requirements. Links between tools, products and techniques for the specific scenario are weak or non-existent. The overall analysis is simplistic with little or no use of examples to support any points raised. Overall the discussion lacks structure and coherency.

To access the higher marks, the response will be mainly relevant and accurate. Some relevant examples will have been used to support the scenario.

Band 2 (5- 8 marks)

A relevant discussion which clearly shows some consideration to the suitability and challenges that could be encountered in achieving the desired style. The response is accurate and coherent in the main. Displays reasonable breadth and depth of relevant knowledge across the techniques, tools and products, angles used when cutting and drying as appropriate. Some areas may be covered in more detail than others. Within this knowledge there is some evidence of discussion around the benefits and limitations which demonstrates some linkages to how these impact services. Most opinions and ideas are justified. The overall discussion will be presented in a clear format and the use of terminology mostly appropriate.

To access the higher marks, analysis will show coverage of knowledge across a wide range of the considerations relevant to cutting and styling. There will be sound evidence of discussion and the majority of opinions and suggestions will have been substantiated.

Band 3 (9-12 marks)

A focussed and detailed discussion that shows thorough consideration to the suitability and wide range of challenges that could be encountered when achieving the desired style.

Demonstrates good breadth and depth of knowledge and understanding of all the tools products, techniques and cutting angles that would be used to achieve the client requirements. Discussion is substantiated and supported with examples. There is detailed discussion on the relevant benefits and limitations with strong linkages to how these impact upon both the suitability and difficulties in achieving the style.

Specialist terminology is appropriately used throughout. The overall analysis will be presented in a coherent and structured format

To access the higher marks, analysis will be fully developed across both the cutting and styling services with well substantiated opinions and recommendations.
