|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| | <p>angles (1), re-define outline shape (1), use facial points for visual check (1), adjust hair length if required on the heavy side (1), thin hair out where denser (1), visually check using mirror for even/balance (1), use fingers to check hair length (1) cross check hair length (1)</p> | | |
| 11 | <p>Indicative content:</p> <p>Consultation considerations and possible implications that may impact on the service and the hair classification, with reference to:</p> <ul style="list-style-type: none"> • Hair analysis: hair length, hair condition; growth patterns; hair classification including the client's type 2 natural movement; characteristics; possible adverse hair conditions and influencing factors, including fine and sparse possible product build-up • Skin analysis: look for signs of any additional adverse skin conditions and contra-indications eg in growing hairs, piercings, tattoos, scalp conditions, eg dry/oily • Carrying out hair tests and diagnosis • Client requirements, suitability, achievability, costs, time, maintenance <p>Client understanding/satisfaction:</p> <ul style="list-style-type: none"> • Exploration and recommendations for service taking into consideration face shape, alopecia etc • Seeking client agreement and satisfaction with the outcome <p>Service, reference to:</p> <ul style="list-style-type: none"> • Hair preparation • Facial hair & skin preparation • Hair cutting tools and equipment and suitability for style requirements and hair classification • Facial hair cutting tools and equipment and suitability for hair and skin • Shaving tools and equipment and suitability | <p>Band 1 (1 – 4 marks) Response covers a narrow range of considerations, with little or no reference to the implications on the achievability of the hair and beard style. Tenuous links to use of products. Cutting tools and techniques and their suitability are evident/loosely linked to the overall style achievability.</p> <p>To access higher marks in the band, the response will contain mostly relevant points and appropriate action. Examples will be limited with little or no justification.</p> <p>Band 2 (5 – 8 marks) The response makes a reasonable attempt to cover the main considerations and implications of the achievability of the style and some justifications.</p> <p>Discussion is mostly relevant and likely to be detailed in some areas more than others; reference to consultation considerations, products, hair and beard services, tools and equipment, techniques and any adjustments to the services may be made. Clear knowledge of topics is evident although linkages between these may be fragmented and lack coherency. Discussion recommendations and opinions are offered with use of some examples in parts; content is mostly factually accurate. The overall discussion is presented in a clear format and the use of terminology is appropriate.</p> <p>To access higher marks in the band, the discussion will generally be detailed and contain relevant justifications. The overall discussion is presented clearly and with some logical structure.</p> <p>Band 3 (9 – 12 marks)</p> | 12 |
