Dear Diane

As a Hairdressing employer I support the following qualification for young people wishing to progress into the Hairdressing Industry.

I have worked with City & Guilds as part of their National Advisory Committee (NAC) on the development of their Hair & Barbering in terms of consultation and scoping for the qualifications. I'm therefore satisfied that the content meets both our needs as an employer in this sector and those of the young people taking it who are preparing for a career in the Hairdressing or Barbering Industry

Level 2 Technical Certificate in Hairdressing

I believe this qualification is suitable for someone wanting to work as a Stylist and as such is recognised by the industry.

As a qualified Stylist the industry will require that all the necessary level 2 skills are covered. The following qualification allows the learner to gain these essential skills and knowledge in order to progress onto an Apprenticeship or into employment.

I believe that the following practical skills and knowledge would give a young person an advantage when seeking employment and are essential for a new employee in the role of a Stylist.

Skills and knowledge include:

- Principles of practice of hairdressing
- Shampoo, condition and treat the hair and scalp
- Style, set and dress hair
- Cut hair using basic techniques
- Colour and lighten hair

I feel that once the learner has gained this qualification which covers a sound understanding and key practical skills for the Hairdressing industry they could take the position as a:

- Stylist in a Salon

I confirm that we consent to our company name (and logo) being made publicly available on the DfE and City and Guilds websites.

Yours sincerely
