1 Identify **three** different types of settings in which health and/or care is delivered. (3 marks)

2 Explain how the Poor Law 1834 contributed to the development of the welfare state. (2 marks)

3 Describe **four** types of relationships that may display discriminatory behaviour within a nursing home. (4 marks)

4 Anthony is 79 years old and lives in a care home with his husband Michael.

Describe **two** types of discrimination and mechanisms of oppression that may occur when providing care for Anthony and Michael. (4 marks)

5 Describe the concept of institutionalisation. (2 marks)

6 Explain **two** strategies which could be used to promote equality in a day centre for adults with learning disabilities. (4 marks)

7 Identify **three** professional standards or working practices, which can impact interpersonal communication and interaction. (3 marks)

See next page

8 Describe how cultural differences can cause verbal and non-verbal communication to be misinterpreted. (4 marks)

9 List **three** ways individuals can be supported to communicate their needs and wishes through a third party. (3 marks)

10 Martin works in a school for children who have autism and learning difficulties. He wants to support them to develop skills and behaviours to communicate their needs effectively.

Explain **three** ways Martin can promote effective interpersonal communication with the children. (6 marks)

11 State **four** responsibilities of the employer in relation to the Control of Substances Hazardous to Health Regulations (2002) in a health and care setting. (4 marks)

See next page

12 Connor is 7 years old and has a physical disability which leaves him with very poor balance and an inability to walk due to his leg muscles being weak. He also has some spasticity in his hands. He requires adaptive equipment to participate in day-to-day activities.

Explain how different types of adaptive equipment could be used to aid his daily living. (5 marks)

13 State **two** routes of infection which can enter the body. (2 marks)

14 Muriel is 92 years old and has tripped and fallen over a loose carpet in a corridor in the care home where she lives. Maya, a care assistant, finds her on the floor. Muriel says she banged her head and is complaining of pain in her hip.

Explain procedures Maya should follow to report and record the accident. (5 marks)

15 Amelia is a 35-year-old woman. She has a mental health issue which has caused her to stay in residential care for long periods. Amelia wants to live independently.

Amelia has a brother named Luke who visits her occasionally. Luke believes that Amelia should not be living alone and that she is a risk to herself. He has raised concerns to professional staff who have arranged a care plan meeting to discuss Amelia's potential needs.

Discuss the key points that should be considered at the care plan meeting. (9 marks)

End of examination
