Dear Roberta

As an employer organisation in the Childcare-Early Years sector we would like to offer support for the following qualification, ideal for young people wishing to progress into the Healthcare, Care or Childcare Sector.

City & Guilds Level 2 Technical Certificate in Healthcare, Care and Childcare

We feel that the content meets both the needs of the employers in our sector and those of the young people taking it, who are preparing for a career in Childcare.

This qualification allows the learner to gain these essential skills and knowledge to progress on to an Apprenticeship or into employment in this sector.

We believe that the following practical skills and knowledge would give a young person an advantage when seeking employment and are essential for a new employee in Health, Care or Childcare:

- Working with people requiring healthcare and support services
- Working with adults requiring care and support services
- Working with children, young people and families in care and education

Springboard creates opportunities for people to take an active part in the life of their community
