Date September 8th 2015

Dear Roberta,

We are an employer operating in the Health sector, currently employing 3,500 people.

We would like to offer support for the following City & Guilds qualifications as we feel it is ideal for young people between the ages of 16-19.:

Level 3 Advanced Technical Diploma in Health and Care (540)

We feel that the qualification has been developed with the needs of the sector in mind and the essential knowledge and skills for our industry have been included.

This qualification provides an excellent introduction and provides a solid foundation for potential workers in the health and care setting. This includes a substantial knowledge base relating to the physical and psychological needs of patients and other service users. The student will then apply their newly acquired knowledge to their work experience in clinical practice.

We believe that these skills and knowledge would give a young person an advantage when seeking employment in Health and Care, for jobs roles such as Health Care Assistant, Care Support Worker.

This is the type of qualification or skills and knowledge we will be looking for when recruiting for such a position.

We consent to our name and logo being publically available on the City & Guilds website

Margaret Buckley

QCF and Apprenticeship Programme Lead
