Dear Roberta

As an employer organisation in the Care and Childcare sectors we would like to offer support for the following qualification, ideal for young people wishing to progress into the Healthcare, Care or Childcare Sector.

City & Guilds Level 2 Technical Certificate in Healthcare, Care and Childcare

We feel that the content meets both the needs of the employers in our sectors and those of the young people taking it, who are preparing for a career in health, working with adults or children.

This qualification allows the learner to gain these essential skills and knowledge to progress on to an Apprenticeship or into employment in these sectors.

We believe that the following practical skills and knowledge would give a young person an advantage when seeking employment and are essential for a new employee in Health, Care or Childcare:

- Working with people requiring healthcare and support services
- Working with adults requiring care and support services
- Working with children, young people and families in care and education
- Values, beliefs and behaviours for working in healthcare, care and childcare settings
- Communicating for effective practice in healthcare, care and childcare
- Working safely in healthcare, care and childcare environments
- Safeguarding and protecting vulnerable people
- Supporting health and healthy living in healthcare, care and childcare
- Principles and theories of human growth and development

We feel that once a learner has gained this qualification they would be ready for employment in positions such as:

- Care assistant
- Childcare worker/assistant

I confirm that we consent to our company name (and logo) being made publicly available on the DfE and City & Guilds websites.

Yours sincerely

Julie Yates
