

## Unit 303: Contribute to business success

### Activity 8: Kitchen technologies

---

Working individually, carry out further research on one of the following technologies used in one of the professional kitchens listed. Produce a poster presentation to describe how it support the kitchen operations:

- a) Temperature control
- b) Financial monitoring
- c) Preparation equipment
- d) Cooking equipment
- e) Operational tools
- f) Staff training

Types of kitchen:

- 1) Large hotel kitchen providing menu items for two restaurants and a banqueting facility.
- 2) A branded restaurant cooking all menu items to order.
- 3) A hospital kitchen providing breakfast lunch and dinner for patients, staff and visitors.
- 4) A central production unit providing cook chill items for a number of schools.

The poster presentations should be presented to peers to share findings.
