

Unit 304: Contribute to the guest experience

Activity 13: Availability of commodities

Working in small groups, research how the following external factors affect the availability of food commodities:

- climate
- culture
- economy
- geographical location.

You should consider a range of foods from the following groups:

- fruits
- vegetables
- meat and poultry
- fish
- dairy products
- spices and herbs
- dry goods.

Share your finding with peer groups for further discussion and to establish a definitive list.
