To Susie Brennan

I provide my support as an employer and consultant within the agricultural industry and feel that the following qualification:

- meets the industry needs by giving young people the practical skills and theoretical knowledge to work at higher levels within farming.
- would give a learner the relevant skills to gain employment and join an advanced or higher apprenticeship within a farming business.
- develop and confirm specialist knowledge and skills which are relevant to the agricultural industry at an ever increasing rate of change and use of technology.
- are suitable for a young person between the ages of 16-19 studying full-time
- will give the young person an advantage when applying for a job, apprenticeship or progressing into Higher Education

We W G Case Management Consultants support the inclusion of:
