Dear Susie

City & Guilds Level 2 Technical Certificate in Agriculture

We are a family farming company in Derbyshire. We specialise in crop and finished beef production.

We support the above qualification and feel that it is suitable for someone aged 16 years or over. It would provide the skills and knowledge required to provide an advantage for somebody applying for a job as a trainee stockperson, trainee tractor driver, machine maintenance operative or general farm worker. They could also progress into an apprenticeship or to further learning and training and qualifications at Level 3.

We support the inclusion of the following skills, knowledge and understanding within this qualification:

Health and safety in agriculture, working in the agricultural industry, estate maintenance skills such as fencing, work experience, agricultural machinery operation and tractor driving, farm animal production, health and welfare, crop husbandry and basic plant and animal physiology.

We consent for our company name to be made publicly available on the City & Guilds website.

Yours sincerely,
Richard Archer

Director, Mansell Park Farm Ltd
