Dear Susie,

We are a family farming business based in the Hope Valley in Derbyshire, Our enterprises include sheep and beef. We employ one person and contractors.

We would like to show our support for the following City and Guilds qualification:

Level 3 Advanced Technical Certificate in Agriculture

This qualification has been developed with the needs, relating to skills and knowledge, of the agricultural sector in mind and therefore the following have been included:

- Health and Safety
- Machinery operations
- Grassland production
- Livestock husbandry skills

We believe that the above practical skills and underpinning knowledge would give a young person an advantage when seeking employment and are essential for a new employee in the role of a General farm worker. We support the development of this City and Guilds Technical qualification and feel that it is fit for purpose across our industry.

We confirm that we consent to our name (Upper Booth Farm) being made publicly available on the City & Guilds website.

Yours sincerely,

Sarah Helliwell

S. E Helliwell
