## **Theory Exam Paper 1: Common core**

### **Sample mark scheme**

**September 2023 v2.1**

## Marker guidance

*Unless otherwise stated in the marker guidance for a specific question, the following conventions apply:*

- All marking, from start to finish must be consistent and in line with the mark scheme guidance. Continue to refer to the mark scheme throughout marking.
- For questions that ask for a specific number of points, accept the first answers given up to the number requested eg State three... only accept the first three answers listed, and disregard any additional answers provided.
- For questions requiring continuous prose answers, mark positively – all correct answers should receive the appropriate mark according to the mark scheme. Any wrong (**but neutral**) answers should be ignored, and no marks should be lost.
- In some circumstances, it is appropriate to disallow a candidate answer that initially appears to give the correct answer as given in the mark scheme, if it is undermined by the fact that it goes on to actively **contradict** its intention. Sometimes the minimal wording used in the mark scheme allows a match that in reality is trivial and it is clear the candidate is referring to the wrong knowledge/understanding. Only the part of the response to which the contradiction applies should be disallowed, not the whole response. Material that is irrelevant/neutral but not contradictory should be ignored and positive marking applied as above.
- Use the full range of marks for a question as described by the mark scheme – eg for a 2-mark question, 0, 1 or 2 marks will always be available to award (never just 0 or 2). For levels marking, the full range of marks should be used freely as described by the mark scheme including 0 and full marks.
- Always award whole marks; half marks cannot be awarded.
- Allow phonetic misspellings as long as the meaning is clear, ie not so similar to another relevant but wrong term that you have to guess which was intended.
- Only allow 'it' as reference to the question topic if it is clear what 'it' refers to.
- Mark crossed out work **unless** it has been replaced by another response.
- Where judgement is required, apply the guidance. Where the guidance does not sufficiently support for a particular candidate response/interpretation, contact your Team Lead.
- Accept alternative wording that reflects what is given in the mark scheme.
- Contact your Team Lead if any additional correct answers arise which need to be added to the mark scheme.
- For level of response mark schemes:

Note: indicative content has been provided to help orient the marking, providing a sense of the intentions of the question and expected parameters of the response. It is not exhaustive, and candidates do not need to cover all points referenced. Candidates may provide good quality responses while taking an approach which legitimately focuses either on breadth or depth given the time constraints. While the best responses are more likely to go to some depth across a broader range, there will be acceptable variation. Any pointers in the question towards coverage eg '...a range of...' should be kept in mind and balanced, through professional judgement, as to how much this affects the overall quality of the response when applying the marking instructions.

- o First, read the full candidate response and decide which band descriptor best fits the overall level of quality of the response, in the context of the indicative content.
- o Then, to decide on a mark within the band, consider the **degree to which the response fits the criteria**, as indicated by the diagram below:

Comprehensively	Top of mark range for the band	5 <sup>th</sup>	4th	3rd
Substantially	↑	4th	3rd	
Generally		3rd		2nd
		2nd	2nd	
Borderline	Positively mark and place on the bottom of the band	1st	1st	1st

The table below provides further detail on the descriptors used within each of the mark bands and what is expected at each level. Use the descriptors below alongside the mark scheme to support accurate and consistent judgment of candidate's response and allocation of marks.

AO2	AO3
<b>Basic</b>	
Limited understanding that is relevant to the context or question. Limited accuracy in interpretation through lack of application of relevant knowledge and understanding.	Limited accuracy in analysis through lack of application of relevant knowledge and understanding. Unsupported evaluation through lack of application of knowledge and understanding. Unsupported judgement through lack of application of knowledge and understanding.
<b>Good</b>	
Some understanding that is relevant to the context or question. Some accuracy in interpretation through the application of some relevant knowledge and understanding.	Some accuracy in analysis through the application of some relevant knowledge and understanding. Partially supported evaluation through the application of some relevant knowledge and understanding. Partially supported judgement through the application of some relevant knowledge and understanding.
<b>Thorough</b>	
A range of accurate understanding that is relevant to the context or question. Accurate interpretation through the application of relevant knowledge and understanding.	Accurate analysis through the application of relevant knowledge and understanding. Supported evaluation through the application of relevant knowledge and understanding. Supported judgement through the application of relevant knowledge and understanding.
<b>Comprehensive</b>	
A range of detailed and accurate understanding that is fully relevant to the context or question. Detailed and accurate interpretation through the application of relevant knowledge and understanding.	Detailed and accurate analysis through the application of relevant knowledge and understanding. Detailed and substantiated evaluation through the application of relevant knowledge and understanding. Detailed and substantiated judgement through the application of relevant knowledge and understanding.

This exam has been split into **two** sections.

Below details the types of questions and marks available for each section. Please allow time for each section accordingly.

**Section A** is made up of **44** marks and includes **16** short answer and medium answer questions.

**Section B** is made up of **36** marks and includes **3** extended response questions.

<b>Assessment Objectives</b>	<b>Mark allocation</b>
<p><b>AO1a Demonstrate knowledge</b></p> <p>The ability to demonstrate recall of relevant knowledge in response to straightforward questioning.</p>	<b>10%</b>
<p><b>AO1b Demonstrate understanding</b></p> <p>The ability to explain principles and concepts beyond recall of definitions, but in a general way – ie out of a particular context in response to straightforward questioning.</p>	<b>15%</b>
<p><b>AO2 Apply knowledge and understanding to different situations and contexts</b></p> <p>Using and applying knowledge and understanding, taking the understanding of generalities and applying them to specific situations. Questions are likely to ask for application in relation to a straightforward situation.</p>	<b>45%</b>
<p><b>AO3a Analyse information and issues</b></p> <p>Complex thinking that distinguishes patterns and relationships, breaking material into constituent parts, and determining how the parts are related to one another and holistically, inferring underlying assumptions/conditions/relevance/causation.</p>	<b>30%</b>
<p><b>AO3b Evaluate information and issues</b></p> <p>The ability to make judgements about the value, for some purpose, of own or others' work/ideas/solutions/methods using internal or external criteria or standards relevant for the occupational area. These criteria may include eg quality, accuracy, effectiveness, efficiency, coherence, consistency, and may be quantitative or qualitative.</p>

#### Analysis

Impacts on the business:

- Excess packaging of cardboard is an operating cost not needed.
- Vehicles running when they do not need to increases operating costs.
- Business is not aligning with current legislation including the Environment Act 2021 could result in the business not meeting its obligations and risking prosecution.
- Not demonstrating best practice in sustainability may impact the business reputation and customer focus.

#### Justifications

The three pillars of sustainability:

##### Environmental

- Packaging audit to reduce the size of the packaging which allows for more products to be transported in one journey.
- Replace plastic with bio-degradable packaging – to reduce waste and amount of recycling.
- Longer delivery window so the courier does not have to wait around – to reduce emissions, noise pollution, CO<sub>2</sub> emissions.
- Change to electrical vehicles as waiting time does not deplete the battery and therefore reduces emissions, noise pollution, CO<sub>2</sub> emissions.

	<ul style="list-style-type: none"> <li>○ responsible management of land, resources, wildlife, biodiversity for the higher environmental outcomes etc.</li> <li>○ sustainable management – The current packing does not meet sustainable policy – using too much cardboard and plastic.</li> <li>○ environment and energy – Cost of excess packing, vehicle running engine outside for considerable time.</li> </ul> <p>Social</p> <ul style="list-style-type: none"> <li>● Training of employees to ensure they are complying with sustainability policy, education of employees to ensure they are familiar with sustainable concepts – ensure correct size packaging is used.</li> <li>● Responding to customer concerns, positive branding to increase customer confidence, perception and reputation on sustainability concerns.</li> <li>● Advertise sustainable improvements improving wellbeing of stakeholders including staff and customers to ensure continuity of employment and contribution to society is valued.</li> </ul> <p>Economic</p> <ul style="list-style-type: none"> <li>● Less waiting time means less fuel consumption being used. Resulting in lower costs.</li> <li>● Smaller packaging reduces cost in materials and fuel costs as more products can be delivered per journey.</li> <li>● Use of alternative fuels bio diesels/electric will reduce fuel costs.</li> <li>● Advertising green credentials can potentially mean more customers, repeat business and therefore increasing profit.</li> <li>● Investment in the training of staff helps reduce turnover of staff and therefore not needing to pay for recruitment and retraining.</li> <li>● Compliance with legislation avoiding prosecution and fines.</li> <li>● Consideration of resource use, particularly energy, water etc to effectively manage business costs and enable profitable returns.</li> </ul> <p>Awareness that some actions have impact (eg carbon footprint), there may be a balance with environmental and social pillars a company needs to make which may impact on profitability.</p>
