What is the Qualifications and Credit Framework?

The Qualifications and Curriculum Authority are introducing the Qualifications and Credit Framework (QCF) to increase flexibility for learners and employers. It will allow learners to build towards a qualification, rather than having to do all of it at the same time. Qualifications may be built up from individual units according to rules of combination. The qualifications and rules of combination (structures) are set out in this handbook. The units are derived from the National Occupational Standards, which are compiled by Lantra SSC, the Sector Skills Council for the animal care industry.

Delivery and assessment of this qualification is similar to the previous NVQs but there are some administrative changes that centres will need to put in place, such as access to unique learner numbers.

Each unit has been assigned a number of credits and the units will be assessed in the workplace and build up to an Award, Certificate or Diploma depending on the total number of credits gained.

The Qualification

The Level 2 Award, Certificate and Diploma in Work-based Animal Care (0067-21-26) are a programme of workplace training and assessment leading to a nationally recognised qualification. They aim to:

- meet the needs of learners who work or want to work in the animal care sector
- allow learners to learn, develop and practise the skills required for employment and/or career progression in the animal care sector
- replace the following qualifications:
Level 2 NVQ in Animal Care (0255-40-52) which expired on 31/08/2009. (QAN 100/2436/0)

The Diploma is included in the Animal Care apprenticeship framework.

Level 2 Award in Work-based Animal Care (0067)

The aim of this qualification is to provide bite sized learning through a work-related, competence-based qualification which could then allow progression to further learning or qualifications such as the Level 2 Certificate in Work-based Animal Care.

Level 2 Certificate in Work-based Animal Care (0067)

The aim of this qualification is to provide a work-related, competence-based qualification. It reflects the skills and knowledge needed to do a job effectively and shows that a learner is competent in the area of work the qualification represents. The different routes available within this qualification include Animal Care and Welfare, Zoos/Wildlife Establishments, Dog Grooming, Pet Care and Retail, Animal Training and Service Dog Handling.

Level 2 Diploma in Work-based Animal Care (0067)

Assessment strategy

Centre staffing

Staff delivering these qualifications must be able to demonstrate that they meet the following occupational expertise requirements. They should:

- be occupationally competent or technically knowledgeable in the areas for which they are delivering training and/or have experience of providing training. This knowledge must be to the same level as the training being delivered
- have recent relevant experience in the specific area they will be assessing
- have credible experience of providing training.

Centre staff may undertake more than one role, eg tutor and assessor or internal verifier, but cannot internally verify their own assessments.

Assessors and internal verifiers

The centre must provide Assessor personnel who must be occupationally competent in the industry either qualified to at least level 2 and/or have current experience of working in the industry at this level. The centre must provide Internal Quality Assurance personnel who must be occupationally competent in the industry either qualified to at least level 2 and/or have current experience of working in the industry at this level. Assessors/Internal Quality Assurance personnel may hold relevant qualifications such as D32/33/34 or A1/V1 or TAQA however they are not a mandatory requirement for this qualification. They should have had formal training in assessment/IQA, which may be the qualifications above, or other training that allows the assessor to demonstrate competence in the practice of assessment/IQA. This training may be carried out in-house or with an external agency.

TAQA qualifications are considered very appropriate as Continuing Professional Development (CPD) or as best practice standards for new centre staff to work towards

Appeals and Equal opportunities

Centres must have their own auditable, appeals procedure. If a learner is not satisfied with the examination conditions or a learner feels that the opportunity for examination is being denied, the Centre Manager should, in the first instance, address the problem. If, however, the problem cannot be resolved, City & Guilds will arbitrate and an external verifier may be approached to offer independent advice. All appeals must be clearly documented by the Centre Manager and made available to the external verifier or City & Guilds if advice is required.

Should occasions arise when centres are not satisfied with any aspect of the external verification process, they should contact their City & Guilds local office.

Access to the qualification is open to all, irrespective of gender, race, creed, age or special needs. The Centre Manager should ensure that no learner is subjected to unfair discrimination on any grounds in relation to access to assessment and to the fairness of the assessment. QCA requires City & Guilds to monitor centres to check whether equal opportunities policies are being adhered to.

For learners with particular requirements, centres should refer to City & Guilds' policy document Access to Assessment and Qualifications, which is available from www.cityandguilds.com

Centre and qualification approval

New centres must apply for centre and qualification approval. Further information on this process is available on the City & guilds website.

Existing City & Guilds centres will need to get specific qualification approval to run this qualification. They should contact their City & Guilds Local Office.

Full details of the process for both centre and qualification approval are given in 'Providing City & Guilds qualifications – a guide to centre and qualification approval' which is available from **www.cityandguilds.com**

City & Guilds reserve the right to suspend an approved centre, or withdraw their approval from an approved centre to conduct a particular City & Guilds qualification, for reasons of debt, malpractice or for any reason that may be detrimental to the maintenance of authentic, reliable and valid qualifications or that may prejudice the name of City & Guilds.

Registration and certification

- Learners must be registered at the beginning of their course. Centres should submit registrations using Walled Garden or Form S (Registration), under the appropriate qualification/complex.
- Certification modules must be submitted before certification can take place (See page 11 for details).
- Learners achieving the number and combination of assessment components required for the Award, Certificate and Diploma will, in addition, be issued an appropriate Certificate.

Full details on the procedures for these qualifications will be found in the City & Guilds On-line Catalogue. This is accessed through the Walled Garden.

The units

As units are signed off as completed the record of units achieved proforma should be updated

How to use the Evidence Recording Sheets

There is a column alongside the assessment criteria. In this Qualification handbook this column is used for assessor guidance. In the Learner guide this column is used for recording the evidence. Records of direct observation may be written directly into this column or, if the evidence is on a separate document, the reference of where the evidence can be found should be entered here. If the evidence is cross reference to elsewhere in the Learner guide and logbook then the reference to where it may be found should be inserted.

For underpinning knowledge criteria, the answers may be written in directly or completed on a separate page which can be referenced in the normal way. Below is an example of how a recording sheet may look, with entries by the learner, the supervisor and the assessor. Although several people may enter information here, it remains the responsibility of the assessor to judge the evidence presented is sufficient, authentic and valid.
