Equal opportunities

City & Guilds wholeheartedly supports the principle of equal opportunities in employment, subcontracting and delivery of assessment services. We oppose all forms of unlawful or unfair discrimination on the grounds of colour, race, nationality, ethnic or national origin, religion or belief, sexual orientation, marital status, age or disability.

We believe that it is in City & Guilds' interests, and the interests of those who work for or in association with City & Guilds, to ensure that the human resources, talents and skills available throughout the community are considered when employment or work opportunities arise. To this end, within the framework of the law, we are committed, wherever practicable, to achieving and maintaining a workforce which broadly reflects the local community in which we operate. Every step will be taken to ensure that individuals are treated equally and fairly and that decisions on recruitment, selection, training, promotion and career management are based solely on objective and job related criteria.

Similarly, we will strive to ensure that all Learners have equal access to assessment and that they are protected against unfair or unlawful discrimination, unnecessary barriers to assessment or harassment during assessment.

For a copy of our Equal Opportunities Policy please contact your assessment centre or City & Guilds at the above address.

Every effort has been made to ensure that the information contained in this publication is true and correct at the time of going to press. Level 3 Award, Certificate and Diploma in Work-based Animal Care (0067)

What is it all about?

You are about to start a programme of work-based training and assessment leading to a nationally recognised qualification, based on the National Occupational Standards for the industry. This Learner guide has been written in order to provide you with information and support as you work through to achieving your qualification. As you make progress you will be able to demonstrate that you have the necessary practical skills and the knowledge to do your work effectively and efficiently.

Introduction

This document contains the information for the following qualifications:

Qualification title(s) and level(s)	City & Guilds qualification number(s	Ofqual accreditation number(s)	Last registration date	Last certification date

The Qualifications

Level 3 Award in Work-based Animal Care (0067)

The aim of this qualification is to provide bite sized learning through a work-related, competence-based qualification which could then allow progression to further learning or qualifications such as the Level 3 Certificate in Work-based Animal Care.

Level 3 Certificate in Work-based Animal Care (0067)

The aim of this qualification is to provide a work-related, competence-based qualification. It reflects the skills and knowledge needed to do a job effectively and shows that a Learner is competent in the area of work the qualification represents. The different routes available within this qualification include Animal Care and Welfare, Zoos/Wildlife Establishments, Dog Grooming, Pet Care and Retail, Animal Welfare Enforcement, Animal Training, Dog Animal Wardens, and Animals in Education and Entertainment.

Level 3 Diploma in Work-based Animal Care (0067)

This qualification will form part of the Advanced Apprenticeship framework for Animal Care. It is a work-related, competence-based qualification. It reflects the skills and knowledge needed to do a job effectively and shows that a Learner is competent in the area of work the qualification represents. The different routes available within this qualification include Animal Care and Welfare, Zoos/Wildlife Establishments, Dog Grooming, Pet Care and Retail, Animal Welfare Enforcement, Animal Training, Dog Animal Wardens, and Animals in Education and Entertainment.

The Diploma is included in the Animal Care apprenticeship framework.

Who will be involved?

The Learner

That's you! You will need to:

- · negotiate and agree an assessment programme with your assessor
- negotiate and develop a personal action plan with dates for review and assessment
- collect the evidence which proves your competence in your job
- organise and reference the evidence in a portfolio
- judge the evidence against the standards of competence to see whether it is adequate to present for assessment
- present the evidence for assessment; this may include:-
 - attending an assessment interview
 - being available to discuss your evidence with the internal and /or external verifier if requested

Later in this guide we will explain how you can identify and collect evidence and how you can prepare for being assessed in your daily work.

The assessor

- will have experience in your area of work, must be occupationally competent and may be your immediate supervisor or manager or a visiting assessor from a training centre who will visit you a minimum of 3 times to observe you at work
- will be experienced in assessing
- will themselves have achieved a higher qualification or have significant and current experience in the area of assessment. Therefore you may have more than 1 assessor
- can advise you on the planning and organisation of your evidence
- is responsible for making the decisions about your evidence and judging when you are competent.

The internal verifier

- is appointed by the centre where you are registered
- is responsible for maintaining the quality of assessment within the centre by checking the assessment decisions made by assessors
- will have experience in your area of work and must be occupationally competent
- will themselves have achieved a higher qualification or have significant and current experience in the area of assessment to allow them to act as an internal verifier.

The external verifier

- is appointed by City & Guilds to ensure that all assessments undertaken in your centre are
- fair, valid, consistent and that your centre meets the required national standard
- will make regular visits to your centre to observe assessments and examine portfolios of evidence
- makes regular reports to City & Guilds confirming what happens with assessment practice in your centre.

The expert witness

Wherever possible, the evidence which you produce should be witnessed. For example your assessor, line manager or colleagues may witness an activity or authenticate a document as being your own work.

Witness status

Witnesses fall into three main categories of experience:

- 1. Occupational expert and D32/D33 or A1/A2 assessor who is familiar with the standards
- 2. D32/D33 or A1/A2 assessor without occupational competence
- 3. Occupational expert who is familiar with the standards.

In some circumstances it may be possible to accept witness testimony from a non-occupational expert, e.g. for evidence for a non-vocationally specific skill such as dealing with clients, validating a competition result. In these cases, the following two categories of witness may be valid:

- 4. Occupational expert who is not familiar with the standards
- 5. Non-expert not familiar with the standards, e.g. a customer.

Why do you need witnesses?

It is important to demonstrate that the evidence was produced by you under the circumstances described. The witness is therefore able to observe and report on your performance on tasks which produce evidence towards the work-based qualification. The job of the expert witness is to report to the assessor their observations of your performance. The assessor will then judge whether the evidence is sufficient.

How do you involve a witness?

The key to this is planning. In many cases someone, for example a colleague, may naturally be involved with your work and so be able to witness and authenticate evidence. However, if the work is usually unobserved, you might arrange for someone to be present (where practical) to observe your performance. Alternatively where you are working directly with or for a customer, you might ask the customer to act as a witness.

What do they have to do?

After observing your work, the witness will need to write a short statement describing what you actually did. The witness should be aware of assessment criteria for the activity and the evidence requirements which are explained in the qualification handbook. As you will be aware of the standards and the evidence you require, you may decide to write out the statement yourself and ask you witness to read it and sign if they agree with it.

You may also provide statements for yourself, e.g. to justify why you produced a product in a particular way, but this would usually need to be augmented by supplementary evidence such as a work sheet or witness statement from a customer.

A Witness Status List and a Witness Statement Form have been included in the portfolio builder pack for you to photocopy and use.

You must ensure that each witness is recorded with a sample signature in the Witness Status List. Only the approved assessor is qualified to judge the evidence. The job of the expert witness is to report to the assessor their observations of the learner's performance.

How will my competence be assessed?

Occupational competence can be described as the consistent demonstration of skill, knowledge and understanding, to the standard specified by the assessment criteria for each unit of the work-based qualification. Each unit relates to competence in a different area of activity within a job.

Assessment of your competence will be based upon realistic work place situations, performing purposeful and recognisable tasks which will require a combination of skills and related knowledge.

What is evidence?

Evidence is what you will need to provide in order to prove your competence, your ability to do the job and so meet the standards. You can draw on past experience to provide such evidence as well as collecting evidence from your current job. Your evidence will need to be filed and indexed in a portfolio. You will need to map your evidence to the assessment criteria and present it for assessment when you think each unit is complete.

Most assessment for your work-based qualification will be carried out by your assessor judging the evidence about tasks you have carried out. There are five basic sources of evidence and you may collect evidence from all of them:

Performance at work

Observation in the workplace is an essential source of evidence. Your assessor may watch you working and assess your performance against the unit.

Assessment guidance and examples of evidence have been provided for each assessment criteria in the unit. Evidence may also be provided by witness statements, work records, job sheets, or a diary of your work. In this case, you need to match the evidence provided by witnesses against the unit. Although evidence can be provided by witnesses, no unit of your work-based qualification can be signed off as complete without the involvement of a qualified assessor to judge the evidence presented.

Performance of specially set tasks

You may be asked to undertake a particular activity, e.g. a simulated task, project or case study, sometimes in a college or other training environment.

Questioning

Questioning may be written or oral, usually occurring as a result of an observed assessment.

Your assessor will ask you questions to make sure you have the necessary knowledge and understanding to carry out your job activities to the required standard. Historical evidence

You may have done things in the past which are applicable to your work-based qualification. These may be used as evidence, provided that they are sufficiently current and relevant to the qualification standard, e.g. a relevant qualification. This is sometimes known as Accreditation of Prior Learning (APL).

Simulation

Simulation should only be used where it is difficult to collect evidence through a real work situation, the real work environment or within an acceptable time frame. Simulations will usually deal with contingencies such as unexpected problems, emergencies or other incidents, which will not necessarily occur frequently.

Background evidence and previous experience

It is useful to include a copy of your CV, a copy of your previous or current job description, any previous certificates which relate to this qualification.

You can also include performance evidence from previous experiences and achievement

- CV
- Job descriptions
- Certificates
- Records of achievement
- Accounts of experience
- Case studies or projects from previous work
- Licences
- · Records of courses attended
- Staff appraisals
- Products
- Endorsements
- Employer references

If you wish to bring forward a large amount of evidence from past experience, please discuss this with your assessor to help you plan the presentation of this evidence.

Observed performance and products of performance

Work is a natural source of evidence and if your work includes the activities described in the assessment criteria for any of the units of the work-based qualification, then your assessor can readily observe you to judge your competence. If the activity covered by a unit is rare and is not likely to occur during the assessment period, then your assessor may advise you to use an alternative source of evidence or arrange a simulated activity for you.

Often there are products from work activities which maybe used as a valuable source of evidence, for example:

- Letters relating to work
- Completed Forms
- Job Sheets
- Plans
- Diaries
- Completed projects, case studies or assignments that are part of your work
- Finished or end products
- Witness statements about your work
- Contact with clients
- Memos

- Reports
- Logbooks
- Checklists
- Tape recordings
- Visual aids/photographs/videos
- Authenticated reports from appropriate personnel, e.g. line managers
- Staff appraisals
- References received
- Witness Statements from clients

Supplementary evidence

In addition to direct observation of your work activities and judging the evidence provided by products of this work and witness testimony, it will be necessary for your assessor to seek supplementary evidence. This may be done by asking you to:

- provide answers to oral or written questions
- attend a professional discussion
- complete written tests
- provide a written personal account to support other evidence.

Portfolio building

The generic document 'Portfolio builder pack for Learners and assessors' contains the documents we have produced to help you plan your work and record the evidence. You may not need all of the forms; they are there to help if you need them.

If witness statements are to be used, the witness should complete/amend one line of the Witness Status List, providing a specimen signature.

You must use the evidence summary sheets provided for each element. These allow you to collate all the evidence you have collected for an element and to cross reference evidence from other parts of your portfolio.

Your assessor should complete the 'Record of Units Achieved' as each unit is signed off.

When requested, your portfolio must be available for inspection by the internal verifier and the external verifier during their visits. Only approved assessors and internal verifiers can confirm that you have completed a unit and the assessor completes your 'Record of Units Achieved'.

Supporting Information

The following categories of information are not regarded as Performance Evidence, nor will they meet your requirements to demonstrate your Knowledge and Understanding.

They will however, provide valuable supporting information for you, which should be kept in a separate information file.

This information should not be included as part of the Portfolio of Evidence:

- leaflets or booklets supporting legislative requirements
- the session plans or overall content of training programmes
- any notes or information handouts from training courses
- booklets explaining company operating policy or work procedures, unless they are evidence of systems that you have developed at work
- handbooks describing e.g. how the company computer system works
- technical information about specific products supplied by manufacturers product catalogues.

Assessment for Learners completing the Level 3 Diploma in Work-based Animal Care as part of the Advanced Apprenticeship framework

Learners who are completing the Level 3 Diploma in Work-based Animal Care as part of the Advanced Apprenticeship framework are required to undertake an independent assessment in the form of a short answer written test and an assignment. This covers the underpinning knowledge elements of the units included within the test and assignment. The test is specific to the qualification route chosen and may be taken three times a year. Exam dates are available on the Walled Garden. These tests are dated entry exams. Test specifications for the different routes are available below.

Centres will be required to provide Lantra SSC with evidence that the short answer written test and assignment has been achieved before certification takes place.

Appeals and Equal opportunities

Centres must have their own auditable, appeals procedure. If a Learner is not satisfied with the examination conditions or a Learner feels that the opportunity for examination is being denied, the Centre Manager should, in the first instance, address the problem. If, however, the problem cannot be resolved, City & Guilds will arbitrate and an external verifier may be approached to offer independent advice. All appeals must be clearly documented by the Centre Manager and made available to the external verifier or City & Guilds if advice is required.

Should occasions arise when centres are not satisfied with any aspect of the external verification process, they should contact Verification Services at City & Guilds.

Access to the qualification is open to all, irrespective of gender, race, creed, age or special needs. The Centre Manager should ensure that no Learner is subjected to unfair discrimination on any grounds in relation to access to assessment and to the fairness of the assessment. Ofqual requires City & Guilds to monitor centres to check whether equal opportunities policies are being adhered to.

For Learners with particular requirements, centres should refer to City & Guilds' policy document *The application of reasonable adjustments and special considerations in vocational qualifications*, which is available from www.nptc.org.uk

How to use the Evidence Recording Sheets

There is a column alongside the assessment criteria. In this Qualification handbook this column is used for assessor guidance. In the Learner Guide this column is used for recording the evidence. Records of direct observation may be written directly into this column or, if the evidence is on a separate document, the reference of where the evidence can be found should be entered here. If the evidence is cross referenced to elsewhere in the Learner Guide and Logbook then the reference to where it may be found should be inserted. For underpinning knowledge criteria, the answers may be written in directly or completed on a separate page which can be referenced in the normal way.

Below is an example of how a recording sheet may look, with entries by the learner, the supervisor and the assessor. Although several people may enter information here, it remains the responsibility of the assessor to judge the evidence presented is sufficient, authentic and valid.

In the example above, Alan Boss is the learner's manager, Anthony Other is the assessor and Joe Goodman is the Learner. All 3 can complete sections of the Learner's logbook. Supplementary evidence needs to be referenced as in previous NVQ qualifications. Eg in the example above the learner's Appraisal current skills and action plan would be referenced as Evidence 1.

Guidance on the unit is given at the top. Any items of scope are dealt with within the assessment criteria: they do not have to be recorded separately. Alan Boss, and anyone else providing evidence, except the Learner and the assessor, would need to complete a line on the Witness status list.

TITLE	Implement, monitor and evaluate plans for the health and welfare of animals	Learner's name
	3	
	6	
	L/502/1565	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to implement, monitor and evaluate plans for the health and welfare of animals in a broad sense.

It involves the implementation of plans to maintain animal health and welfare in relation to health promotion measures, feeding, maintenance of living conditions and exercise and promoting health and safety.

The Learner needs to complete this unit with more than one animal, which could be one or more species.

Simulation will not be acceptable.

Relationship to National Occupational Standards: AC10

	A/502/1609	

The aim of this unit is to provide the learner with the knowledge and skills required to deal with visitors to sites. It covers caring for and monitoring the behaviour of visitors in the workplace, and providing them with information. Workplaces may be open to the public or may be organisations to which visitors are invited or where officials have the right of access.

Learners should be aware of their limitations and should not put themselves in potentially dangerous situations to achieve this unit, Simulation will not be acceptable.

Relationship to National Occupational Standards : AC6

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to welcome and receive visitors.	1.1 Keep the area in a state of readiness to receive visitors safely.	
	1.2 Greet and communicate with visitors in an appropriate manor.	
	1.3 Identify and report inappropriate visitors.	

	1.4	Work in a way which promotes health and safety, is consistent with relevant legislation and codes of practice.	
Be able to care for visitors.	2.1	Care for visitors in accordance with their needs and relevant policies.	
	2.2	Refer visitors to the appropriate source of information.	
	2.3	Manage visitors to the site in a way which is consistent with its purpose and condition, and in a manner which promotes their own safety and security.	
Know how to welcome and receive visitors.	3.1	State the preparations required for the arrival of visitors covering groups and individuals.	
	3.2	Outline the importance of creating a positive first impression and how this is achieved.	

	3.3	Describe how to recognise those visitors who should not be on the site and understand the limitations and the dangers in being able to deal with them.	
	3.4	List potential sources of information for visitors covering groups and individuals.	
	3.5	Describe effective methods of communicating to groups and individuals.	
Know how to care for visitors.	4.1	Outline how to monitor visitors' needs and when to intercept to offer help.	

	4.2 Describe how the purpose of the site can be maintained whilst accommodating the needs and security of visitors covering all of the following: (i) supporting visitors in terms of their safety and welfare (ii) providing information to visitors (iii) caring for the environment (e.g. by restricting access) (iv) maintaining the biosecurity of the site (v) maintaining the welfare of the animals.
5. Know the relevant health and safety procedures.	5.1 Describe how bio-security and welfare can be maintained on sites open to visitors.

	R/502/1020	

The Learner must have a good understanding of the animal abandonment act.

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to provide advice and guidance to prospective keepers on the choice and care of animals.

It covers the likely needs, temperament and behaviour of animals for which they may wish to provide a home. It reflects the need to assess and verify that prospective owners recognise and understand their duties and obligations as keepers of an animal, and that the facilities that they are able to offer are suitable for the animal. It includes advising on the suitability of an animal, the care required by an animal and the likely costs of keeping them. This information needs to be clearly and effectively communicated.

Relationship to National Occupational Standards: AC12.1

Learner Outcomes	Assessment Criteria	
The learner will:	The learner can:	
Be able to advise prospective keepers on the choice and care of animals.	1.1 Give advice on the likely growth and behaviour patterns of a young animal clearly and in a manner and pace suitable for the individual.	
	1.2 Clearly explain the animal's needs in relation to meeting the five needs.	

1.3	Clearly detail the likely maintenance costs over an average lifetime: (i) food (ii) medical and care fees (iii) training (iv) accessories (v) adaptations to living space and vehicles.	
1.4	Offer and explain written information to reinforce advice and information.	
1.5	Encourage potential keepers to ask questions, seek clarification and make comments at appropriate stages in the discussion.	
1.6	Make recommendations regarding the choice of animal and its care which are tactful and clearly related to the animal's needs and the care and facilities that the potential keeper can offer.	

82

1.7	Accurately assess the animal's temperament and its likely reaction to factors in the new environment and communicate your assessment to the potential keeper. Provide advice relating to the following factors in the new environment: (i) presence of other animals (ii) presence of people	
	(iii) access to space for recreation (iv) space (v) security.	
1.8	Clearly explain any conditions, care and support services offered by the organisation (if applicable).	
1.9	Inform prospective keepers of any behavioural or medical conditions that the animal has that may affect their decision.	
1.10	Confirm the prospective keeper's understanding of advice about the animal and their intention to proceed.	

Understand how to advise prospective keepers on the choice and care of animals.	2.2	Describe the normal behaviour patterns, temperament and growth of a selection of animals relevant to the organisation. Explain the needs of animals for company, exercise, food, and space.	
	2.3	Explain how to estimate maintenance costs for an animal and the factors that should be included: (i) food (ii) medical and care fees (iii) training (vi) accessories (vii) adaptations to living space and vehicles.	
	2.4	Explain the training options for different types of animals.	
	2.5	Describe how to adapt communication methods to meet the needs of individuals.	

2.6	State the sources of information and specialist advice.	
2.7	Assess and explain the likely reactions of animals to new environments: (i) presence of other animals (ii) presence of people (iii) access to space for recreation (vi) space (vii) security.	
2.8	Define and explain the five animal needs.	
2.9	Explain any additional requirements or conditions that may be required from prospective keepers to meet their responsibilities within the legislation and codes of practice.

	K/502/1637	

Learners need to be aware of the zoo licensing act.

Simulation will not be acceptable.

Learners must be aware of the wildlife and countryside act, the wild animals act, and zoo licensing act as appropriate.

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to monitor and evaluate progress of the establishment and management of wild animal populations and to intervene where establishment and management are not going according to plan.

Relationship to National Occupational Standards: AC13.2

Learner Outcomes	Assessment Criteria	
The learner will:	The learner can:	
Be able to monitor and evaluate the establishment and management of wild animal populations.	1.1 Select monitoring methods which are appropriate to the establishment and management plan and those implementing it.	
	1.2 Monitor establishment and management at optimal frequencies to evaluate progress against the following aspects of adherence to plan: (i) quality of outcomes (ii) quality of working methods and practice (iii) resource use (iv) scheduling (v) progress.	

	1.3 Take the appropriate action as necessary when monitoring reveals deviations from the plan. Action to include: (i) cessation of work (temporary or permanent) (ii) reporting to others in responsibility (iii) feedback information for review of plan.	
	Take the appropriate action where unforeseen circumstances arise during establishment and management.	
Understand how to monitor and evaluate the establishment and management of wild animal populations.	2.1 Describe how to select appropriate methods for monitoring adherence to plan covering: (i) quality of outcomes (ii) quality of working methods and practice (iii) resource use (iv) scheduling (v) progress.	
	2.2 Explain the factors which damage the establishment of animal populations and how these can be countered.	

2.	.3 Assess the factors that aid population growth and describe how these can be encouraged.	
2	 Explain actions to be taken when monitoring reveals deviation from plan: (i) cessation of work (temporary or permanent) (ii) reporting to others in responsibility (iii) feedback information for review of plan. 	
2.	.5 Describe the methods available for determining the appropriate responses to unforeseen circumstances.

	2	
	R/502/0675	

The aim of this unit is to provide the learner with the knowledge and skills required to provide information on how to maintain the behaviour, health and welfare of animals. It is not intended for those who specialise in animal behaviour or animal health

The learner will prepare and provide accurate and complete information and present it in a manner that is suitable for the audience Simulation will not be acceptable.

Relationship to National Occupational Standards: AC14.1

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to provide information on how to maintain the behaviour, health and welfare of animals.	 1.1 Supply appropriate information on maintaining the health and welfare of animals which is consistent with organisation policy on health promotion. 1.2 Supply appropriate information on the behaviour which is typical of the animal. 	
	1.3 Provide guidance on alternative sources of information where individuals might benefit from it.	

100

	1.5	Provide health promotion and risk reduction advice in a manner, and at a level and pace, which is appropriate to the individual(s) you are advising. Offer individuals the opportunity to discuss and seem clarification on any health matters.

	2.3	List the main sources of information e.g. organisations, references, legislation.	

2.4 Assess the limitations of your own knowledge and competence and how this influences the amount of information you can provide. 2.5 Describe the potential problems
which may arise if the wrong information is given.
2.6 Describe how to recognise abnormal behaviour in animals.
2.7 State the importance of maintaining confidentiality.
2.8 Explain your own responsibility under health and safety and animal welfare legislation when providing information.
2.9 Explain how good practice can be promoted to others and how your own behaviour can influence this.

	2.10 Explain the main requirements for risk reduction covering: (i) Encouraging the individual to change the way they currently care for the animal (ii) Medication for particular conditions (iii) Health and safety to the animal and the owner.	Learners should be encouraged to take a broad overview of the range of situations that this may be applicable for.

TITLE	Recognise and interpret the behaviour	Learner's name
	of animals.	
	3	
	4	
	L/502/1632	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to recognise and interpret the behaviour of animals in order to identify options for action which are best for the individual animal and the person.

It is not intended for those who specialise in animal behaviour but is for those who carry out such interpretation in a support capacity. Simulation will not be acceptable .

Relationship to National Occupational Standards: AC14.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to recognise and interpret the behaviour of animals.	1.1 Obtain relevant information on the individual animal behaviour to determine the nature of its behaviour or whether the animal is behaving abnormally. Information may be obtained by: (i) personal observation (ii) reports of owners (iii) reports from others.	

1.2 Evaluate the range of situations and influences which may be affecting the animal, and identify those which are most likely to be affecting the animal. Influences could include: (i) the behaviour of people (ii) the behaviour of other animals (iii) the environment.	
1.3 Analyse the impact of the owner's behaviour on the animal: (i) the ways in which animals are conditioned to respond (ii) the ways in which animals react to particular incidents (iii) the influence of animals' previous experience of humans in particular situations.	

105

	1.4 Explore the possible options for action and identify the best for the individual animal and person. Options could include: (i) individuals changing their behaviour (ii) changing animals' environment (iii) altering the other animals who are present.
	1.5 Monitor the result of changing animal and individual behaviour and give follow-up advice where necessary.
Understand how to recognise and interpret the behaviour of animals.	2.1 Explain the following animal behaviour: (i) behaviour which is normal to the type (ii) behaviour which is normal to the animal concerned (iii) unexpected/abnormal behaviour to the animal or type.
	2.2 Describe the effective ways of handling and managing animals which contributes to their health and welfare.

106

2.3 Explain the effects of human behaviour on animals and how animals can learn responses from humans covering: (i) the ways in which animals are conditioned to respond (ii) the ways in which react to particular incidents (iii) the influence of animals' previous experience of humans in particular situations.	
Assess the limitations of own knowledge and competence and hence the amount of information which can be provided. Describe the potential	
problems which may arise if the wrong information is given.	

2.6 Explain how situations and influences may affect the behaviour of the animal: (i) the behaviour of people (ii) the behaviour of other animals (iii) the environment. 2.7 Describe how to assess what may be affecting animal behaviour.
2.8 Describe how to encourage individuals to think through how their own behaviour may be affecting animals and how they may alter it
constructively. 2.9 Explain the possible options for action when there are changes in animal behaviour: (i) individuals changing their behaviour (ii) changing animal's environment (iv) altering the other animals who are present.
2.10 Summarise current health and safety and animal welfare legislation, codes of practice and any additional requirements.

	J/502/1631	

The aim is this unit is to provide the learner with the knowledge, understanding and skills required to contribute to the prevention of aggressive and abusive behaviour. The learner will identify signs of disruptive behaviour and how their own actions and behaviour can affect that of others.

There should be clear organisational guidelines and guidance regarding the managing of potentially aggressive and abusive behaviour of people which the Learner should be familiar with. Learners should be aware of their limitations of responsibilities in the advice they give and the actions they take. It should be ensured that the assessment does not endanger or cause additional risk to the persons involved. Simulation will not be acceptable.

Relationship to National Occupational Standards: AC15.1

Learner Outcomes	Assessment Criteria	
The learner will:	The learner can:	
Be able to take action to discourage aggressive and abusive behaviour of people.	1.1 Approach individual/s in a manner which is likely to be perceived as non-threatening and which is consistent with any legal and organisational constraints.	

1.2	Communicate with individual/s	
	in a manner which:	
	(i) is free from

	F/502/1563	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to plan and prepare for the release of native animals into natural habitats.

The learner will be able to determine the suitability of the habitat and identify the animal in preparation for release monitoring. It will also be necessary to assess the risks involved in releasing the animal, adopt appropriate methods of release and use these methods effectively and safely. The learner will also be required to transport and handle the animal in a manner that is appropriate, reduces stress and is safe. Relationship to National Occupational Standards: AC20

Learner Outcomes The learner will:	Assessment Criteria The learner can:	For inserting direct evidence or referencing to where the evidence can be found
Be able to plan to release animals.	1.1 Assess suitability for the animal to be released.	
	1.2 Assess the site to determine the suitability of habitat.	
	1.3 Prepare site for release of animals.	

	1.4 Ensure your own actions minimise the impact of interference to the planned release from one of the following: (i) Human/s (ii) Pest and/or predators.
	1.5 Select and use at least one of the following methods, to identify the animal, in preparation for release monitoring: (i) ringing (ii) tagging (iii) identichip (iv) tattoo (v) individual markings (vi) centre records (vii) hair clippings (shortterm solution).
2. Be able to maintain and use relevant equipment.	2.1 Ensure the necessary equipment is correctly and safely prepared for use: (i) Equipment for identification (ii) Transporting (iii) Release (iv) Handling.
3. Be able to release animals.	3.1 Transfer the animal safely to release area in a way which minimises stress.

156

	3.2	Release the animal in a manner which maintains their welfare and minimises stress.	
	3.3	Observe behaviour and condition of the animal for signs of stress or disorder – before, during and after release.	
	3.4	Delay release if necessary according to site and animal conditions.	
Be able to maintain records.	4.1	Provide clear and accurate information for recording purposes.	
5. Be able to promote health and safety and environmental good practice.	5.1	Work in a way which promotes health and safety, animal welfare and is consistent with relevant legislation, codes of practice and any additional requirements.	
	5.2	Ensure work is carried out in a manner which minimises environmental damage.	

	5.3	Comply with relevant legislation for handling transport and release of animals.	
6. Understand how to release animals.	6.1	Explain how to determine the suitability of the site.	
	6.2	Explain why and when you identify the animal for release.	
	6.3	Describe the interferences that can affect the release and explain how they can be minimised/controlled covering: (i) Human/s (ii) Pest and/or predators.	
	6.4	Explain how to minimise damage to natural habitat and wildlife during release.	
	6.5	Explain the appropriate methods of release for the animals you have identified.	

7.	Know the type of equipment used for release.	7.1	Describe the types of equipment used within the release process.	
		7.2	Explain the methods and importance of maintaining equipment for use.	
8.	Understand how to maintain the health and welfare of animal for release.	8.1	Explain the conditions required to maintain the animals' health, safety and welfare during transfer.	
		8.2	Describe the signs which indicate stress and disorder in animals and the appropriate action to take.	
		8.3	Explain expected behaviour during release and the actions to be taken if behaviour varies from the norm.	
9.	Understand how to monitor and record release.	9.1	Describe how and when post- release monitoring and recording is undertaken.	

	9.2	Explain the records required for management and legislative purposes and the importance of maintaining them.	
10. Understand relevant health and safety legislation and environmental good practice.	10.1	Summarise current health and safety and animal welfare legislation, codes of practice and any additional requirements.

	6	
	T/502/1706	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to carry out styling and finishing for dogs using various trimming methods ensuring the methods are suitable for both the dog and the client. Simulation will not be acceptable. Relationship to National Occupational Standards: AC29

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to carrying out styling and finishing for dog.	1.1 Use the correct trimming methods for the work: (i) scissored coat (ii) hand-stripped coat (iii) clipped coat. 1.2 Produce three of the required head shapes and style the dog in accordance with the agreed plan and the type of breed: (i) round head (ii) head with short split eyebrows (iii) head with long split eyebrows (iv) head with centre fall eyebrows (v) clean head (vi) clean face.	

	1.3	Carry out your work with due attention to the welfare of the dog.	
	1.4	Complete your work in the required timescale.	
Be able to maintain and use relevant equipment.	2.1	Ensure equipment is prepared, used and maintained in a safe and effective condition throughout.	
	2.2	Accurately record the equipment and styling and finishing methods used.	
Be able to promote health and safety and environmental good practice.	3.1	Work in a way which promotes health and safety, animal welfare, is consistent with relevant legislation, codes of practice and any additional requirements.	
	3.2	Ensure work is carried out in a manner which minimises environmental damage.	

		3.3	Manage and dispose of waste in accordance with legislative requirements.	
4.	Understand how to carrying out styling and finishing for dog.	4.1	Explain the techniques for styling and finishing.	
		4.2	Explain all the different trimming methods: (i) scissored coat (ii) hand-stripped coat (iii) clipped coat.	
		4.3	Explain how to produce all the required head shape and style the dog in accordance with the agreed plan and the type of breed: (i) round head (ii) head with short split eyebrows (iii) head with long split eyebrows	
			(iv) head with centre fall eyebrows (v) clean head (vi) clean face.	

	4.4 Explain why it is important to discuss and follow the client's requests for styling.
	4.5 Identify different types of breeds and explain how styling is achieved for each.
	4.6 Describe how to maintain the welfare of the dog during the work.
5. Understand the reasons for maintaining equipment.	5.1 Explain the importance and methods of maintaining equipment for use.
	5.2 Describe the type of equipment used for styling and finishing and how to use the equipment correctly: (i) clippers and blades (ii) scissors (iii) thinning scissors (iv) stripping tools.

6. Understand relevant health and safety legislation and environmental good practice.	6.1	Summarise current health and safety legislation, animal welfare, codes of practice and any additional requirements.	
	6.2	Describe the possible environmental damage that could occur and how to respond appropriately.	
	6.3	Explain the correct and appropriate methods for disposing of waste.	
	6.4	Explain how to maintain health and safety for themselves, colleagues and others.	
	6.5	Explain the records required for management and legislative purposes and the importance of maintaining them.

The aim of this unit is to provide the learner with the understanding, knowledge and skills required to construct new structures and surfaces on land-based sites. Structures may be permanent or temporary and could include: drains, permanent drainage systems, boundaries, animal holding pens and poly tunnels etc. Surfaces may include: standing areas, container beds and pathways.

Simulation will not be acceptable.

Relationship to National Occupational Standards: CU21.1.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Prepare to construct new structures and surfaces.	1.1 Prepare the site in a manner appropriate for the structure or surface and which minimises the effects on the surrounding environment.	
	1.2 Prepare the necessary materials for construction.	

Construct new structures and/or surfaces.	2.1	Construct the structure or surface in accordance with the specification (i) setting out and location (ii) materials and resources (iii) timescale (iv) working methods (v) waste management (vi) restitution of site. (vii) the relationship of the structure and surface to its context.	
	2.2	Ensure the structure or surface meet the specification and is fit for purpose on completion of the work.	
3. Be able to promote health and safety and environmental good practice.	3.1	Work in a way which promotes health and safety, is consistent with relevant legislation, codes of practice and any additional requirements.	

	3.2	Ensure work is carried out in a manner which minimises environmental damage.	
	3.3	Manage and dispose of waste in accordance with legislative requirements and codes of practice.	
Be able to maintain and use relevant equipment.	4.1	Ensure equipment is prepared, used and maintained in a safe and effective condition throughout.	
5. Understand how to construct new structures and surfaces.	5.1	Explain how to interpret specifications and the importance of following them covering: (i) setting out and location (ii) materials and resources (iii) timescale (iv) working methods (v) waste management (vi) restitution of site (vii) the relationship of the structure and surface to its context.	

	5.2	Explain the problems that may arise and how to minimise and the appropriate action to take including; remedying the situation and/or informing those who need to act.	
	5.3	Describe methods of constructing the structure or surface and the relationship of this to its planned use.	
	5.4	Explain how the planned use of the surface or structure may affect the methods of construction used.	
Understand relevant health and safety legislation and environmental good practice.	6.1	Summarise current health and safety legislation, codes of practice and any additional requirements.	
•	6.2	Describe the possible environmental damage that could occur and how to respond appropriately.	
	6.3	Explain the correct and appropriate methods for disposing of waste.

	H/502/1507	

The aim of this unit is to provide the learner with the knowledge and skills required to promote and maintain the health and welfare of animals. This covers identification of abnormal signs, monitoring the animals and carrying out procedures to promote the health and welfare. Relationship to National Occupational Standards: CU32.1

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	Tourid
Be able to promote and maintain the health and welfare of animals.	1.1 Treat animals in a way which consistent with relevant legislation, minimises any likelihood of stress and injury, and maintains their health and welfare.	
	1.2 Provide animals with sufficient and effective opportunities to move, and maintain physical functioning.	
	1.3 Monitor and report the animals' physical condition and behaviour at suitable intervals to include the following: (i) appearance (ii) posture and movement (iii) behaviour (iv) bodily functioning (v) social interaction.	

1.4 Identify, record and report five abnormal signs that might indicate the following: (i) disease (ii) disability (iii) disorders (iv) pest infestation (v) trauma (vi) stress.
1.5 Carry out two of the following procedures to promote animal's health and welfare correctly and at a suitable time for the animals concerned: (i) preventative care (ii) environmental adjustment (iii) changing feed or water provision.
1.6 Record and report animals' reaction to specific procedures.
1.7 Seek assistance immediately for any animals health or welfare emergency and initiate action as appropriate to the situation.

2.	Be able to work safely.	2.1	Work in a way which maintains health and safety and is consistent with relevant legislation, codes of practice and any additional requirements.	
		2.2	Dispose of waste safely and correctly.	
3.	Be able to maintain accurate records.	3.1	Provide clear and accurate information for recording purposes.	
4.	Know how to promote and maintain the health and welfare of animals.	4.1	Identify the purpose for which the animals are being kept.	
		4.2	Describe how to promote the health and general welfare of animals and minimise any stress or injury for at least two species of animals.	
		4.3	Describe why animals need exercise and how the type and amount varies at different stages in an animal's life.	

	4.4	Provide examples of how two different species of animals maintain their own physical	
	4.5	condition and appearance. Describe all the visual signs which indicate the following potential problems with an animal's health and welfare: (i) disease (ii) disability (iii) disorders (iv) pest infestation (v) trauma (vi) stress.	
	4.6.	Describe two types of preventative care used to maintain the health and welfare of animals.	
	4.7	State how the environment may be adjusted to maintain two species of animals' health and welfare.	
	4.8	State the importance of providing an adequate supply of feed and water.	
5. Know relevant health and safety legislation and environmental good practice.	5.1	Outline the current health and safety, animal welfare legislation, codes of practice and any additional requirements.	

	5.2	Describe how environmental damage can be minimised.		
	5.3	Describe the correct methods for disposing of waste.

	J/502/1466	

The aim of this unit is to provide the learner with the knowledge and skills required to approach and handle animals in a manner that minimises risk and distress. The learner will also monitor the animal's responses to handling and take the appropriate action if there are significant changes. Learners will be required to handle the following animals:

- (i) animals they have handled before and whose behaviour and temperament are known
- (ii) animals they have not handled before, but which have been assessed as suitable for them to handle.

Relationship to National Occupational Standards: CU32.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to handle animals.	1.1 Approach and handle animals in a manner that: (i) minimises stress (ii) takes into account the species (iii) takes into account the animal's current temperament (iv) takes into account known behaviour patterns.	
	1.2 Monitor the animal's behaviour and its response to handling, noting any significant changes and take the appropriate action if required.	

2.	Be able to work safely.	2.1	Work in a way which maintains health and safety, animal welfare and is consistent with current legislation, codes of practice and any additional requirements. Wear the appropriate personal	
			protective equipment.	
3.	Know how to handle animals.	3.1	State how and where to obtain information about the temperament and the usual behaviour patterns of animals.	
		3.2	Describe safe and effective methods of handling animals.	
		3.3	Explain why it is important to monitor an animal's response to handling.	
		3.4	Describe negative responses to handling and to whom these should be reported and the consequences of not doing so.	

	3.5	Describe the different factors that can affect an animal's behaviour and what to do if these are observed.	
	3.6	Describe how to deal with any contingencies which may arise, before approaching the animal.	
	3.7	Describe the limits of responsibility in handling animals and what to do if assistance is required.	
Know relevant health and safety legislation	4.1	Outline the current health and safety legislation, animal welfare legislation, codes of practice and any additional requirements.

	L/502/1453	

The aim and purpose of this unit is to provider the learner with the knowledge, skill and understanding to identify and plan appropriate diets and feeding regimes for animals. The learner will identify nutritional requirements and associated resources needed to meet requirements and communicate these requirements to those responsible for feeding animals. Evaluation of the feeding plan is covered in a separate unit. Relationship to National Occupational Standards: CU3

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to plan animal diets and feeding regimes.	1.1 Identify the objectives of the feed plan.	
	1.2 Identify the nutritional requirements of animals taking into account all of the following factors. Factors to include: (i) type of animals (ii) age of animals (iii) condition of animals (iv) purpose for which animals are being kept (v) animal health and well being. 1.3 Ensure that resources are	
	available to meet the requirements of the feed plan including staffing routines and procedures.	

	1.4	Develop feed plan with sufficient level of detail to allow others to implement.	
	1.5	Implement and organise resources to meet requirements of the plan.	
	1.6	Communicate the feed plan clearly and effectively.	
Understand how to plan animal diets and feeding regimes.	2.1	Identify sources of information to establish dietary requirements.	
	2.2	Identify essential nutrients and explain how these impact upon the health and welfare of animals.	

	2.3	Analyse the factors which influence the development of the feeding plans, such as (i) type of animals (ii) age of animals (iii) condition of animals (iv) purpose for which animals are being kept (v) animal health and well being (vi) presentation (vii) purpose (viii) cost (ix) staffing (x) methods of feeding.	
	2.4	Summarise the current legislation which relates to the inclusion of additives or substitutes.	
	2.5	Explain the common side effects of inaccurately calculating levels of feeding substitute food or supplements.	
	2.6	Explain the types and different purposes of dietary additives and substitutes.	

2.7	Explain the reasons for using different feeding systems.	
2.8	Describe common diseases and illnesses which require special diets and explain appropriate feeding regimes.	
2.9	Explain the actions to be taken if there are insufficient resources, including changing the plans, procuring more resources to meet the shortfall.	
2.10	Explain how to effectively communicate the feed plan to others.

The aim and purpose of this unit is to provide the learner with the skills, knowledge and understanding to monitor and evaluate the feed plan It includes evaluating animal health and development and taking appropriate action when the needs of the animal are not being met.

Relationship to National Occupational Standards: CU35.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to monitor and evaluate the feeding of animals.	1.1 Use appropriate monitoring methods to evaluate the effectiveness of the feed plan.	
	1.2 Monitor the feeding process at the optimum times to assess progress and to confirm adherence to plan.	
	1.3 Evaluate animal health and development against the objectives stated within the plan.	
	1.4 Respond appropriately to any issues identified as a result of the monitoring process.	

	1.5	Record results of monitoring.	
	1.6	Evaluate and make any necessary modifications to the feed plan as a result of the monitoring.	
Understand how to monitor and evaluate the feeding of animals.	2.1	Explain how to evaluate the effectiveness of the feeding plan including: (i) animal behaviour and condition, (ii) quantities of food being eaten, (iii) costs of feeding against budget.	
	2.2	Explain how to monitor all the aspects of implementation of the plan covering: (i) Quality of outcomes (ii) Quality of working methods and practice (iii) Resource use (iv) Scheduling. Evaluate the condition of animal(s) in relation to the

Relationship to National Occupational Standards: CU36.3

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to care for young animals.	1.1 Ensure the appropriate food and water is provided to the young, from birth to weaning.	
	1.2 Carry out weaning using an appropriate method.	
	1.3 Monitor the health and condition of the young.	
	1.4 Carry out artificial rearing (including fostering), where applicable, in a manner which is appropriate to the animal.

The aim of this unit is to provide the learner with the knowledge, understanding and skills required for planning the appropriate accommodation for animals. The learner will identify the needs of the animal and the resources available. The learner will be able to specify the accommodation and provide information to those who will establish and maintain the accommodation.

Relationship to National Occupational Standards: CU39.1

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to plan the accommodation of animals.	1.1 Accurately identify animals' accommodation requirements taking into account all relevant factors: (i) purpose for which animals being kept (ii) minimisation of stress (iii) number and mix of animals (iv) stage of the animals' growth and development (v) social needs of animals (vi) opportunities for movement and exercise.	

1.2 Produce plans which include necessary details for their effective implementation: (i) environmentally sound methods for managing animal waste (ii) health and safety systems and methods (iii) cleaning routines and schedules
(iv) handling contingencies.
1.3 Identify the resources necessary to meet accommodation requirements (i) accommodation available on the site (ii) services available to prepare and maintain the accommodation.
1.4 Take the appropriate action to modify plans as required.
1.5 Provide sufficient, clear and accurate information to others to allow them to carry out their work effectively.

Understand how to plan the accommodation of animals.	2.1	Describe the types of animal accommodation which are available and the suitability of these for different animals.	
	2.2	Explain the five animal needs and how they can best be promoted when planning accommodation.	
	2.3	Explain the animal welfare legislation and codes of best practice in animal welfare and animal accommodation.	
	2.4	Explain how to evaluate whether accommodation is suitable for animals and the different factors which need to be taken into account covering:: (i) number and mix of animals (ii) stage of animals growth and development (iii) social needs of animals (iv) opportunities for movement and exercise (v) minimisation of stress (vi) purpose for which the animal is being kept.

The learner will:	The learner can:	Tourid
Be able to monitor the accommodation of animals.	1.1 Use monitoring methods which are appropriate for the accommodation, the animals concerned and those working with the animals to include: (i) purpose for which animals being kept (ii) minimisation of stress (iii) number and mix of animals (iv) stage of the animals' growth and development (v) social needs of animals (vi) opportunities for movement and exercise.	

	1.2 Carry out monitoring of the accommodation at the appropriate times to evaluate effectiveness.
	1.3 Take the appropriate action when monitoring reveals problems or issues with the accommodation.
	1.4 Use working methods and systems which promote health and safety and which are consistent with relevant legislation and codes of practice.
Be able to evaluate the accommodation.	2.1 Evaluate animal health and welfare in relation to the accommodation and safe working.
	2.2 Report findings from monitoring and evaluation and make recommendations.

3. Understand how to monitor and evaluate the accommodation of animals.	3.1 Explain why it is important to monitor the following environmental factors: (i) environmental conditions, (ii) containing structures, (iii) materials and equipment, (iv) weather conditions and (v) the density and mix of the animals.
	3.2 Explain the criteria used when monitoring the accommodation covering: (i) quality of working methods and practice (ii) resource use and suitability (iii) scheduling (iv) health and welfare of animals (v) density and mix of animals (vi) cleaning and routine maintenance (vii) management of waste (viii) quality of outcomes.
	3.3 Explain how to monitor the accommodation and quality of working practice.

	3.4	Describe the indicators of animal health and welfare in relation monitoring of accommodation.	
	3.5	Explain the options available for making recommendations to animal accommodation.	
	3.6	Explain the animal welfare legislation and codes of best practice in relation to animal accommodation.	
	3.7	Describe safe systems of work for those who prepare and maintain accommodation.

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to select animals for training for demonstration, show, or work. It looks at different selection criteria, for example, age, temperament, type and breed differences, the psychological and physiological effects of training on the animal and how the environment can affect training.

	R/502/1602	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to design individual animal training programmes for animals so that specific objectives can be achieved. It considers the selection of appropriate training activities, identification of the resources required for the training activity and evaluation methods.

Simulation will not be acceptable.

Relationship to National Occupational Standards: CU40.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to design individual training programmes for animals.	1.1 Assess the training needs of the animal and establish training objectives.	
	1.2 Set realistic targets to meet training objectives.	
	1.3 Select appropriate training methods and activities to meet training objectives: (i) handling (ii) obedience.	

	1.4	Identify any additional requirements and include them in the training programme, including: (i) environment (ii) diet (iii) living conditions (iv) health and welfare (v) exercise.	
	1.5	Identify resources necessary for the training activities and include them in the training programme.	
	1.6	Design suitable methods for evaluating progress in the training programme.	
	1.7	Communicate with others on the design of the training programme and its objectives.	
Be able to promote health and safety and environmental good practice.	2.1	Work in a way which promotes health and safety and animal welfare, is consistent with relevant legislation, codes of practice and any additional requirements.	

Understand how to design individual training programmes for animals.	3.1	Explain the psychological and physiological effects which training activities may have on the animal.	
	3.2	Describe seasonal and environmental effects on the design of training programmes.	
	3.3	Explain how to identify the objectives of the training programme for the individual animal: (i) handling (ii) obedience.	
	3.4	Explain how to set targets towards achieving training objectives.	
	3.5	Explain the advantages and disadvantages of different training methods and activities.	

	3.6 Explain how to identify additional requirements which the animal may have to enable it to achieve the training objectives in relation to: (i) environment (ii) diet (iii) living conditions (iv) health and welfare (v) exercise.	
	3.7 Explain factors which may limit the animal achieving the required standard.	
	3.8 Explain how to identify and apply suitable training resources.	
	3.9 Explain methods of evaluating animals' progress towards objectives and targets.

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to implement training programmes for animals.	1.1 Ensure that the animal's needs are met prior to the commencement of the training programme including: (i) physical needs (ii) emotional needs.	
	1.2 Ensure that appropriate resources are available for the training programme including: (i) training environment (ii) equipment (iii) personnel.	

1.3	Use training methods and activities in accordance with the training programme.	
1.4	Monitor the mental condition and physical behaviour of the animal throughout the training and use the results to modify training programme.	
1.5	Handle the animal correctly and in a way which promotes the animal's health and welfare.	
1.6	Modify training methods and activities when objectives are not being met including: (i) cease the activity (ii) find an alternative activity (iii) adapt the activity.	
1.7	Report progress towards achieving training objectives accurately to the relevant people.	
1.8	Take remedial action when training methods, activities or resources are found to be inappropriate.

	F/502/1644	

The aim of this unit is to provide the learner with the knowledge and skills required to handle animals to enable them to work. The learner will consider the methods of handling, control and encouragement in order to promote health and safety, animal welfare, the effects of the environment on the animal and the resources required.

Simulation will not be acceptable where the unit is included in qualifications which verify competent performance.

Relationship to National Occupational Standards: CU41.1

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to handle animals to enable them to work effectively.	1.1 Correctly prepare the animal for work.	
	1.2 Move the animal and introduce it to the working environment in a manner which minimises stress.	
	1.3 Check that the following resources are suitable for the planned work: (i) equipment (ii) personnel (iii) environment.	

261

		1.4	Maintain control of the animal in a way which is likely to optimise its performance, maintain its safety and minimise stress using the following control methods: (i) verbal (ii) non-verbal.	
		1.5	Encourage the animal to perform to the best of its ability and offer the appropriate reward and praise.	
		1.6	Take the necessary action if the animal is not realising its potential or unexpected circumstances arise.	
2.	Be able to work safely and minimise environmental damage.	2.1	Work in a way which maintains health and safety and animal welfare, is consistent with relevant legislation, codes of practice and any additional requirements.	
3.	Know how to handle animals to enable them to work effectively.	3.1	Describe the different preparations which are necessary to enable the animal to work effectively in relation to its type, breed and the work which it has to do.	

262

3.2	Describe the methods of handling and moving animals which promote their health and welfare and minimise their stress.	
3.3	Describe the resources which will be necessary for the work and how they should be used covering: (i) Equipment (ii) Personnel (iii) Environment.	
3.4	Describe the aspects of the environment which may affect the animal and signs which indicate this.	
3.5	Describe the limitations of the animal breed and of the particular animal concerned.	
3.6	Describe methods of controlling the animal effectively in the situations in which it is being worked.	
3.7	Describe how to encourage the animal to work effectively.	

	3.8 Describe the actions which may be necessary if the animal is not realising its potential or unexpected circumstances arise.

TITLE	Plan, monitor and evaluate the transportation of animals	Learner's name
	3	
	3	
	L/502/1517	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to plan, monitor and evaluate the transportation of animals. It is designed to be applicable to planning the transport of individual or groups of animals, whatever the reasons for transportation, or the distance they are to be taken. The learner will be able to select the best form of transportation, plan the journey, prepare documentation and ensure that those who are to transport the animals are fully briefed. The learner will also be able to monitor transportation, evaluate the effectiveness and take appropriate action where necessary.

Simulation will not be acceptable.

Relationship to National Occupational Standards: CU44

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to plan the transportation of animals.	1.1 Select the most appropriate form of transportation for an animal type.	

1.2 Plan a journey taking into account all of the following factors: (i) distance (ii) health and welfare of animals (iii) containment (iv) means of transport (v) resource availability (vi) legislation (vii) timing to include stopovers (viii) health and safety (viii) nutritional requirements.	
1.3 Identify methods for maintaining the health and welfare of the animals throughout the journey.	
1.4 Prepare all necessary documentation consistent with current legislation and relevant codes of practice to include documentation required by: (i) the organisation (ii) the carrier.	
1.5 Specify procedures for dealing with contingencies.	

288

	1.6 Communicate sufficient, clear and accurate information to individuals to allow them to carry out their work effectively and comply with relevant legislation and codes of practice.
Be able to monitor and evaluate the transportation of animals.	2.1 Develop a monitoring programme capable of evaluating animal transportation and encouraging good practice, including: (i) timing (ii) resources (iii) contingency management (iv) regulatory demands.
	 2.2 Establish effective control systems to monitor progress including lines of communication relating to: (i) animal health and well-being (ii) timescale (iii) containment (iv) regulatory demands (v) health and safety. 2.3 Monitor transportation at optimal frequencies to determine progress.

	2.4	Record any deviations from the monitoring programme and take the appropriate action.	
	2.5	Redefine the monitoring programme outcomes where monitoring indicates this is necessary.	
Understand how to plan the transportation of animals.	3.1	Describe the safe methods of transport for the animals concerned.	
	3.2	Explain the reasons for using particular carriers and modes of transportation, including resource implications.	
	3.3	Outline the resource issues which need to be taken into account and appropriate actions to resolve any lack of resources.	

	3.4 Explain how to produce the transportation plan covering: (i) distance (ii) health and welfare of animals (iii) containment (iv) means of transport (v) resource availability (vi) legislation (vii) timing to include stop overs (viii) health and safety (ix) nutritional requirements.	
	3.5 Explain the methods for maintaining animal health, welfare and safety during transportation.	
	3.6 Outline the legal and carrier requirements for transportation.

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to encourage, motivate and show appreciation for the work of volunteers. The learner will assess the needs and wishes of the volunteers, recognise their commitment and encourage further development.

Simulation will not be acceptable.

Relationship to National Occupational Standards : CU89.1.2

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to motivate volunteers by promoting the special ethos and values of volunteering.	1.1 Assess the needs and wishes of individuals and/or groups to help determine the starting point for their involvement.	
	1.2 Support volunteers in ways which match volunteer expectations, motivations and needs.	
	1.3 Demonstrate an awareness of individual and/or group volunteer's abilities and aptitudes.	
	1.4 Recognise volunteers and their commitment which are likely to enhance their motivation to continue.	

		1.5	Take account of equal opportunities issues as they affect volunteers.	
2.	Recognise voluntary effort by valuing volunteer contributions.	2.1	Show appreciation of the individual contributions made by volunteers by: (i) providing feedback to volunteers (ii) communicating this information to others.	
		2.2	Encourage further development of volunteers' capabilities.	
		2.3	Record individual and group effort in terms of its worth and contribution to organisational objectives.	
3.	Understand how to motivate volunteers by promoting the special ethos and values of volunteering.	3.1	Explain what volunteering entails and the implications of volunteering for the volunteer, the voluntary organisation and the client.

D/502/1599	

The aim of this unit is to provide the learner with the knowledge, understanding and skills required to manage the work of volunteers. It includes planning the work of volunteers, ensuring that they have sufficient resources to carry out the work, instructing them in the skills needed and assessing their work.

Simulation will not be acceptable.

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to plan the work of volunteers.	1.1 Give opportunities to volunteers to contribute to the planning and organisation of their work.	
	1.2 Produce plans that take into account the relevant factors of volunteering including: (i) your team's objectives (ii) the volunteers whose work you are responsible for and their development needs (iii) constraints under which volunteers may be working (iv) meeting the motivational needs of your volunteers.	

	1.3 Produce plans and schedules that are realistic and achievable within organisational constraints.
	1.4 Explain the plans to others clearly and in sufficient detail to gain support, motivation and commitment.
	1.5 Update plans at regular intervals and take account of any changes.
Be able to prepare resources for volunteers.	2.1 Check that resources are available and suitable for the planned work and take the appropriate action where there are any problems.
	2.2 Allocate resources so that volunteers can do the work to the required standard.
	2.3 Make sure volunteers are using resources according to organisational, legal and regulatory requirements.

	2.4 Make sure volunteers are using resources efficiently and effectively and encourage them to suggest improvements.
Be able to lead the work of volunteers.	3.1 Make volunteers feel welcome and introduce any new volunteers to each other and the rest of the team.
	3.2 Clearly explain organisational policy in relation to: (i) volunteering (ii) confidentiality (iii) welfare (iv) health and safety (v) volunteer insurance (vi) training and developing volunteers (vii) equal opportunities.
	3.3 Provide volunteers with clear instructions on tasks they have to do in line with organisational and legal requirements.
	3.4 Correctly demonstrate the tasks and check that volunteers understand what is expected.

	3.5	Let the volunteers practise the tasks under competent supervision until they can consistently achieve the required standard on their own.	
	3.6	Identify and correct any /mistakes in a way that supports their self-confidence and praise them when they perform tasks correctly.	
	3.7	Identify volunteers who could take on new responsibilities and agree what development would be appropriate to their needs.	
	3.8	Identify volunteer work that does not meet agreed standards and take the appropriate action.	
Be able to assess the work of volunteers and provide feedback.	4.1	Explain the purpose of assessment clearly to all involved.	
	4.2	Give opportunities to volunteers to assess their own work.	

4.3 Carry out assessments at times most likely to maintain and improve effective performance.	
4.4 Make your assessments objectively against clear and agreed criteria.	
4.5 Provide feedback to volunteers in a situation and manner most likely to maintain and improve motivation.	
4.6 Provide feedback which recognises team members achievements and provide constructive suggestions and encouragement for improving their work.	
4.7 Show respect for the individuals involved and treat all feedback to individuals and teams confidentially.	
4.8 Give opportunities to team members to respond to feedback.	

5.	Be able to promote health and safety and environmental good practice.	5.1	Work in a way which promotes health and safety, is consistent with relevant legislation, codes of practice and any additional requirements.	
6.	Be able to maintain accurate records.	6.1	Provide clear and accurate information for recording purposes.	
7.	Understand how to plan the work of volunteers.	7.1	Explain how to provide volunteers with the opportunity to contribute to the planning and organisation of their work.	
		7.2	Describe how to produce plans that take into account the relevant factors of volunteering including: (i) your team's objectives (ii) the volunteers whose work you are responsible for and their development needs (iii) constraints under which volunteers may be working (iv) meeting the motivational needs of your volunteers.	

	7.3	Explain how to develop realistic and achievable work plans both in the short and medium term.	
	7.4	Describe how to present work plans in a way that gains support, motivation and commitment.	
	7.5	Explain the need to regularly review work plans.	
Understand how to prepare resources for volunteers.	8.1	Explain how to check that the appropriate resources are available and outline the procedures to follow for obtaining resources.	
	8.2	Outline the procedure for reporting problems with resources.	
	8.3	Summarise organisational, legal and regulatory standards for the resources that the work uses.	

	8.4	Explain how to allocate resources in a way that enables the achievement of objectives.	
	8.5	Explain the need to ensure resources are used efficiently and effectively and the implications for not doing so.	
	8.6	Explain the impact that the use of resources could have on the environment.	
	8.7	Explain the reasons for getting others to suggest ways of improving the use of resources.	
Understand how to lead the work of volunteers.	9.1	Describe the induction process for new volunteers and the importance of making volunteers feel welcome and part of the team.	

9.2	Describe how to ensure that	
	new volunteers understand	
	organisational policy in relation	
	to:	
	(i) volunteering

	A/502/3179	

The aim of this unit is to provide the learner with the knowledge and skills required to prepare and maintain work boats for use.

The learner will carry out the necessary checks and maintenance, and ensure that the work boat is safe and ready for use. In addition, they must recognise and deal with any faults or problems that arise prior to operation of the work boat.

Simulation will not be acceptable where the unit is included in qualifications which verify competent performance.

Relationship to National Occupational Standards: EC15.1

Learner Outcomes	Assessment Criteria	For inserting direct evidence or referencing to where the evidence can be found
The learner will:	The learner can:	
Be able to prepare and maintain the operational condition of workboats.	1.1 Carry out checks and maintenance procedures correctly, in accordance with statutory, manufacturers and organisational requirements. To include: (i) safety checks (ii) engine checks (iii) engine maintenance (iv) condition of vessel.	
	1.2 Ensure equipment for use during the operation of the work boat is safe, in good working order and accessible including: (i) safety equipment (ii) operational equipment.	

		1.3	Where appropriate, rectify faults in the operational condition of the work boat safely and correctly.	
		1.4	Ensure problems and conditions which are outside your responsibility are identified and referred promptly to the appropriate person.	
2.	Be able to work safely and minimise environmental damage.	2.1	Work in a way which maintains health, safety and environmental good practice according to relevant legislation, codes of practice and any additional requirements.	
		2.2	Provide clear and accurate information for recording purposes.	
3.	Know how to prepare and maintain the operational condition of workboats.	3.1	Describe the required prestart checks, routine checks and maintenance procedures covering: (i) safety checks (ii) engine checks (iii) engine maintenance (iv) condition of vessel.	

3.2	Outline the manufacturer's instructions for engine and equipment maintenance, and specifications of the work boat.	
3.3	Describe the types of faults which may occur, including: engine faults, damage to the vessel and missing equipment, and the appropriate action in relation to these faults.	
3.4	Outline the limits of your responsibility for rectifying faults and other problems.	
3.5	Describe the procedures for reporting faults.	
3.6	Describe the reasons for reporting faults.	

	3.7	Describe how to safely handle and store fuel and lubricants.	
	3.8	Outline the types of problems which may be encountered and how these should be dealt with.	
	3.9	Outline the relevant legislation and organisational requirements associated with the use of work boats.	
	3.10	Outline the recreational and economic use of the water environment and how such use relates to work activities.	
4. Know relevant health and safety legislation and environmental good practice.	4.1	Outline the current health and safety legislation, codes of practice and any additional requirements in relation to the operation and use of work boats.

This unit is about conducting investigations for priority and volume investigations and is applicable to the investigation of all types of priority and volume incidents. They will need to be able to gather and assess the available information and intelligence, conduct a risk assessment, identify and preserve the initial scene(s), and identify and deal with material. They must also be able to develop initial lines of enquiry and deal with any victim(s), witnesses and suspects appropriately. In addition, they will need to ensure that the appropriate people are briefed about the status of the investigation to maintain continuity.

	Y/502/5599	

This unit is about interviewing suspects as part of priority and volume investigations. The unit covers interviews with suspects who are under arrest and those who are not under arrest, whether the interview is conducted at police premises or elsewhere. The learner must plan and prepare for interviews by developing an interview plan, assessing the suspect's fitness for interview, and setting up an appropriate location. They must conduct interviews in accordance with legislation, policy and other guidelines using appropriate interviewing techniques and communication skills. Finally, learners are expected to evaluate interviews (including their own performance) and take any necessary further action. Competence must be practically assessed on three occasions in the workplace.

	A/602/1538	

This unit focuses on the preparation and submission of case files. Case files may be overnight files, abbreviated (expedited) files or full files, and could comprise files relating to prosecutions, fatal road collisions, missing persons etc; those that they work with will depend on their role and responsibilities. In preparing case files they are expected to establish the current status of the investigation, distinguish between different types of case materials (eg, that likely to assist the prosecution or defence), and identify that which is sensitive and non-sensitive. They must submit case files to internal departments and colleagues and/or to the prosecuting authorities, and respond to any requests for further action. In addition, they will need to ensure that all relevant documentation and actions (eg, informing victims) have been completed correctly. This unit requires the workplace assessment of occupational competence. Relationship to National Occupational Standards: Units: CJ101, AA1, AB1, AE1, AF1, CA1

Learner Outcomes	Assessment Criteria	
The learner will:	The learner can:
