

Amendment to Land Based Work-based Qualification Handbooks

Change to assessment for Level 2 Apprenticeship and Level 3 Advanced Apprenticeship learners - new unit numbers for results submission for independent assessment

The independent assessment examinations for the work-based apprenticeship and advanced apprenticeship qualifications have now been replaced by question and answer guides with immediate effect. The qualification handbooks will be updated shortly but meanwhile the following replaces the existing information regarding apprenticeship and advanced apprenticeship assessment.

The unit outcomes covered by the independent assessment questions will remain the same. The Question and Answer Resource Guide documents are available on the City & Guilds website under each qualification page (www.cityandguilds.com). As these documents contain the answers as well as the questions they are password protected; the passwords are available on the Walled Garden catalogue under the administration information. Due to technical reasons we have been required to create new unit numbers for the submission of the independent assessment results. To keep this simple we have changed the 500 numbers which were used for the exam results to 700 numbers for the Question and Answer results.

Centres will be required to provide Lantra SSC with evidence that the questions have been completed and the assignment has been achieved before certification takes place.

A list of the assessment numbers is outlined below
