

Level 3 Advanced Technicals in control Equine Management (0172-006) Market Pack

reserved Techni Janagement (012)

General guidance for candidates

General guidance

This is a formal assessment that you will be marked and graded on. You will be marked on the quality and accuracy of your practical performance and the written work you produce. It is therefore important that you carry your work out to the highest standard you can. How well you know and understand the subject, and how you have used your knowledge and skills together to complete the tasks must be clear to the marker. This means you will have to explain your thinking and the reasons behind the way you have carried out the tasks and how/why you have made your decisions within your written work eg as part of your planning reflections, or evaluations.

Plagiarism

This is an assessment of your abilities, so the work must be all your own work and carried out under the conditions stated. You will be asked to sign a declaration that you have not had any help with the assessment.

Your tutor is allowed to give you some help understanding the assignment instructions if necessary, but they will record any other guidance you need and his will be taken into account during marking.

Plagiarism is the failure to acknowledge sources properly and or the submission of another person's work as if it were your own. Plagiarism is not allowed in this assignment.

Where research is allowed, your tutor must be able to contify which work you have done yourself, and what you have found from other sources it is therefore important to make sure you acknowledge all sources and clearly reference any information taken from them.

Timings and planning

Where you have to plan your time, you should take care to make sure you have divided the time available between tasks appropriately. In some assignments, there are specified timings which cannot be changed and which need to be taken into account. You should check your plan is appropriate with your tutor.

If you have a good reason on heeding more time, you will need to explain the reasons to your tutor and agree cheve deadline date. Changes to dates will be at the discretion of the tutor, and they may not mark work that is handed in after the agreed deadlines.

Health and Sale

You must always work safely, in particular while you are carrying out practical tasks.

You not always follow any relevant Health and Safety regulations and codes of practice.

If your tutor sees you working in a way that is unsafe for yourself or others, they will ask you to stop immediately, and tell you why. Your tutor will not be able to continue the assessment and they are sure you are ready for assessment and can work safely.

Presentation of work

Presentation of work must be neat, legible and appropriate to the task.

You should make sure that each piece of evidence including any forms are clearly labelled with your name and the assignment reference.

All electronic files must be given a clear file name that allows your tutor to identify it as your work.

Written work eg reports may be word processed or hand written unless stated otherwise.

All sketches and drawings should be neat and tidy, to scale and annotated.

PASTASSIGNMENT20191-DONOTUSEFORTUFASSESSMENT Calculations should be set out clearly, with all working shown, as well as any assumptions

0172-001 Synoptic Assignment Pack 2018-2019

One of the horses in your care, Sonny, is sensitive to flies. He also has a tendency to put when being led to the field.

<text><text><text><text>

Task 5

When carrying out routine checks, you notice a horse has a small cut on its left hind limb that is bleeding slightly.

VF-ASSESSMENT Carry out first aid on the horse by cleaning and dressing the wound. Provide a verbal commentary to your tutor as you carry out the task.

Conditions of assessment:

You must carry the task out on your own, under supervised conditions.

What you must produce for marking:

• N/A

Additional evidence of your performance that must be captured for marking:

entropy of the second s • Your tutor's notes of your working practice describing the cools of your performance

Task instructions for centres

Resources

Candidates must have access to a suitable range of resources to carry out the tasks and, where appropriate, to have the opportunity to choose materials demonstrating the ability to select from a range of appropriate materials.

Time

The following timings are provided to support centre planning.

Total Task 1 Task 2 Task 3 Task 4 Task 5	six to ten hours 2 - 3 hours 1 - 2 hours 1 - 2 hours 1 - 2 hours 1 hour
Task 5	I nour

Tutor guidance

This guidance should not be shared with candidates.

ORLINEASSESSMENT Candidates should be given the assignment brief only, the week before the first live within this assignment are assessment. It is recommended that where possible all the within this assignment are completed within 4 weeks of the candidate being given the brief. These do not have to be consecutive weeks if a term break falls in betweek

Tasks 1, 2, 3, 4 and 5 should only be given to and dates at the start of the supervised session for each of the corresponding tasks and not in advance. The tasks do not need to be completed in order and can be completed at any point of the assignment window.

The tasks do not need to be corrected on the same day. It is best practice to leave no more than two days between linked tasks (2a, 2b).

All Tasks

re candidates are permitted to use their research notes, candidates Apart from Task 1 are not permitte fotes whilst completing the tasks. This includes classroom notes, printed books. They are also not permitted internet access. resources an

Des should be allowed a week after being given the brief to allow the research into Candi compon grass conditions to take place. Tutors should be reminded evidence may need to be uploaded for moderation. The notes may be typed or handwritten and should not be nore than **two** sides of A4 paper. Candidates must hand their notes in to the tutor prior to the supervised session, who should review the notes for authenticity and to ensure it is not a direct copy from a textbook or the candidate's entire course folder. The candidate's notes should be handed back to them at the start of the supervised session for the task.

Candidates are **not** permitted any additional notes whilst completing this task. This includes classroom notes, printed resources and text books. They are also not permitted internet access.

<text><text>

Task 3

Preparation of horse for turnout must include:

- Fit the bridle •
- Fit boots on the front leas •
- Fit an appropriate rug •
- explain the correct procedure for turning out and bringing in the horse.

SSMEN Candidates will also be expected to verbally evaluate the suitability of the fit of the rug, boots and bridle.

Assessors should record verbal responses on the practical observation form.

Where candidates omit any of the above activities they must **not** be prompted b Assessor and a note of this omission should be made on the practical observat

(For the purposes of assessment, the candidates must fit boots. It is acceptal assessors to explain to candidates that horses being turned out for long ods of time may not have boots on.)

Candidates should provide a verbal commentary as they carry task to aid the assessment of the candidate, however tutors should not prehis commentary with leading questions.

Task 4

Routine stable duties must include:

- muck out stable [horse in or out of stable o be stated on practical observation form]
- sweep and clean the yard. •

Where candidates omit any of the above activities they must **not** be prompted by the Assessor and a note of this om should be made on the practical observation form.

Candidates should provide rerbal commentary as they carry out the task to aid the assessment of the cap e, however tutors should **not** prompt this commentary with leading question

Task 5

items must be made available to candidates for them to select the A range quipment. First aid situation is simulated and it is appropriate to undertake in

Centre guidance

Guidance provided in this document supports the administration of this assignment. The following documents available on the City & Guilds website provide essential generic guidance for centres delivering Technical gualifications and **must** be referred to alongside this guidance:

- Technical qualifications – marking

This approach to assessment

the full range of their learning to practice in their industry area, and supports them in learning to take responsibility for transferring their knowledge, understand g and skills to the practical situation, fostering independence, autonomy and confide

Candidates are provided with an assignment brief. They then have to draw on their knowledge and skills and independently select the correct process es, skills, materials, and approaches to take to provide the evidence specified by the orief.

During the learning programme, it is expected that tupor will have taken the opportunity to set shorter, formative tasks that allow candidates to be supported to independently use the learning they have so far covered, drawing this together in a similar way, so they are familiar with the format, conditions and expectations of the synoptic assessment.

Candidates should be made aware during kaking what the Assessment Objectives are and how they are implemented in marking the assignment, so they will understand the level of performance that will achieve them bigh marks. performance that will achieve them big

Candidates should not be entered for the assessment until the end of the course of learning for the qualification so they are position to complete the assignment successfully.

Health and safety

Candidates should not be entered for assessment without being clear of the importance of working safely, and practice of doing so. The tutor must immediately stop an assessment if a candidate works areafely. At the discretion of the tutor, depending on the severity of the incident, the didate may be given a warning. If they continue to work unsafely however, ent must be ended and they must retake the assessment at a later date. their as

iance with timings

timings provided are estimates to support centre planning. They refer to assessment ime, not any additional setting up needed to create an appropriate assessment environment.

It is the centre's responsibility to plan sufficient assessment sessions, under the appropriate conditions, within the assignment window, to allow candidates reasonable time to complete the assessment tasks.

Where candidates are required to plan their work they should have their plans confirmed for appropriateness in relation to the time allocated for each task.

Candidates should be allowed sufficient time to fully demonstrate the range of their skills, however this also needs to be reasonable and practicable. Candidates should be allowed to overrun their planned timings or professional service times (where they exist) in order for evidence of a range of their skills to be captured. If however, the time required exceeds reasonably set assessment periods, or the tolerance suggested for professional service times, the centre may stop the assessment and base the marking on the evidence up to that point, including the tutor's notes of how far over time the task has taken.

Observation evidence

Where the tutor is required to carry out observation of performance, detailed, descriptive notes must be recorded on the practical observation (PO) form provided. The centre has flexibility to adapt the form, to suit local requirements (eq to use tablet, hand-written formats, or to ease local administration) as long as this does not change or restrict t of evidence collected.

The number of candidates a tutor will be able to observe at one time will var on: JF.

- the complexity of evidence collection for the task •
- local conditions eq layout of the assessment environment, •
- amount of additional support available (eg to capture i video evidence), • staggered starts etc,
- whether there are any peak times where there is that of evidence to collect that will need additional support or any that are quiete

It is advisable to trial the planned arrangements where possible during formative assessment, reviewing the quality of evidence expured and manageability. It is expected that for straight forward observations, (and uness otherwise specified) no more than eight candidates will be observed by a single tutor at one time, and the number will usually be fewer than this maximum. The key factor to consider is the logistics of collecting sufficient evidence.

As far as possible, candidates should not be distracted, or their performance affected by the process of observation and existing collection.

Observation notes form part of the candidate's evidence and must describe how well the activity has been carried out, rather than stating the steps/ actions the candidate has taken. The notes must be very descriptive and focus on the quality of the performance in such a way that comparisons between performances can be made. They must provide sufficient, appropriate evidence that can be used by the marker (and moderator) to mark the and the marking grid. performance

Identifying anat it is about the performances that is different between candidates can clarify characteristic clarify clarify characteristic clarify characteristic clarify characteristic clarify c sanGsteps, so a checklist of this information would not help differentiate between them. However qualitative comments on how well they do it, and quantitative records of accuracy and tolerances would.

The tutor should refer to the marking grid to ensure appropriate aspects of performance are recorded. These notes will be used for marking and moderation purposes and so must be detailed, accurate and differentiating.

Tutors should ensure that any required additional supporting evidence including eq photographs or video can be easily matched to the correct candidate, are clear, well-lit and showing the areas of particular interest in sufficient detail and clarity for assessment (ie taken at appropriate points in production, showing accuracy of measurements where appropriate).

If candidates are required to work as a team, each candidate's contribution must be noted separately. The tutor may intervene if any individual candidate's contribution is unclear or to ensure fair access (see below).

The Technical qualifications quides on marking and moderation are essential quidance documents and are available on the City & Guilds website. These provide further information on preparing for assessment, evidence gathering, standardisation, marking and moderation, and must be referred to when planning and carrying out assessment. SSMEN

Minimum evidence requirements for marking and moderation

The sections in the assignment:

- What you must produce for marking, and
- Additional evidence of your performance that must be captured for marking

list the minimum requirements of evidence to be submitted for marking and the moveration sample.

Evidence produced during assessment above and beyond this may be submitted, as long as it provides useful information for marking and moderation and has been body duced under appropriate conditions.

While technological methods which support the capturing or creating of evidence can be helpful, eg. pinboard style websites for creating mood boards the final evidence must be converted to a suitable format for marking and moderation which cannot be lost/ deleted or amended after the end of the assessment period (eg screen prints, pdf files). Considerations around tracking authenticity and potential loss of material loss of material loss during assessment is the centre's responsibility.

Where candidates have carried out some work as group, the contribution of each candidate must be clear. It is not appropriate or ubmit identical information for each candidate without some way for the marker and moderator to mark the candidates individually.

Note: Combining candidates' individual pieces of evidence into single files or zip files may make evidence management during internal marking more efficient and will greatly simplify the uploading of the moderation sample.

Where the minimum requirements have **not been submitted** for the moderation sample by the final moderation deadline, or the **quality of evidence is insufficient** to make a judgement, the moderation, and therefore any subsequent adjustment, will be based on the evidence that *has* been submitted. Where this is insufficient to provide a mark on moderation a provide a mark on moderation, f zero may be given.

Preparation of candidates

Canders should be aware of which aspects of their performance (across the AOs) will give the good marks in assessment. This is best carried out through routinely pointing out good or poor performance during the learning period, and through formative assessment.

During the learning programme, direct tutor instruction in how to tackle practical tasks through modelling, support, guidance and feedback are critical. However gradual removal of this support is necessary in preparation for summative assessment. This, supported approach is **not** valid for summative assessment.

The purpose of summative assessment is to confirm the standard the candidate has reached as a result of participating in the learning process. Candidates should be encouraged to do the best they can and be made aware of the difference between these summative assessments and any formative assessments they have been subject to. Candidates may not have access to the full marking grids, as these may be misinterpreted as pass, merit

distinction descriptors. Refer to the Technical qualifications - teaching, learning and assessment centre guidance document, available on the City & Guilds website for further information on preparing candidates for Technical gualification assessment.

Guidance on assessment conditions

The assessment conditions that are in place for this synoptic assignment are to:

- ensure the rigour of the assessment process
- provide fairness for candidates •
- give confidence in the outcome.

SME They can be thought of as the rules that ensure that all candidates who take an assess are being treated fairly, equally and in a manner that ensures their result reflects **6** ability.

The conditions outlined below relate to this summative synoptic assignment. These do not affect any formative assessment work that takes place, although it is advised that candidates are prepared for the conditions they will need to work under during summative assessment.

The evidence for the tasks that make up this synoptic assignment pust be completed under the specified conditions. This is to ensure authenticity and preven malpractice as well as to assess and record candidate performance for assessment in the practical tasks. Any aspect that may be undertaken in unsupervised conditions is specified. It is the centre's responsibility to ensure that local administration and consight gives the tutor sufficient confidence to be able to confirm the authenticity of the candidate's work.

Security and authentication of candidate war

Candidate evidence must be kept secure to prevent unsupervised access by the candidate or others. Where evidence is produced over a number of sessions, the tutor must ensure learners and others cannot access the evidence without supervision. This might include storing written work or artefacts in locked cupboards and collecting memory sticks of evidence produced electronication at the end of each session.

Candidates are required to sign declarations of authenticity, as is the tutor. The relevant form is included in this assignment pack and must be signed after the production of all evidence.

Where the candidate or tutor is unable to, or does not confirm authenticity through signing the decovertion form, the work will not be accepted at moderation and a mark of zero will be oven. If any question of authenticity arises eg at moderation, the centre connected for justification of authentication. may be

lity and fairness

Te a candidate has special requirements, tutors should refer to the Access arrangements nd reasonable adjustments section of the City & Guilds website.

Tutors can support access where necessary by providing clarification to any candidate on the requirements or timings of any aspect of this synoptic assignment. Tutors should not provide more guidance than the candidate needs as this may impact on the candidate's grade, see the guidance and feedback section below.

All candidates must be provided with an environment, time frame and resources that allows them reasonable access to the full range of marks available.

Where candidates have worked in groups to complete one or more tasks for this synoptic assessment, the tutor must ensure that no candidate is disadvantaged as a result of the

performance of any other team member. If a team member is distracting or preventing another team member from fully demonstrating their skills or knowledge, the tutor must intervene.

Guidance and feedback

To support centre file management, tutors may specify a suitable file format and referencing format for evidence (unless otherwise specified eq if file naming is an assessment point for the assignment). Guidance must only support access to the assignment and must not recorded fully on the candidate record form (CRF),
taken into account along with the candidate's final evidence during marking

- taken into account along with the candidate's final evidence during marking
- made available for moderation.

Tutors must not provide feedback on the quality of the performance or the quality of evidence can be improved. This would be classed as malpractice.

Tutors should however provide general reminders to candidates throughout the assessment period to check their work thoroughly before submitting it, and one sure that they are happy with their final evidence as it may not be worked on further after submission.

Candidates can rework any evidence that has been produced for this synoptic assignment during the time allowed. However, this must be as a result of their own review and identification of weaknesses and not as a result of tutor bedback. Once the evidence has been submitted for assessment, no further amendments to evidence can be made.

Tutors should check and be aware of the candidates' plans and designs to ensure management of time and resources is appreciate, and so any allowed intervention can take place at an appropriate time.

Tutors **should** ensure that candidates pans for completion of the tasks distribute the time available appropriately and may guide candidates on where they should be up to at any point in a general way. Any excessive time taken for any task should be recorded and should be taken into account during marking if appropriate.

e if the guidance the candidate has required suggests they are It is up to the marker to peri lacking in any AO, the everity of the issue, and how to award marks on the basis of this full range of evidence The marker must record where and how guidance has had an impact on the marks given se this is available should queries arise at moderation or appeal.

What is, and is not, an appropriate level of quidance

utor should intervene with caution if a candidate has taken a course of action that will result in them not being able to submit the full range of evidence for assessment. However, this should **only** take place once the tutor has prompted the candidate to check that they have covered all the requirements. Where the tutor has to be explicit as to what the issue is, this is likely to demonstrate a lack of understanding on the part of the candidate rather than a simple error, and full details should be recorded on the CRF.

The tutor should not provide guidance if the candidate is thought to be able to correct the issue without it, and a prompt would suffice. In other words, only the minimum support the candidate actually needs should be given, since the more tutor guidance provided, the less of the candidate's own performance is being demonstrated and therefore the larger the impact on the marks awarded.

- A tutor **must not** provide guidance that the candidate's work is not at the required standard or how to improve their work. In this way, candidates are given the chance to identify and correct any errors on their own, providing valid evidence of knowledge and skills that will be credited during marking.
- The tutor must not produce any templates, pro-formas, work logs etc. unless instructed to in the assignment guidance. Where instructed to do so, these materials must be produced as specified and contain no additional guidance. Templates provided as part of the assignment should be used as provided, and not adapted.

All specific prompts and details of the nature of any further guidance must be recorded of the relevant form and reviewed during marking and moderation.

Guidance on marking

Please refer to the Technical qualifications – marking, and - moderation car uidance documents for further information on gathering evidence suitable for ma moderation, and on using the marking grid and forms.

The candidate record form (CRF) is used to record:

- Details of any guidance or the level of prompting the date has received during the assessment period
- Rough notes bringing together relevant evidence from across tasks during marking. •
- Summary justifications when holistically comin to an overall judgement of the mark.

The practical observation form (PO) is used to reco

Descriptive information and evidence at candidate performance during an observation. Although descriptions of the quality of performance should support decisions against the AOs, the evidence against the flow of the observation, rather than attempting to assign evidence against the AOs at this point.
