General guidance for candidates

General guidance

This is a formal assessment that you will be marked and graded on. You will be marked on the quality and accuracy of your practical performance and the written work you produce. It is therefore important that you carry your work out to the highest standard you can. How well you know and understand the subject, and how you have used your knowledge and skills together to complete the tasks must be clear to the marker. This means you will have to explain your thinking and the reasons behind the way you have carried out the tasks and how/why you have made your decisions within your written work eq as part of your reflections, or evaluations.

Plagiarism

This is an assessment of your abilities, so the work must be all your own work under the conditions stated. You will be asked to sign a declaration that have not had any help with the assessment.

Your tutor is allowed to give you some help understanding the necessary, but they will record any other guidance you need and his will be taken into account during marking.

d/or the submission of another Plagiarism is the failure to acknowledge sources properly person's work as if it were your own. Plagiarism is not allowed in this assignment.

Where research is allowed, your tutor must be able to identify which work you have done yourself, and what you have found from other sources. It is therefore important to make sure you acknowledge all sources and clearly reference any information taken from them.

Timings and planning

Where you have to plan your time, you should take care to make sure you have divided the time available between tasks appropriately. In some assignments, there are specified timings which cannot be changed and which need to be taken into account. You should check your plan is appropriate with your tutor.

If you have a good reason for needing more time, you will need to explain the reasons to your tutor and agree anew deadline date. Changes to dates will be at the discretion of the whot mark work that is handed in after the agreed deadlines.

always work safely, in particular while you are carrying out practical tasks.

ust always follow any relevant Health and Safety regulations and codes of practice.

your tutor sees you working in a way that is unsafe for yourself or others, they will ask you to stop immediately, and tell you why. Your tutor will not be able to continue the assessment until they are sure you are ready for assessment and can work safely.

Presentation of work

Presentation of work must be neat, legible and appropriate to the task.

You should make sure that each piece of evidence including any forms are clearly labelled with your name and the assignment reference.

All electronic files must be given a clear file name that allows your tutor to identify it as your work.

Written work eg reports may be word processed or hand written unless stated otherwise.

All sketches and drawings should be neat and tidy, to scale and annotated.

PAST ASSIGNMENT 2019). DO NOT USE FOR LIVE ASSESSMENT

Assignment Brief

You are an employee working for a sanctuary that has a yard of 20 horses and ponies. The sanctuary regularly undertakes open days where the horses will be available for the public to view.

You will be responsible for the care of the horse and ensuring her accommodation is suitable. She will be on box rest with a restricted diet when she arrives on the yard.

The sanctuary is undertaking an open day in a few weeks Open for a f

day.

In advance of the assessment, you may research Equine Metabolic ome and make notes of up to two sides of A4 paper. You may also research feet requirements for a horse with Equine Metabolic Syndrome and make notes of up to wo sides of A4 paper.
Both sets of notes should be handed in to your tutor prior to the assessment. Your tutor will PAST ASSIGNMENT (2019). TO NOT JE provide you with your notes at the start of the assessment

Task instructions for centres

Resources

Candidates must have access to a suitable range of resources to carry out the tasks and, where appropriate, to have the opportunity to choose materials demonstrating the ability to KOR LINE ASSESSMENT select from a range of appropriate materials.

Time

The following timings are provided to support centre planning.

nine to fourteen hours
3-4 hours
1-2 hours
2-3 hours
2-3 hours
1-2 hours

Tutor guidance

This guidance should not be shared with candidates.

week before the first live Candidates should be given the assignment brief only assessment. It is recommended that where possible all tasks within this assignment are completed within 4 weeks of the candidate being given the brief. These do not have to be consecutive weeks if a term break falls in between

Tasks should only be given to candidate at the start of the supervised session for each of the corresponding tasks and not in accounce. The tasks do not need to be completed in order although it is recommended that Yask 1 be completed before Task 3.

The tasks do not need to be completed on the same day. It is best practice to leave no more than two days between link tasks (2a, 2b).

Task 1 and Task 3

Candidates show be allowed a week after being given the brief to allow research to take place. Tutors fould be reminded evidence may need to be uploaded for moderation. The notes may be typed or handwritten and should not be more than two sides of A4 paper for each as Candidates must hand their notes in to the tutor prior to the supervised session, who should review the notes for authenticity and to ensure it is not a direct copy from a the book or the candidate's entire course folder. The candidate's notes should be handed back to them at the start of the supervised session for the task.

Candidates are **not** permitted any additional notes whilst completing this task. This includes classroom notes, printed resources and text books. They are also not permitted internet access.

Task 2:

Candidates should receive both parts a) and b) of the task at the same time. Only notes produced in part a) can be used during the write up of part b). Cameras should be provided for recording photographic evidence. Alternatively, candidates can use their own devices which must be handed in to tutors before the assessment. Tutor should provide access to the candidate's photographs when they write their reports.

Task 3 and 4:

The same horse should be used for Tasks 3 and 4.

Task 3:

Calculators can be used during this task.

Task 4:

A health check template is provided in Appendix 1. The health check template first be completed by candidates and submitted as evidence.

Routine stable duties must include:

- muck out stable [horse in or out of stable to be stated on practical observation form]
- sweep and clean the yard
- hay and water
- fit an appropriate rug.

It is not expected that candidates will have access to a horse with Equine Metabolic Syndrome to complete Task 4. Tutors may choose a suffable horse that is available in the centre.

Candidates are permitted to use their plan from Jask 3. However, it is not a requirement that they prepare and feed the horse based on the diet they planned for the horse with Equine Metabolic Syndrome. Where the food regime from the candidates' plan is not suitable for the chosen horse, they should be provided with an alternative plan that meets the horse's needs. The horse's welfare should be considered at all times. Where this occurs, this should be documented on the CRF form

Candidates will also be expected to verbally evaluate the suitability of the fit of the rug.

Assessors should record verbal responses on the practical observation form.

Where candidates omit any of the above activities they must **not** be prompted by the Assessor and a lote of this omission should be made on the practical observation form.

Candisates should provide a verbal commentary as they carry out the task to aid the assessment; however tutors should **not** prompt this commentary with leading questions.

Candidates are **not** permitted any notes whilst completing this task. This includes classroom notes, printed resources and text books. They are also not permitted internet access.

Task 5

Candidates are required to demonstrate the following:

- trimming techniques (demonstrate techniques but not necessarily carry out)
- plait a full mane OR tail
- groom the horse (this may include washing horses where appropriate e.g. stable stains)
- apply appearance enhancing techniques.

Tutors must provide a range of grooming and appearance enhancing resources for candidates to select from and ensure the horse allocated to the candidates is suitable for plaiting and the application of appearance enhancing techniques.

Candidates should know to apply the following items.

• bridle

• saddle

• exercise boots

• over reach boots.

Candidates will also be expected to the candidates is suitable for plaiting and the application of appearance enhancing techniques.

Candidates will also be expected to verbally evaluate the suitability Candidates are required to present the horse [standing and leading in hand].

Assessors should record verbal responses on the practic

Where candidates omit any of the above activities they must not be prompted by the Assessor. A note of this omission should be made on the practical observation form.

Candidates should provide a verbal commentary as they carry out the task to aid the assessment of the candidate, however s should **not** prompt this commentary with leading questions.

Candidates are **not** permitted notes whilst completing this task. This includes classroom notes, printed resources and d text books. They are also not permitted internet access. PASTASSICHMILIMI

Centre guidance

Guidance provided in this document supports the administration of this assignment. The following documents available on the City & Guilds website provide essential generic guidance for centres delivering Technical qualifications and must be referred to alongside this guidance:

- Technical qualifications marking

This synoptic assessment is designed to require the candidate to make use their knowledge, understanding and skills they have built up over the course of their learning to tackly problems/tasks/challenges.

This approach to assessment the full

the full range of their learning to practice in their industry area, and supports the learning to take responsibility for transferring their knowledge, understanding the practical situation, fostering independence, autonomy and confider

Candidates are provided with an assignment brief. They then have draw on their knowledge and skills and independently select the correct processes, skills, materials, and approaches to take to provide the evidence specified by the prief.

During the learning programme, it is expected that tuto's I have taken the opportunity to set shorter, formative tasks that allow candidates to be supported to independently use the learning they have so far covered, drawing this together in a similar way, so they are familiar with the format, conditions and expectations of the synoptic assessment.

Candidates should be made aware during what the Assessment Objectives are and how they are implemented in marking the assignment, so they will understand the level of performance that will achieve them high marks.

Candidates should not be entered for the assessment until the end of the course of learning for the qualification so they are position to complete the assignment successfully.

Health and safety

Candidates should not be entered for assessment without being clear of the importance of working safely, and practice of doing so. The tutor must immediately stop an assessment if a candidate work wasafely. At the discretion of the tutor, depending on the severity of the incident, the candidate may be given a warning. If they continue to work unsafely however, ent must be ended and they must retake the assessment at a later date.

iance with timings

timings provided are estimates to support centre planning. They refer to assessment ime, not any additional setting up needed to create an appropriate assessment environment.

It is the centre's responsibility to plan sufficient assessment sessions, under the appropriate conditions, within the assignment window, to allow candidates reasonable time to complete the assessment tasks.

Where candidates are required to plan their work they should have their plans confirmed for appropriateness in relation to the time allocated for each task.

Candidates should be allowed sufficient time to fully demonstrate the range of their skills, however this also needs to be reasonable and practicable. Candidates should be allowed to overrun their planned timings or professional service times (where they exist) in order for evidence of a range of their skills to be captured. If however, the time required exceeds reasonably set assessment periods, or the tolerance suggested for professional service times, the centre may stop the assessment and base the marking on the evidence up to that point, including the tutor's notes of how far over time the task has taken.

Observation evidence

Where the tutor is required to carry out observation of performance, detailed, descriptive notes must be recorded on the practical observation (PO) form provided. The centre has flexibility to adapt the form, to suit local requirements (eg to use tablet, hand-written formats, or to ease local administration) as long as this does not change or restrict the of evidence collected.

The number of candidates a tutor will be able to observe at one time will val NE on:

- the complexity of evidence collection for the task
- local conditions eg layout of the assessment environment
- amount of additional support available (eg to capture image) video evidence), staggered starts etc,
- whether there are any peak times where there is a lot of evidence to collect that will need additional support or any that are quieter.

It is advisable to trial the planned arrangements where possible during formative assessment, reviewing the quality of evidence captured and manageability. It is expected that for straight forward observations, (and unless otherwise specified) no more than eight candidates will be observed by a single tutor at one time, and the number will usually be fewer than this maximum. The key factor to consider is the logistics of collecting sufficient evidence.

As far as possible, candidates should not be distracted, or their performance affected by the process of observation and evidence collection.

Observation notes form part the candidate's evidence and must describe how well the activity has been carried our rather than stating the steps/ actions the candidate has taken. The notes must be very descriptive and focus on the quality of the performance in such a way that comparing as between performances can be made. They must provide sufficient, appropriate evipting that can be used by the marker (and moderator) to mark the g the marking grid. performance

hat it is about the performances that is different between candidates can clarify the qualities that are important to record. Each candidate is likely to carry out the same steps, so a checklist of this information would not neith dimerentiate between the wever qualitative comments on how well they do it, and quantitative records of accuracy and tolerances would. ps, so a checklist of this information would not help differentiate between them.

The tutor should refer to the marking grid to ensure appropriate aspects of performance are recorded. These notes will be used for marking and moderation purposes and so must be detailed, accurate and differentiating.

Tutors should ensure that any required additional supporting evidence including eq photographs or video can be easily matched to the correct candidate, are clear, well-lit and showing the areas of particular interest in sufficient detail and clarity for assessment (ie taken at appropriate points in production, showing accuracy of measurements where appropriate).

If candidates are required to work as a team, each candidate's contribution must be noted separately. The tutor may intervene if any individual candidate's contribution is unclear or to ensure fair access (see below).

The *Technical qualifications guides on marking and moderation* are essential guidance documents and are available on the City & Guilds website. These provide further information on preparing for assessment, evidence gathering, standardisation, marking and moderation, and must be referred to when planning and carrying out assessment.

Minimum evidence requirements for marking and moderation

The sections in the assignment:

- What you must produce for marking, and
- Additional evidence of your performance that must be captured for marking list the minimum requirements of evidence to be submitted for marking and the moderation

sample.

Evidence produced during assessment above and beyond this may be submitted, as long as it provides useful information for marking and moderation and has been produced under appropriate conditions.

While technological methods which support the capturing or creating of evidence can be helpful, eg pinboard style websites for creating mood boards, the final evidence must be converted to a suitable format for marking and moderation which cannot be lost/ deleted or amended after the end of the assessment period (eg screen prints, pdf files). Considerations around tracking authenticity and potential loss of material hosted on such platforms during assessment is the centre's responsibility.

Where candidates have carried out some work as a group, the contribution of each candidate must be clear. It is not appropriate to ubmit identical information for each candidate without some way for the marker and moderator to mark the candidates individually.

Note: Combining candidates' individual pieces of evidence into single files or zip files may make evidence management duting internal marking more efficient and will greatly simplify the uploading of the moderation.

Where the minimum requirements have **not been submitted** for the moderation sample by the final moderation deadlike, or the **quality of evidence is insufficient** to make a judgement, the moderation, and therefore any subsequent adjustment, will be based on the evidence that *has* been submitted. Where this is insufficient to provide a mark on moderation, are ark of zero may be given.

Preparation of candidates

Candrages should be aware of which aspects of their performance (across the AOs) will give the good marks in assessment. This is best carried out through routinely pointing out good or poor performance during the learning period, and through formative assessment.

During the learning programme, direct tutor instruction in how to tackle practical tasks through modelling, support, guidance and feedback are critical. However gradual removal of this support is necessary in preparation for summative assessment. This, supported approach is **not** valid for summative assessment.

The purpose of summative assessment is to confirm the standard the candidate has reached as a result of participating in the learning process. Candidates should be encouraged to do the best they can and be made aware of the difference between these summative assessments and any formative assessments they have been subject to. Candidates may not have access to the full marking grids, as these may be misinterpreted as pass, merit

distinction descriptors. Refer to the *Technical qualifications – teaching, learning and assessment* centre guidance document, available on the City & Guilds website for further information on preparing candidates for Technical qualification assessment.

Guidance on assessment conditions

The assessment conditions that are in place for this synoptic assignment are to:

- ensure the rigour of the assessment process
- provide fairness for candidates
- give confidence in the outcome.

They can be thought of as the rules that ensure that all candidates who take an assessment are being treated fairly, equally and in a manner that ensures their result reflects their true ability.

The conditions outlined below relate to this summative synoptic assignment. These do not affect any formative assessment work that takes place, although it is advised that candidates are prepared for the conditions they will need to work under during summative assessment.

The evidence for the tasks that make up this synoptic assignment pust be completed under the specified conditions. This is to ensure authenticity and precent malpractice as well as to assess and record candidate performance for assessment in the practical tasks. Any aspect that may be undertaken in unsupervised conditions is specified. It is the centre's responsibility to ensure that local administration and offersight gives the tutor sufficient confidence to be able to confirm the authenticity of the candidate's work.

Security and authentication of candidate w

Candidate evidence must be kept secure to prevent unsupervised access by the candidate or others. Where evidence is produced two a number of sessions, the tutor must ensure learners and others cannot access the evidence without supervision. This might include storing written work or artefacts in locked cupboards and collecting memory sticks of evidence produced electronical patthe end of each session.

Candidates are required to sign declarations of authenticity, as is the tutor. The relevant form is included in this assignment pack and must be signed after the production of all evidence.

Where the candidate or tutor is unable to, or does not confirm authenticity through signing the determinent form, the work will not be accepted at moderation and a mark of zero will be given. If any question of authenticity arises eg at moderation, the centre may be contacted for justification of authentication.

Accessibility and fairness

Where a candidate has special requirements, tutors should refer to the Access arrangements and reasonable adjustments section of the City & Guilds website.

Tutors can support access where necessary by providing clarification to **any** candidate on the requirements or timings of any aspect of this synoptic assignment. Tutors should **not** provide more guidance than the candidate needs as this may impact on the candidate's grade, see the guidance and feedback section below.

All candidates must be provided with an environment, time frame and resources that allows them reasonable access to the full range of marks available.

Where candidates have worked in groups to complete one or more tasks for this synoptic assessment, the tutor must ensure that no candidate is disadvantaged as a result of the

performance of any other team member. If a team member is distracting or preventing another team member from fully demonstrating their skills or knowledge, the tutor must intervene.

Guidance and feedback

To support centre file management, tutors may specify a suitable file format and referencing format for evidence (unless otherwise specified eg if file naming is an assessment point for recorded fully on the candidate record form (CRF),
 taken into account along with the candidate's final evidence during marking the assignment). Guidance must only support access to the assignment and must not

- made available for moderation.

Tutors must not provide feedback on the quality of the performance or box the evidence can be improved. This would be classed as malpractice.

Tutors should however provide general reminders to candidates throughout the assessment period to check their work thoroughly before submitting it, and the sure that they are happy with their final evidence as it may not be worked on further after submission.

Candidates can rework any evidence that has been produced for this synoptic assignment during the time allowed. However, this must be as a result of their own review and identification of weaknesses and not as a result of tutor feedback. Once the evidence has been submitted for assessment, no further amendments to evidence can be made.

Tutors **should** check and be aware of the candidates' plans and designs to ensure management of time and resources is appropriate, and so any allowed intervention can take place at an appropriate time.

Tutors **should** ensure that candidates of an sfor completion of the tasks distribute the time available appropriately and may guide candidates on where they should be up to at any point in a general way. Any excessive time taken for any task should be recorded and should be taken into account during marking if appropriate.

It is up to the marker to delice if the guidance the candidate has required suggests they are lacking in any AO, the severity of the issue, and how to award marks on the basis of this full range of evidence the marker must record where and how guidance has had an impact on the marks given so his is available should queries arise at moderation or appeal.

not, an appropriate level of guidance

- ator **should intervene with caution** if a candidate has taken a course of action That will result in them not being able to submit the full range of evidence for assessment. However, this should **only** take place once the tutor has prompted the candidate to check that they have covered all the requirements. Where the tutor has to be explicit as to what the issue is, this is likely to demonstrate a lack of understanding on the part of the candidate rather than a simple error, and full details should be recorded on the CRF.
- The tutor should not provide guidance if the candidate is thought to be able to correct the issue without it, and a prompt would suffice. In other words, only the minimum support the candidate actually needs should be given, since the more tutor guidance provided, the less of the candidate's own performance is being demonstrated and therefore the larger the impact on the marks awarded.

- A tutor must not provide guidance that the candidate's work is not at the required standard or how to improve their work. In this way, candidates are given the chance to identify and correct any errors on their own, providing valid evidence of knowledge and skills that will be credited during marking.
- The tutor must not produce any templates, pro-formas, work logs etc unless instructed to in the assignment guidance. Where instructed to do so, these materials must be produced as specified and contain no additional guidance. Templates

All specific prompts and details of the nature of any further guidance must be recorded in the relevant form and reviewed during marking and moderation.

Guidance on marking

Please refer to the state of the nature of any further guidance must be recorded in the relevant form and reviewed during marking and moderation.

Please refer to the Technical qualifications – marking, and - moderation ce documents for further information on gathering evidence suitable for marking moderation, and on using the marking grid and forms.

The candidate record form (CRF) is used to record:

- Details of any guidance or the level of prompting the date has received during the assessment period
- Rough notes bringing together relevant evidence from across tasks during marking.
- Oan overall judgement of the mark. Summary justifications when holistically coming

The practical observation form (PO) is used to reco

Descriptive information and evidence a candidate performance during an observation. Although descriptions of the quality of performance should support decisions against the AOs, the notes should follow the flow of the observation, rather than attempting to assign evidence against the AOs at this point. PAST ASSIGNMENT (2019)

Marking grid

For any category, 0 marks may be awarded where there is no evidence of achievement

%	Assessment Objective	Band 1 descriptor	Band 2 descriptor	Band 3 descriptor			
		Poor to limited	Fair to good	Strong to excellent			
10	AO1 Recall of knowledge relating to the qualification LOs • Does the candidate seem to have the full breadth and depth of taught knowledge	(1-2 marks) Recall shows some weaknesses in breadth and/or accuracy. Hesitant, gaps, inaccuracy.	(3-4 marks) Recall is generally accurate and shows reasonable breadth. Inaccuracy and misunderstandings are infrequent and usually minor. Sound, minimal gaps.	(5-6 marks) Consistently strong evidence of accurate and confident recall from the breadth of knowledge. Accurate, confident, complete, fluent, slick.			
	across the qualification to hand? • How accurate it their	horse accommodation, risk assessm	<i>xamples of types of knowledge expected:</i> Relevant legislation, signs of health, diseases and disorders, orse accommodation, risk assessments, husbandry and breeding, structure and functions of biological stems, national and international conservation strategies.				
	 knowledge? Are there any gaps or misunderstandings evident? How confident and secure does their knowledge seem? 	Bottom of band: Shows a limited range of knowledge from across the qualification with some inaccuracies and omissions of some key areas.	Bottom of band: Shows a generally accurate range of knowledge from across the qualification. May contain some minor inaccuracies, but these are infrequent.	Bottom of band: Shows a detailed and accurate range of knowledge across the qualification and demonstrates a degree of confidence in key areas.			
		Top of band: Shows a range of knowledge from across the qualification with some inaccuracies in some key areas.	Top of band: Shows an accurate range of knowledge from across the qualification which is detailed in key areas.	Top of band: Shows a comprehensive, accurate and confident recall of knowledge from across the qualification.			

(1-5 marks) (11-15 marks) AO2 (6-10 marks) Some evidence of being able to Consistently strong evidence of Explanations are logical. Understanding of give explanations of concepts Showing comprehension and clear causal links in explanations concepts theories and generally free from and theories. Explanations generated by the candidate. processes relating to misunderstanding, but may lack Candidate uses concepts and appear to be recalled, simplistic the LOs depth or connections are or incomplete. theories confidently in • Does the candidate incompletely explored. explaining decisions taken and Misunderstanding, illogical make connections and application to new situations. Logical, slightly disjointed, connections, guessing. show causal links and Logical reasoning, thoughtful plausible. explain why? decisions, causal links, justified. • How well theories and concepts are applied to new situations/the assignment? • How well chosen are exemplars – how well do they illustrate the concept?

Examples of understanding expected: Equine pathogens and preventative treatments, horse welfare, equine behaviour, nutrition and feeding requirements, breeding strategies, equine biological systems, control mechanisms in horses, neural control in horses, horses senses and adaptations, national and international conservation strategies.

Bottom of the band:

Shows a limited understanding from across the qualification. Gives simple explanations of key concepts, theories and processes, however these are basic and sometimes incomplete. Some misunderstanding and confusion in key areas, which leads to illogical connections between theory and practice.

Top of the band:

Shows an understanding from across the qualification. Gives simple explanations of key concepts, theories and processes. Some misunderstandings, however in key areas starting to make limited connections between theory and practice.

Bottom of the band:

Shows understanding from across the qualification and in key areas makes logical connections between theory and practice. Explanations of concepts, theories and processes are mostly coherent and well explained, but may lack depth in some areas.

Top of the band:

Shows understanding from across the qualification makes logical connections between theory and practice. Explanations of concepts, theories and processes are coherent and well explained.

Bottom of the band:

Shows understanding from across the qualification and makes casual connections between theory and practice. Explanations of concepts, theories and processes are detailed and very coherent.

Top of the band:

Shows comprehensive understanding from across the qualification and makes casual connections between theory and practice. Explanations of concepts, theories and processes are detailed, very coherent and clearly justified.

(1-6 marks) (7-12 marks) (13-18 marks) AO3 Application of Some evidence of familiarity with Generally successful application Consistently high levels of skill practical/ practical skills. Some of skills, although areas of and/or dexterity, showing ability technical skills awkwardness in implementation, complexity may present a to successfully make adjustments may show frustration out of to practice; able to deal How practiced/fluid challenge. Skills are not yet second nature. does hand eye inability rather than lack of care. successfully with complexity. coordination and Unable to adapt, frustrated, flaws, Somewhat successful, some Dextrous, fluid, comes naturally, dexterity seem? out of tolerance, imperfect, inconsistencies, fairly adept/ skilled, practiced. • How confidently does clumsy. capable. the candidate use the breadth of practical skills open to them? How accurately/ successfully has the candidate been able to use skills/achieve practical outcomes?

Bottom of band:

Shows poor attention to detail. There is a lack of effective engagement with the tasks and work produced to a poor to limited standard.

Tasks not completed within agreed timeframes or are rushed. Limited health, safety and hygiene compliance.

Quality of skills is limited and may be carried out with some awkwardness. Poor care of equipment. Minimal consideration for the horse needs.

Top of band:

Shows fair attention to detail with limited engagement with the tasks. Work produced to an adequate standard.

Tasks may not be completed within agreed timeframes or may rushed. Some health, safety and hygiene compliance.

Quality of skills sporadically applied. Minimal care of equipment.

Minimal consideration for the horse's needs.

Bottom of band:

Shows fair attention to detail. Effective level of engagement with the tasks.

Work produced to a reasonable standard.

Completes tasks within agreed timescales.

Compliance with health, safety and hygiene requirements. Quality of skills is adequate. Adequate care of equipment and consideration for animal needs.

Top of band:

Shows attention to detail and engagement.

Completes tasks within agreed timescales.

Compliance with health, safety and hygiene requirements. Confident application of skills and work produced to a good standard.

Appropriate care of equipment. Consistent consideration for the horse's needs.

Demonstrates awareness of industry standards.

Bottom of band:

Shows consistent attention to detail and engagement and often uses own initiative in tasks.

Completes tasks within agreed timescales. Competent application of health, safety and hygiene requirements. Demonstrates skills to industry standards. Appropriate care of equipment. Consistent consideration for the horse's needs

Top of band:

Shows consistently high level of skills to industry standard.
Completes tasks competently and confidently within agreed timescales.

Always uses own initiative in tasks. Work produced to a high standard. Excellent attention to detail including health, safety and hygiene considerations consistently applied.

Consideration for the horse's needs paramount throughout and appropriate care of equipment. Adapts and make adjustments to practice.

25	AO4 Bringing it all
	together - coherence
	of the whole
	subject

- Does the candidate draw from the breadth of their knowledge and skills?
- Does the candidate remember to reflect on theory when solving practical problems?
- How well can the candidate work out solutions to new contexts/problems

(1-5 marks)

Some evidence of consideration of theory when attempting tasks. Tends to attend to single aspects at a time without considering implication of contextual information.

Some random trial and error, new situations are challenging, expects quidance, narrow. Many need prompting.

(6-10 marks)

Shows good application of theory to practice and new context, some inconsistencies. Remembers to apply theory, somewhat successful at achieving fitness for purpose. Some consolidation of theory and practice.

(11-15 marks)

Strong evidence of thorough consideration of the context and use of theory and skills to achieve fitness for purpose.

Purposeful experimentation, plausible ideas, guided by theory and experience, fit for purpose, integrated, uses whole toolkit of theory and skills.

0172-003 Synoptions Symment Pack 20°

Examples of bringing it all together: Bringing together all knowledge and research, reflection and evaluation of management plans, links to equine welfare. There is some evidence of the candidate using their knowledge, understanding and skills to make straightforward links between limited topics across the qualification. Little evidence of them using their knowledge and understanding to inform practical activities.

Bottom of band:

There is some evidence of the candidate using their knowledge, understanding and skills to make straightforward links between limited topics across the qualification.

Little evidence of them using their knowledge and understanding to inform practical activities.

Top of band:

The candidate shows evidence of using their knowledge, understanding and skills to make key links between limited topics. Limited evidence of candidates using their knowledge and understanding to inform practical activities.

Bottom of band:

The candidate consistently brings together their knowledge, understanding and skills with basic analysis, problem solving, and reflection on equine management. Candidate makes key links between a range of topics across the qualification and uses these links to inform practical activities.

Top of band:

The candidate consistently brings together their knowledge, understanding and skills with sound analysis, problem solving and clear reflection on equine management.

Candidate makes key links between a wide range of topics across the qualification and uses these links to inform practical activities.

Bottom of band:

The candidate coherently brings together knowledge, understanding and skills to solve problems across the qualification, including good reflection and evaluation on equine management. Candidate uses theory and skills effectively to achieve tasks and understands the context in which the tasks are undertaken. Candidates can solve problems independently.

Top of band:

The candidate demonstrates a holistic understanding across tasks. Uses a wide range of sources and shows in-depth knowledge, understanding and skills to propose industry appropriate solutions to problems faced. Candidate reflects and evaluates on both animal management and own practice to identify areas for improvement.

 AO5 Attention to detail/ perfecting Does the candidate routinely check on quality, finish etc and attend to imperfections/ omissions? How much is accuracy a result of persistent care and attention (eg 	(1-2 marks) Easily distracted or lack of checking. Insufficiently concerned by poor result; little attempt to improve. Gives up too early; focus may be on completion rather than quality of outcome. Careless, imprecise, flawed, uncaring, unfocussed, unobservant, unmotivated.	(3-4 marks) Aims for satisfactory result but may not persist beyond this. Uses feedback methods but perhaps not fully or consistently. Variable/intermittent attention, reasonably conscientious, some imperfections, unremarkable.	(5-6 marks) Alert, focussed on task. Attentive and persistently pursuing excellence. Using feedback to identify problems for correction. Noticing, checking, persistent, perfecting, refining, accurate, focus on quality, precision, refinement, faultless, meticulous.
measure twice cut once)? • Would you describe		ustification and suggestions of areas viour, checking quality of work for acc	
the candidate as a perfectionist and wholly engaged in the subject?	There is limited attention to detail. Evidence provided shows inaccuracies or gaps in assessment tasks. Quality of work mostly meets industry standards.	There is consistent attention to detail across all tasks. Evidence provided is accurate and related to specific tasks. Quality of work meets industry standards.	The candidate is highly focused on all tasks, showing great care and attention to detail. Candidate utilises feedback to improve own performance and to achieve excellence. Tasks are always completed to a high level industry standard and timescales.

Complete the table below referring to the relevant marking grid found in the assessment pack. Do not allocate marks at this stage.

- Paori. Bo not allocate in	
Assessment Objective (AO)	Notes – detailed, accurate and differentiating notes that identify areas of strength and weakness are necessary to distinguish between different qualities of performance and to facilitate accurate allocation of marks once all evidence has been submitted.
AO1 Describe how well the candidate shows recall of knowledge e.g. stating facts without explanation / simple descriptions of what they are carrying out / showing aspects of straightforward knowledge through logical sequencing and application of skill etc.	(2019).DONOTI
AO2 Describe how well the candidate shows riderstanding when carrying out practical	

PRS

tasks e.g. their

explanation of why they are completing a process or how they may change their course of action / are they able to justify their actions etc.

Assessment Objective (AO)	Notes – detailed, accurate and differentiating notes that identify areas of strength and weakness are necessary to distinguish between different qualities of performance and to facilitate accurate allocation of marks once all evidence has been submitted.
AO3 Describe how well the candidate demonstrated their practical skills. e.g. how practiced/fluid is hand eye coordination and dexterity / how confident are they / how accurate or 'polished' is the outcome / safe working etc.	E ASSESSMENT
AO4 Describe how well the candidate brings it all together – e.g. how coherent are their actions / how well do they draw from the breadth of their knowledge and skills / reflection on theory when solving practical problems / How well can they work out solutions to new contexts/ problems on their own / time management etc.	DO NOT USE FOR LIVE ASSESSMENT
