Award	Award Reference	Pathway
7457 – Level 3 Diploma in Veterinary Nursing	600/6052/6	Small Animal
7457 – Level 3 Diploma in Veterinary Nursing	600/6052/9	Equine

### Scenario

Prior to a surgical procedure, you have been requested to identify and prepare equipment for sterilisation.

- a. Select the required items and place them on the correct section of the grid provided
- b. Pack and label the equipment indicated by the examiner, ready for sterilisation using an autoclave today

Note: The equipment has been previously cleaned

**Methodology: You will be expected to:**

1.	From the equipment provided correctly fill 9 spaces on the grid
2.	Cover the sharp end of the equipment securely
3.	Select appropriate sized autoclave packaging material
4.	Insert the equipment into packaging
5.	Equipment to be inserted the correct way round (ie handles are presented first when packaging is opened)
6.	Remove excess air from the bag
7.	Secure the package
8.	Double wrap in appropriate sized autoclave packaging material
9.	Remove excess air from the bag
10.	Secure the package
11.	Select permanent marker pen
12.	Label package with correct equipment name
13.	Label package with own initials
14.	Label package with date of autoclaving or date for re-autoclaving
15.	Write on appropriate portion of packaging without piercing bag (ie flap, plastic or Bowie-Dick)
16.	Item of equipment packed appropriately ready for sterilisation
