

Purpose statement

The following purpose is for the **Level 3 Advanced Technical Certificate in Horticulture 601/7453/5**

Area	Description
OVERVIEW	
Who is this qualification for?	This qualification is for you if you are aged 16-19, and want to work in horticulture. It provides you with the core practical skills and knowledge which will equip you to seek employment or further learning and training within the horticultural industry.
What does this qualification cover?	<p>This qualification enables you to gain the core skills and knowledge required for working in horticulture. Sound practical skills are really important when looking to gain employment in horticulture. You will learn how to work safely and prepare and operate a range of equipment and machinery. You will study the fundamentals of plant identification, plant health and protection, controlling pests, diseases, disorders and weeds. You could also study topics such as how to construct landscape features, horticultural production techniques or maintaining turf.</p> <p>Centres and providers work with local employers who will contribute to the knowledge and delivery of training. Employers will provide demonstrations and talks on the industry and where possible work placements will also be provided by the employers. This practically based training is ideal preparation for gaining employment in the horticultural industry or specialist further study.</p>
WHAT COULD THIS QUALIFICATION LEAD TO?	
Will the qualification lead to employment, and if so, in which job role and at what level?	<p>You might progress into work as a:</p> <ul style="list-style-type: none"> • Fresh produce technician • Landscape labourer • Grounds maintenance assistant • Landscape assistant • Apprentice in a horticultural business
Why choose this qualification over similar qualifications?	This qualification is typically delivered alongside other qualifications such as GCSEs, AS or A Levels. It provides an introduction to the core skills and knowledge required to enter employment in the horticultural industries and opens first steps to a career in working in horticulture. Working in horticulture involves physical, practical work and dedication and these core skills could set you off on your career.

City & Guilds offers four sizes of Level 3 qualification in Horticulture: Certificate, Diploma (540), Extended Diploma (720) and Extended Diploma (1080).

You would take the Certificate if you want an introductory qualification to develop some of the core skills and knowledge required by employers in the horticultural industry. The Certificate is likely to be taken alongside other programmes such as GCSEs or AS Levels over a one-year course of study.

You would take the Diploma (540) if you want a qualification to develop some of the skills and knowledge that can lead to specific roles required by employers in the horticultural industry. The Diploma is likely to be taken alongside other programmes such as GCSEs or AS Levels over a one-year course of study.

You would take the Extended Diploma (720) if you want to specialise, to develop most of the skills and knowledge required by employers in the horticultural industry. The Extended Diploma (720) is likely to be taken as part of a full-time two year programme of study, or alongside other qualifications such as AS or A Levels over a longer period of time.

You would take the Extended Diploma (1080) if you want to specialise and develop the skills and knowledge required by employers in the horticultural industry. The Extended Diploma (1080) is likely to be taken as a full-time programme of study over two years. By taking this large qualification, you will be exposed to, and have the opportunity to gain experience in, the wider horticultural sector. This will enable you to progress to a diverse range of employment opportunities, as you will have gained hands-on experience over 2 years, which employers really value.

Will the qualification lead to further learning?

You may wish to progress onto an Advanced Apprenticeship in Horticulture, which allows you to combine working for a Public Garden or Park, a Landscape firm, a Nursery or a similar job, and typically attending one day a week at College or with a Training Provider.

You could also progress to Higher Education and study a Foundation degree in Horticulture or a similar subject.

WHO SUPPORTS THIS QUALIFICATION?

Employer/Higher Education Institutions

The British Growers Association (BGA)
The Horticultural Trades Association (HTA)
The British Association of Landscape Industries (BALI)
