

TAQA – 6317 (UNIT 301)**E-LEARNING PROGRAMME**

City & Guilds have created an engaging, interactive online learning programme covering all the content of Unit 301 of the Level 3, Framework Award in Understanding the Principles and Practice of Assessment.

The e-learning programme covers the entire content of the one unit qualification which can lead onto the summative assessment, with a range of options. The programme can be used for independent study or blended learning with taught sessions. The activities can be completed in bite-size chunks to suit individual learners busy schedule.

The e-learning is accessed through the City & Guilds SmartScreen platform. Learners just need to login to their account once their license has been activated by the SmartScreen or course administrator. There is a manual for tutors and user guide for learners included.

The learning is delivered as a series of short, varied activities. These activities are grouped into four logical sections:

- Principles and Practices
- Planning and Methods
- Making Decisions and Giving Feedback
- Getting it Right

Each section covers all of the learning outcomes for knowledge Unit 301. This is an award in itself but is also the mandatory unit in all the Assessor qualifications.

Please note: the cost of the e-learning programme does not include the qualification registration fee

NUMBER OF LICENSES	PRICE PER LICENSE
1-5	£49
6-10	£45
11-20	£40
21+	£37.50
