Level 3 Certificate for Proficiency in Food Industry Skills (600/0766/7)

OVERVIEW

What does this qualification cover?

This qualification covers the advanced practical skills and knowledge required to work in food operation and/or sales roles within the food and drink industry.

There is a large volume of units within this qualification covering every aspect of the food manufacturing process from the initial processing of the raw materials, through to the production line processes and then onto the final packaging of the products. There are individual units covering health and safety, quality assurance, plant and equipment and also the retail/sales aspects of food manufacture.

All learners will take a mixture of mandatory and optional units depending on their role within the food manufacturing process

This is a Framework qualification.
