Candidate's instructions

You have **40 minutes** to complete this assessment.

- Read the text and answer the questions carefully
- The maximum marks for each question are shown
- Answer **all** questions
- You **may** use a dictionary

You need the following:

- a pen with black or blue ink.

Read the notice.

Water

We all need water but there is not as much water as we think. We use much more water now than 25 years ago.

How can you save water?

In the house

Do not fill the kettle to the top. Only put in as much water as you need.

Have a shower, not a bath.

Do not let your taps drip.

Do not leave the water running while you brush your teeth, wash your hair or shave. Turn it off.

Outside

Use a bucket and sponge to wash the car instead of a hosepipe.

Collect rain water to water the garden.

Do not water the garden with a hosepipe. Use a watering can.

Answer the questions about the notice.

1. Give **two** reasons why people need to save water.

2 marks

.....
.....

2. List **three** ways people can save water in the house.

3 marks

FREE Water Saving Kit

To help you save water, energy and money we have some free water saving devices for your home.

Save-a-flush Freddie

One third of the water we use goes down the toilet. Pop the Freddie into your toilet water tank and start saving one litre of water with every flush. It is easy to use and lasts many years.

Save a litre with every flush

Tap insert

There are two of these in the box. Fit them to your taps to mix air with the water. This way you will use less water.

Shower timer

Use a timer to cut down the time you take to shower.

Shower save

This fits onto the bottom of your shower hose and cuts down on the water you use.

Order your free kit online at www.waterwaterwater.com or phone 01772 404040

Answer the questions about the advert.

4. Look up the word **device** in the dictionary. **1 mark**
Write down what it means.

.....
