City & Guilds Level 1 Award in Mathematics Skills - Measure, Shape and Space

(600/7506/5)

Overview

What does this qualification cover?

The Level 1 Award in Mathematics Skills - Measure, Shape and Space is part of a series of qualifications offered by City & Guilds that are designed to support flexible and personalised patterns of maths and English learning.

This qualification in particular requires learners to build a portfolio of evidence covering the range of **Measure, Shape and Space** skills defined by the National Standards for Adult Numeracy at Level 1.

It is regulated in England as part of the Qualifications and Credit Framework.

Who is this qualification for?

This qualification is intended for learners with identified gaps in their knowledge, understanding and application of maths. It is especially suitable for learners who have previously struggled to engage with maths, as well as those who otherwise require a personalised approach to their learning with the opportunity to approach assessment in an engaging context that is relevant to their needs.

The unit-based structure of this qualification allows relatively small steps to be recognised, helping to build learners' confidence and encourage them to make further progress.

How does this qualification relate to City & Guilds' other Framework maths qualifications at Level 1?

This qualification focuses on one of the three themes of the National Standards for Adult Numeracy:

- Number
- Measure, Shape and Space
- Handling Data.

It is complemented by two other 'themed' Awards, as well as a Certificate-sized qualification covering all three.

What could this qualification lead to?

How does this qualification support progression to the next level(s)?

The Level 1 Award in Mathematics Skills - Measure, Shape and Space is part of a series of qualifications spanning the five levels of the National Standards for Adult Numeracy (Entry 1, 2 and 3; Level 1 and 2). Each level subsumes the requirements of the level(s) below.

Any use of this qualification should be preceded by a thorough process of initial and diagnostic assessment, and learners would be expected to continue studying maths after completing this qualification.

Immediate next steps after achieving this qualification might include any of the following:

- other 'themed' Mathematics Skills Awards at/above Level 1
- a Certificate in Mathematics Skills at/above Level 1
- Functional Skills in Mathematics at/above Level 1.

How does this qualification relate to Functional Skills and GCSE?

The Level 1 Award in Mathematics Skills - Measure, Shape and Space is based on the National Standards for Adult Numeracy, and relates closely to the Adult Numeracy Core Curriculum.

The Functional Skills and GCSE Mathematics Subject Criteria both relate closely to these standards, and this qualification therefore provides a solid foundation from which learners can continue their journey towards these qualifications.

How else might learners benefit from completing this qualification?

Strong awareness and use of measure, shape and space are essential for almost any chosen career path.

Who supports this qualification?

The following City & Guilds centres have indicated support for this qualification:

- learndirect (10003816)
- HIT Training (10012467)
- Bolton College (10000794)
- The Manchester College (10023139)
- Realise Futures (10036580)
- Reading Borough Council New Directions (10005398)
- Lancashire Adult Learning (10003765)
- MTC Learning (10004357)
- Preston's College (10005200)
- Sussex Downs College (10006432)
