Non-calculator paper

There are 9 marks available.

You must not use a calculator.
Q1 What number comes next in this list?

92 94 96 98 ...... 1 mark

Q2 What is 63 divided by 9?

.................................................. 1 mark

Q3

80  30 = 50

Choose the correct sign to finish the calculation and fill in the box.

= + − × ÷ 1 mark

Q4

Tick all the white squares.

1 mark
Q5  A flight attendant does this calculation.

\[
\begin{array}{cccccc}
87 & + & 39 & + & 52 & = 178
\end{array}
\]

Round the numbers the flight attendant added to the nearest 10 to check the answer is about right.

\[
\begin{array}{cccccc}
\phantom{87} & + & \phantom{39} & + & \phantom{52} & = \phantom{178}
\end{array}
\]

1 mark

Q6  Count these crosses.

\[
\begin{array}{c}
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
X \ X \ X \ X \ X \ X \ X \ X \ X \\
\end{array}
\]

How many crosses (X) are there?

1 mark
Q7  This bar chart shows the number of flights from an airport last week.

Flights last week

<table>
<thead>
<tr>
<th>Day</th>
<th>Number of flights</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday</td>
<td>20</td>
</tr>
<tr>
<td>Tuesday</td>
<td>30</td>
</tr>
<tr>
<td>Wednesday</td>
<td>15</td>
</tr>
<tr>
<td>Thursday</td>
<td>40</td>
</tr>
<tr>
<td>Friday</td>
<td>30</td>
</tr>
</tbody>
</table>

Which day had the largest number of flights?

.............................................................................................................................................

1 mark

Q8 A passenger wants to take these things on a plane.

- Toothpaste: 75 ml
- Shampoo: 150 ml
- Sunscreen: 125 ml
- Perfume: 60 ml

Tick all of the things that are less than 100 ml.

1 mark
Q9 A man lives 10 kilometres from work.

He works 4.5 kilometres from the airport.

He drives from his house to work. Then he drives to the airport.

How far does the man drive **in total**?

............................................................... kilometres

Calculator paper

There are 27 marks available.

You may use a calculator.
Q1  How many hours are in one day?  

1 mark

Q2  How many edges does a square based pyramid have?  

A. 4  
B. 5  
C. 6  
D. 8  

1 mark

Q3  What fraction of the rectangle is coloured in grey?  

1 mark
Q4  The weather forecast for the **UK** next week is **21 °C** every day. Here is the weather forecast for Spain next week.

<table>
<thead>
<tr>
<th>Weather forecast for Spain</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Monday</strong></td>
</tr>
<tr>
<td>23°C</td>
</tr>
</tbody>
</table>

a Which days will be warmer in Spain than in the UK? Tick all those days.  

2 marks

b A travel agent needs a chart to show the temperatures of the warmest day and coldest day in Spain next week.

Draw **two** bars to finish the bar chart.

4 marks
Q5 This diagram shows the maximum measurements for hand luggage that you are allowed to check-in on a plane.

It is a box, shaped like a cuboid, with sides and a base, but no top.

![Check-in luggage measurements allowed](image)

a What shape is the base of the box?

........................................................................................................... 1 mark

b What is the length of the largest side? Give units with your answer.

........................................................................................................... 1 mark
Q6  A man wants a new case to take on the plane.

     The case is in the sale.
     In the sale, all cases are half the price shown.

£36

a  What is the price of the case in the sale?

Show your working out.

.......................................................... ..................................

Sale price £ .......................................................... 2 marks
The man only has these notes.

b How much money does he have altogether?

Show your working out.

........................................................................................................................................

........................................................................................................................................

Amount of money £ ................................................................. 2 marks

c The man buys a bag and a wallet instead.
This bag costs £24 and the wallet costs £7.

How much money will he have left? Give units with your answer.

Show your working out.

........................................................................................................................................

........................................................................................................................................

Money left ................................................................. 3 marks
Q7  A passenger checks the weight of her suitcase.

This table shows how much it costs to take a suitcase on a plane.

<table>
<thead>
<tr>
<th>Weight of suitcase</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>less than 10 kg</td>
<td>£5</td>
</tr>
<tr>
<td>10 kg to 20 kg</td>
<td>£15</td>
</tr>
<tr>
<td>over 20 kg to 30 kg</td>
<td>£25</td>
</tr>
<tr>
<td>over 30 kg</td>
<td>£35</td>
</tr>
</tbody>
</table>

a  How much does the passenger’s suitcase weigh to the nearest kilogram?

......................................................... kg  

1 mark

b  How much will it cost to take the suitcase on the plane?

Cost £ .................................................................  

1 mark

c  Give a reason for your answer.

.............................................................................

.............................................................................  

1 mark
Q8 A passenger’s flight leaves at **twelve o’clock**. 
He checks his watch.

\[\begin{array}{c}
\text{Gates 123-200} \\
\text{Terminal C} \\
\end{array}\]
\[\begin{array}{c}
\text{Gates 59-122} \\
\text{Terminal B} \\
\end{array}\]
\[\begin{array}{c}
\text{Gates 1-58} \\
\text{Terminal A} \\
\end{array}\]
\[\begin{array}{c}
\text{Café} \\
\end{array}\]
\[\begin{array}{c}
\text{Toilets} \\
\end{array}\]
\[\begin{array}{c}
\text{You are here} \\
\end{array}\]

a Has his plane left?

\[\begin{array}{c}
\text{Write down how you got your answer.} \\
\text{1 mark} \\
\end{array}\]

His flight leaves from Gate 105. This sign shows the Gates at the airport.

b In which terminal is **Gate 105**?

Terminal ………………………………………… 1 mark

c Write down how to get to **Gate 105**.

\[\begin{array}{c}
\text{Write down how you got your answer.} \\
\text{1 mark} \\
\end{array}\]
Q9 A customer wants to know the cost to fly to Glasgow. She finds these ticket prices on an airline’s website.

<table>
<thead>
<tr>
<th>Ticket prices</th>
</tr>
</thead>
<tbody>
<tr>
<td>8am flight</td>
</tr>
<tr>
<td>2pm flight</td>
</tr>
<tr>
<td>10pm flight</td>
</tr>
</tbody>
</table>

<tr>
<th>Suitcase</th>
</tr>
</thead>
<tbody>
<tr>
<td>£56</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Extras</th>
</tr>
</thead>
<tbody>
<tr>
<td>Choose seat, Board first, One extra bag</td>
</tr>
</tbody>
</table>

The customer wants the **cheapest** priced ticket. She wants to take a suitcase, choose her seat, board first and take an extra bag.

a  How much will the customer pay?

Show your working out.

........................................................................................................................................................
........................................................................................................................................................

**Amount to pay £ ** ___________  
2 marks

The woman thinks it is cheaper to travel by train. She finds these prices

<table>
<thead>
<tr>
<th>Train prices to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dundee</td>
</tr>
<tr>
<td>Edinburgh</td>
</tr>
<tr>
<td>Glasgow</td>
</tr>
</tbody>
</table>

b  Is the woman correct? 
Use numbers to explain your answer.

Entry 2 Sample Assessment

Mark scheme and assessment record

HOLIDAYS
**Assessor notes for marking**

The assessor must mark the assessment according to the mark scheme.

- Apply the mark scheme methodically.
- Initially apply the unshaded section for each question.
- If this is not achieved, work down the shaded rows until you find the appropriate mark.
- If none of the shaded sections are met then award 0 for that part of the mark scheme.

Marks should always be awarded for correct answers whether numbers are written as words or figures, unless otherwise stated by the question paper or mark scheme.

Assessors must not penalise incorrect spelling.

Units, numbers or words shown in brackets on the mark scheme are not required for the awarding of mark/s on the candidate’s paper.

The candidate’s marks from each paper must be added together to get the final mark. The pass mark for the assessment is 19.

The assessment record must be completed for each candidate.
