SAMPLE PAPER 1
Level 1 Functional Skills Mathematics

Duration: 1 hour 20 minutes
Total marks: 45

SECTION 2 – CALCULATOR PERMITTED
VERSION 1.1

Candidate name (first, last)

First

Last

Candidate enrolment number   Date of birth (DDMMYYYY)

Assessment date (DDMMYYYY)   Centre number   Candidate signature and declaration*

• If you have used any additional answer sheets write the number of additional sheets in this box.
• Please ensure that you **staple** additional answer sheets to the **back** of this booklet,
clearly labelling them with your full name, enrolment number, centre number
and date in BLOCK CAPITALS.
• You must use a black or blue pen. You may use a pencil for charts and diagrams.

***I declare that I had no prior knowledge of the questions in this assessment
and that I will not share information about the questions.**

You should have the following for this assessment
• a pen with black or blue ink
• a pencil (for diagrams, graphs and charts only)
• an eraser
• a 30cm ruler
• a protractor.

You may use a calculator for Section 2.

General instructions
• Read through each question carefully.
• Show your working out (where required).
• Write all your working out and answers in this booklet.
• Check your calculations and check that your answers make sense.
• There are additional pages **including graph paper** at the back of this booklet if
you run out of space or ask the invigilator if you need additional sheets of paper.

SECTION 2 – CALCULATOR PERMITTED

There are **45** marks available in this section.

You should check all your work as you go along.

You may use a calculator.

Q1

Write **eight hundred and seven thousand, two hundred and five** in figures.

_____

(1 mark)
Q2

What is 2 043.666666 rounded to 2 decimal places?

_____

(1 mark)
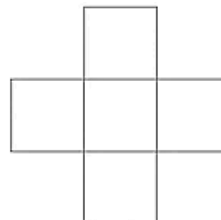

Q3

Which one of these nets will fold to make a cube?

| A	B	C	D

(tick one box)

(1 mark)

Q4

Which one of these fractions is the **biggest** number?

(tick one box)

A $\dfrac{4}{10}$

B $\dfrac{3}{4}$

C $\dfrac{2}{5}$

D $\dfrac{1}{3}$

(1 mark)

Q5

Which one of the following lists is in decreasing order from the largest to the smallest?

(*tick one box*)

A   252,080 252,300 250,900

B   252,080 250,900 252,300

C   252,300 252,080 250,900

D   252,300 250,900 252,080

(1 mark)

Q6 A customer wants to buy a sofa. The salesperson says he must pay a deposit.

You can pay 10%, that's £39.90
Or you can pay 20%, that's £49.90

Explain why the salesperson must have made a mistake.

Explanation

(1 mark)

Q7
A gardener needs to order fertiliser for a piece of land.
The piece of land is a square with sides measuring 8 metres.

This formula shows how many **grams** of fertiliser she needs.

grams of fertiliser needed = length in metres x width in metres x 25

The supplier sells these bags of fertiliser.

10k

5kg

2kg

1kg

1 kilogram   **2 kilograms**   **5 kilograms**   **10 kilograms**

Which bag of fertiliser should the gardener order? Include figures to explain your answer.
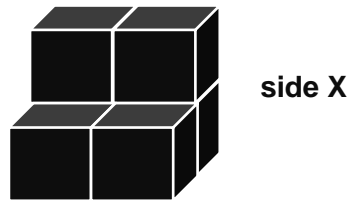

Show all your working.

_____ **kg bag**

**Explanation**

(3 marks)

Q8

A shelf stacker is making a display in a shop. It is made from six identical boxes. Each box is a cube.
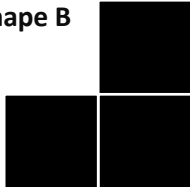

side X

Which one of the shapes below is a side view (elevation) of the display from **side X** ?
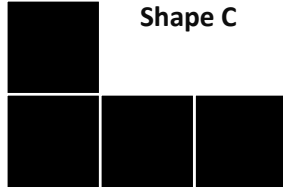

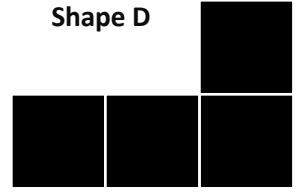

Shape A

Shape B

Shape C

**Shape D**

**Shape E**

Shape F

The side view (elevation) from side X is **Shape _____**

Each box has sides measuring **0.5m**

Work out the area of this side of the display. **Give units in your answer.**

Show all your working.

Area _____

Each box weighs 950g

What is the weight of the whole display in **kilograms**?

Show all your working.

_____**kg**

(4 marks)

Q9 A tourist wants to know how long it will take to walk to a museum.
This map shows the route from a nearby station to the museum.
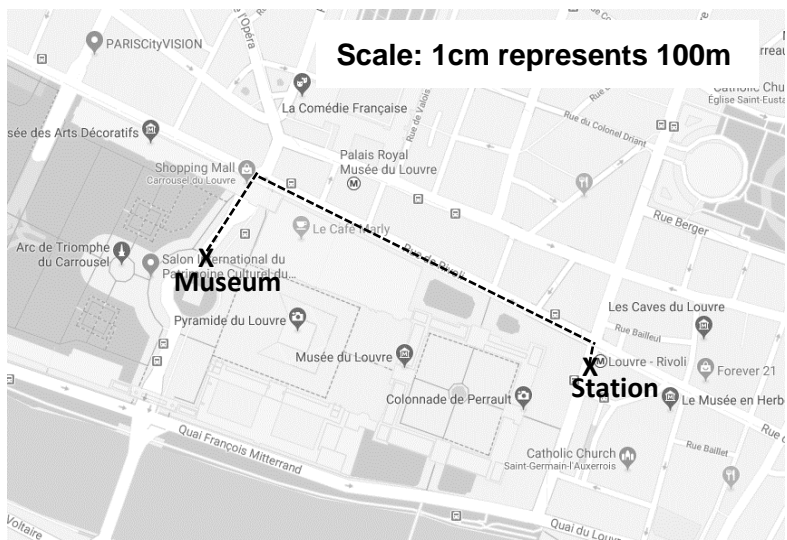

The route measures 6.5cm on the map.

It takes the tourist 10 minutes to walk a kilometre.

How long will it take him to walk to the museum from the station?
Give units in your answer.

Show all your working.

Amount of time to walk _____

(4 marks)

Q10 A sales rep needs some cardboard boxes to store samples at work.

The office supplier has three different sized boxes.
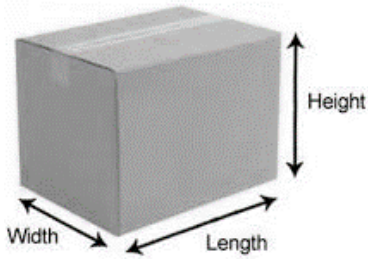

Box	Width	Length	Height
A	35cm	35cm	55cm
B	40cm	40cm	40cm
C	30cm	60cm	30cm

Which box has the largest volume?

Explain your answer. Include figures to support your explanation.

Answer _____

Show all your working.

Explanation

(4 marks)

Q11 A carpet fitter needs to order some fixing strips to hold the carpet all around the edges of this floor.

2.5m

Not to scale

5.5m

floor

2.0m

7.5m
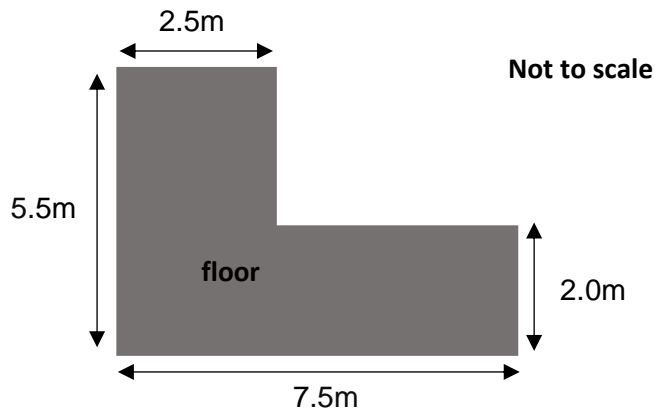

He can cut and join fixing strips.

An online shop has packs of fixing strips on offer

Carpet Supplies Direct

Fixing strips: 6-metre packs
£7.99 per pack

*** Buy one get one free ***

Work out the total cost for the packs of fixing strips the carpet fitter needs to order.

Show all your working.

Total cost £_____

(5 marks)

Q12 A doctors' receptionist wants to display a notice to show patients how long, on average, they will wait to see a doctor.

The receptionist recorded how long past their appointment time patients at the surgery waited to see their doctor yesterday morning.

Minutes waiting (to the nearest minute)		
4	8	6
4	5	3
10	7	5
9	7	4

Complete the notice.

Show all your working.

Hilltop Surgery

Average waiting time

You should expect to wait [ ] **minutes to see a doctor today.**

Explain why using the waiting times for yesterday morning might not give a suitable waiting time to put on the notice.

Explanation

(3 marks)

Q13 A customer needs to buy a washing machine. He wants to pay monthly.

Two different shops have the washing machine he wants.

BROWNS

Price £470

Pay monthly offer:
Interest is 15% of the price.
Pay the total amount in 10 equal monthly instalments. First instalment must be paid today.

HS
Home Superstore

Price £525

Pay monthly offer:
Interest is 5% of the price.
Pay 1/3 today and the rest in 4 equal monthly payments.

Work out which offer is cheaper and by how much. How much would the customer need to pay today?

Show all your working.
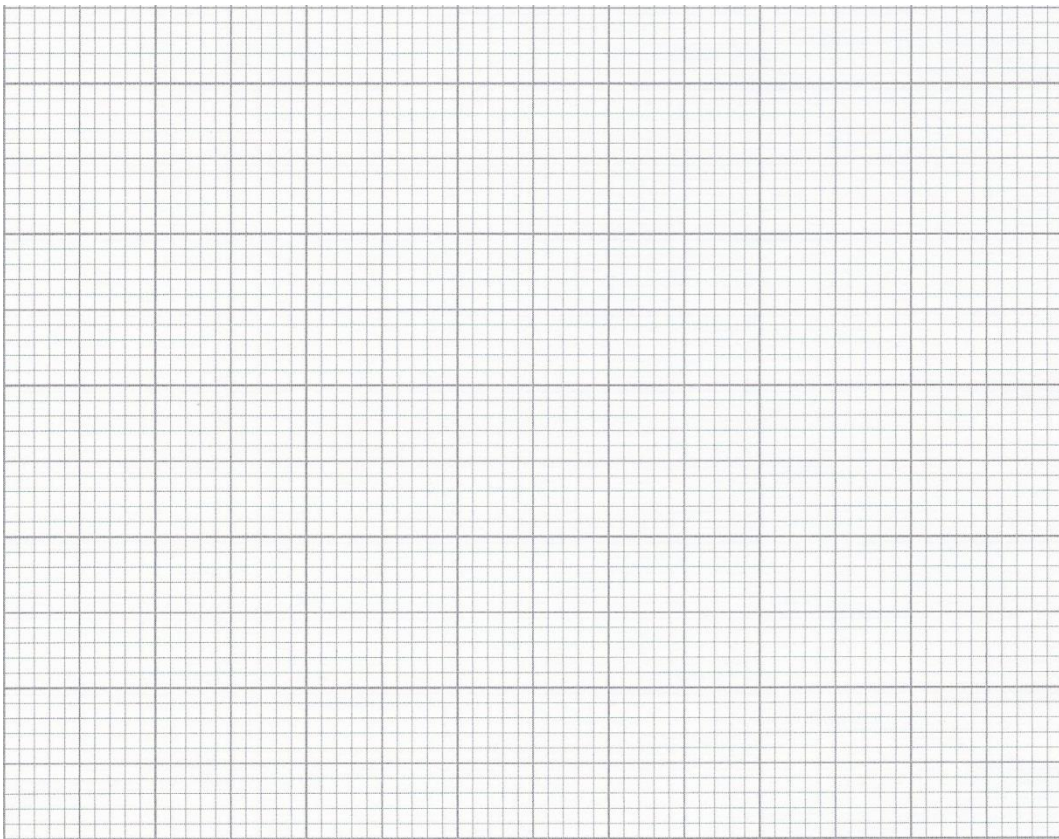

Shop_____ offer is cheaper by £_____

Amount to pay today £_____

(5 marks)

Q14 This table shows the number of orders a sales person got in six months.

Month	Number of orders
