Subject: City & Guilds' Automotive Qualification

Dear Patricia

I am writing on behalf of SWP Training Limited to support the comprehensive and flexible suite of automotive qualifications that City & Guilds has developed in consultation with the industry.

The specific qualification that we support in this letter is:

600/1177/4 Level 2 Certificate in Light Vehicle Maintenance and Repair Principles

SWP Training Limited is one of the UK's leading motor vehicle and body repair training providers

Our commitment is to attract, retain and develop the very best people for SWP Training, helping them to fulfill their potential and to be recognized for their efforts.

The industry recognises that it needs staff with the right skills to deal with the ever-increasing demands in a safety critical environment. For this reason, it is indispensable that employees are able to prove their competence at the standard required for their role, not only the knowledge but the practical skills as well and these qualifications allow learners to do so.

The qualification provides learners with a comprehensive overview of the motor vehicle industry so they are able to understand what opportunities for progression and development are available for them and make an informed decision about whether they want to embark into an apprenticeship or not.

Once completed they will have acquired the basic skills needed to progress successfully into the 500/9707/6 Level 2 Diploma in Light Vehicle Maintenance and

Repair Principles and therefore move into an apprenticeship to become a light vehicle motor vehicle technician or into the 501/0019/1 Level 3 Diploma in Light Vehicle Maintenance and Repair Principles.

Yours sincerely,

Colin Payne
