

All About Automotive

All About Automotive

Issue 04

December 2017

A newsletter from City & Guilds on professional and technical education updates in automotive for all nations.

In this issue:

- T levels - What you need to know (England)
- T level programmes consultation out now (England)
- Webinar – 20% off the job in Apprenticeship standards (England)
- Recorded webinar on our Heavy Vehicle Technician new Apprenticeship offer (England)
- Recorded webinar on our Light Vehicle Technician new Apprenticeship offer (England)
- Recorded webinar on our automotive digital resources (All)
- New SmartScreen offer for our Hybrid/Electric Vehicle qualifications (All)
- New Modern Apprenticeship packages for Light Vehicle and Heavy Vehicle (Scotland)

T levels - What you need to know

The DfE have recently announced their action plan for the technical education reforms (T levels), expected to take effect from September 2020. The reforms began with the publication of the Post 16 Skills Plan in July 2016, and we now have more information to share with you.

To help you to understand what the changes will mean to you and your colleagues and how to prepare for them, we ran a free webinar this autumn for principals, vice principals, curriculum managers, tutors and anyone who is involved in delivering qualifications to full-time learners aged 16-18.

This webinar provides:

- an in-depth knowledge of the post 16 technical education reforms
- more information about T levels
- information about the new work placement pilot scheme
- information about the consultation process and how you can get involved.

Please note that the information in this webinar is correct as of the date of airing on 29 November 2017.

T level programmes consultation out now

The government has just launched the new T level programmes consultation running for 10 weeks until 8 February 2018.

The consultation sets out proposals for T levels and seeks views on how to implement them to ensure we can create a world class technical education system.

This is a once in a generation opportunity to get the system right so that it works for all. Be part of the discussion and have your say now.

Webinar - 20% off the job in Apprenticeship standards

Confused about off-the-job training? Let our funding and digital learning experts help.

We know that many training providers and employers want more support over how to evidence this vital element of the on-programme phase of the apprenticeship. That's why Bryony Kingsland (UK Funding Manager) and Kirsten Train-Ward (Digital Product Manager) will be running a webinar to help training providers and employers get to grips with off-the-job training.

They'll cover:

- What off-the-job training consists of
- how you can track and demonstrate your apprentice's progress to independent auditors.

Transitioning to the New Standards - Webinar Series ▲

How do you transition your apprenticeship delivery from the SASE frameworks to the new standards?

Our occupation-focused webinars are primarily for colleges and providers. They will help you understand the changes as well as prepare for and deliver on-programme learning and end-point assessment. We'll cover maths and English and the sort of learning materials that can help you deliver the new standards.

Each webinar is led by industry experts, supported by technical advisers and members of our EPA Team. You'll have the chance to put your questions to our team.

New Light Vehicle Apprenticeship Standard

New SmartScreen offer for our Hybrid Electric Vehicle qualifications

Safety first!

We are glad to announce the launch of our new SmartScreen offer to support the following qualifications:

- (4290-70) Level 2 Award in Hybrid Electric Vehicle Operation and Maintenance
- (4290-71) Level 3 Award in Hybrid Electric Vehicle Repair and Replacement

Our SmartScreen offer consists of:

- Interactive and engaging virtual learning modules offering more flexible delivery of demonstrations and practical tasks safely, allowing the learners to learn at their own pace in their own time. The e-learning is automatically marked, allowing tutors to track learner's progress.
- Mapping document of the virtual learning modules to the learning outcomes for each unit, helping tutors to plan lessons and ensure qualification coverage through the incorporation of interactive modules.

Making learning fun!

New Modern Apprenticeship packages for Light Vehicle and Heavy Vehicle in Scotland

The following packages are going live in November in our Walled Garden:

- 9422-51 - Level 2 Modern Apprenticeship in Vehicle Maintenance and Repair - Light vehicle
- 9422-52 - Level 2 Modern Apprenticeship in Vehicle Maintenance and Repair - Heavy vehicle
- 9422-53 - Level 3 Modern Apprenticeship in Vehicle Maintenance and Repair - Light vehicle
- 9422-54 - Level 3 Modern Apprenticeship in Vehicle Maintenance and Repair - Heavy vehicle

Tell us what you think

All About Automotive is a newsletter that brings together all of the key developments from City & Guilds relevant to automotive skills learning across England, Northern Ireland, Scotland and Wales. It contains

updates on the range of teaching and learning resources we offer, plus relevant public policy or other information we think you might be interested in.

Each edition is numbered, so we can refer back to previous issues or tell you when information has been superseded.

If there's anything else you'd particularly like us to cover or explain more fully in future issues of *All About*, please feel free to drop us a line to **automotive@cityandguilds.com** or visit us at
