Important notice about transitioning to the new modern apprenticeship frameworks for body and paint

The sector skills council recently published new Modern Apprenticeship frameworks in May 2018 to accommodate new qualification codes for SCQF Level 5 or 6 Diplomas in Body Repair and Vehicle Paintwork Repair. We understand that training centres may wish to register new apprentices who have already achieved or are about to achieve the Diplomas with 'old' codes that do not appear in the new MA framework.

To avoid disadvantaging these candidates, the sector skills council have consulted with Awarding Bodies and Skills Development Scotland who approve the frameworks and can confirm that we can accept the old Diploma codes for new Apprenticeship starts onto the new frameworks up until 31 July 2020.

Skills Development Scotland will also receive a copy of this notification and will make their Contract Managers aware but we advise that training centres also keep a copy of this note for audit purposes.

Please note this only applies to the qualifications listed below. This allowance does not apply to any SVQs or other Diplomas.

Previous codes accepted towards current MA Automotive framework are below:
