A newsletter from City & Guilds on professional and technical education updates in rail

This issue focuses on the new Apprenticeship standards in England, covering:

- Prior learning in apprenticeships – five steps to get it right webinar
- City & Guilds’ end point assessment service
- 9303-12 End Point Assessment (EPA) for the Rail Engineering Operative standard open for registrations
- Webinar to prepare your apprentices for the EPA for Rail Engineering Operative standard
- New SmartScreen on-programme core induction for apprenticeships
- Get to know our EPA preparation tool
- New e-portfolio system for Rail Engineering Apprenticeships
- Become an independent assessor for rail engineering operative standard.
Prior learning in apprenticeships – five steps to get it right webinar

Prior Learning is a hot topic, with ESFA having recently tendered for an organisation to research and investigate how apprenticeship providers are managing this requirement of the funding rules.

This webinar supports customers to understand what is needed to assure a quality approach to assessment and recognition of prior learning, so that you are able to feel confident that you are audit compliant and won’t have levy or co-investment funding clawed back.

Apprenticeship standards

We provide on-programme materials and learning resources and also offer end-point assessment for many of the new apprenticeship standards. The apprenticeship delivery and assessment details are set by employers through trailblazer groups. City & Guilds has been a part of many of these trailblazer groups with industry bodies to help shape the new standards.

The standards replace SASE frameworks in England. If you’re outside of England or not yet delivering the new standards, you can find our SASE framework apprenticeships under qualifications.

Search our live apprenticeship standards

Standards have to be signed off by the ESFA before they can be advertised. If you can’t see the occupation you want, it may not be approved yet.

Our master list shows what we’re rolling out next and our pricelist for end-point assessment is also available. You can talk to us about standards you want to deliver - speak to your Business Manager (if you’re a centre) or email us.

Key

- We deliver on your centre’s location.
9303-12 End Point Assessment (EPA) for Rail Engineering Operative open for registrations

Our 9303-12 EPA for Rail Engineering Operative standard is open for registrations.

For more information, please visit our website:

Webinar to prepare your apprentices for the EPA for Rail Engineering Operative standard

We have recorded a webinar to help you prepare apprentices to take the end-point assessment for the new Rail Engineering Operative standard successfully. The webinar covers:

- What the EPA process is
- what you can expect from our EPA service and how we will support you
- the assessment methods and how you should prepare for them.

You can access it here:

https://www.cityandguilds.com/apprenticeships/events-and-webinars?utm_source=City%20%26%20Guilds%20UK&utm_medium=email&utm_campaign=9605099_UKC_Various_Event%20update_NonPrivate_Employer_2018-06-26%2004%3A29%3A43_Alerts_UK&dm_i=1LRT,5PVCB,8SDBY1,M9RD3,1

The recording has been uploaded under ‘Past Events’, ‘Transitioning to the new standards’.
New SmartScreen on-programme core induction for apprenticeships

A blend of e-learning and downloadable content to provide you with an understanding of Health and Safety, Equality and Diversity, Safeguarding and PREVENT as well as provide an overview of your Apprenticeship.
Get to know our EPA preparation tool (England)

Our EPA Preparation Tool is a diagnostic system that will allow your learners to complete a personalised learning and development plan to prepare them for End Point Assessment.

This is included for all learners that are registered with City & Guilds End point Assessment.

Become an independent assessor for rail engineering operative standard

We have a new website for our end point assessment service. Whether you want to know about all the new Apprenticeship Standards City & Guilds is an apprentice assessment organization for, business models, planning and processes or even become an independent end assessor, you will find the answers in the link below:

Role profiles for lead and independent assessors and application forms can be found here:

http://www.cityandguilds.com/apprenticeships/emerging-standards/independent-end-assessor

For those who would like to apply for these roles for the rail engineering operative standard, please remember you can access the standard and the assessment plan in the Institute for Apprenticeships’ website:

https://www.instituteforapprenticeships.org/apprenticeship-standards/rail-engineering-operative/

In regards to the qualifications developed for this standard, which can be used as part of the Apprenticeship or as standalone, please find qualification handbooks in our website:
(6499) Competence based qualifications

(6497) Knowledge based qualifications

You can also download the factsheets for marketing purposes:

Tell us what you think

All About Rail is a newsletter that brings together all of the key developments from City & Guilds relevant to automotive skills learning across England, Northern Ireland, Scotland and Wales. It contains updates on the range of teaching and learning resources we offer, plus relevant public policy or other information we think you might be interested in.

Each edition is numbered, so we can refer back to previous issues or tell you when information has been superseded.

If there’s anything else you’d particularly like us to cover or explain more fully in future issues of All About, please feel free to drop us a line to rail@cityandguilds.com or visit us at http://bit.ly/J01t4F

Thank you for your continued support.
