To Jerry Voinquel

I provide my support as a professional industry body within the Electrical Power Engineering sector, as I feel the following qualifications are suitable for a young person between the ages of 16-19 studying full time and will give that young person an advantage when applying for a job or progressing onto an apprenticeship.

We National Grid support the inclusion of:

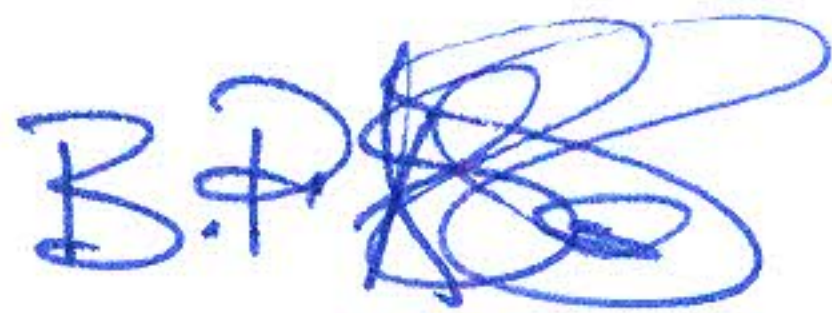

2339-45 Level 3 Electrical Power Distribution and Transmission (Technical Knowledge)

2339-54 Level 3 Diploma in Electrical Power Engineering – Wind Turbine Maintenance (Technical Knowledge)

for the DfE 2016 performance tables in the Technical Level category.

We confirm that we consent to our company name (and logo) being made publicly available on the DfE and City & Guilds website

Yours sincerely

Bryan Ashford
