1 Giltspur Street,
London,
EC1A 9DD

Dear Jerry Voinquel

I provide my support as a professional industry body within the Electrical Power Engineering sector, as I feel the following qualifications are suitable for a young person between the ages of 16-19 studying full time and will give that young person an advantage when applying for a job or progressing onto an apprenticeship.

We, the National Skills Academy for Power, support the inclusion of:

2339-45 Level 3 Electrical Power Distribution and Transmission (Technical Knowledge)

2339-54 Level 3 Diploma in Electrical Power Engineering – Wind Turbine Maintenance (Technical Knowledge)

for the DfE 2016 performance tables in the Technical Level category.

We confirm that we consent to our company name (and logo) being made publicly available on the DfE and City & Guilds websites

Yours sincerely

Jill Cheshire

Operations Manager
