31 January 2014

Dear Jerry Voinquel,

I provide my support as an industry body within the Electrical Power Engineering sector, as I feel the following qualifications are suitable for a young person between the ages of 16-19 studying full time and will give that young person an advantage when applying for a job or progressing onto an apprenticeship.

We, RenewableUK, support the inclusion of:

**2339-45 Level 3 Diploma in Electrical Power Engineering - Distribution and Transmission  
(Technical Knowledge) (QAN): 600/1221/3**

**2339-54 Level 3 Diploma in Electrical Power Engineering - Wind Turbine Maintenance  
(Technical Knowledge) (QAN): 600/2700/9**

for the DfE 2016 performance tables in the Technical Level category.

We confirm that we consent to our company name (and logo) being made publicly available on the DfE and City & Guilds websites

Yours Sincerely

Sophie Bennett

Skills and Employment Policy Officer
