

### **6151-02 Level 2 Tunnel Entry and Associated Emergency Procedures**

- This qualification is for candidates who work or want to work in the tunnelling industry during tunnel construction activities.
- The qualification covers safe entry and emergency procedures in tunnels under construction.
- 7 guided learning hours.
- One single mandatory unit.
- The award is normally retaken every three years.
- Candidates are required to complete two centre marked assessments:
  - One multiple choice test paper.
  - One practical exercise/observation.
- To offer the qualification, centres will need to gain both centre and qualification approval.
- There is no fast track approval; existing centres who wish to offer the qualification must use the standard qualification approval process.
- A qualification handbook and assignment guide are available from [www.cityandguilds.com](http://www.cityandguilds.com)
- Staff delivering this qualification must be able to demonstrate that they meet the requirements stipulated in the handbook.
