The HAUC Training and Accreditation group has been working over the past few months on reviewing the question bank, developing an assessment strategy, and discussing EQA Standardisation.

The group led by Mark Playforth has now concluded its deliberations and has developed a revised question bank, assessment strategy and EQA Standard process. It has been agreed with all the AO's that the question bank revisions and revised processes will go live on 1st December 2024.

The revised questions are now with the AO's, and they are organising their system update processes ready for the 1st December. The documentation attached is for your information in terms of the changes within the assessment strategy etc.

The changes were made with the knowledge of the DfT review that is ongoing, but these changes were necessary to ensure the current structure can continue in the interim period without issue.

Kind regards

Mark Playforth
