Apprenticeship standard (England only)

Advanced Carpentry and Joinery

Industry: Construction
City & Guilds code: 9079
LARS number: 240

The Advanced Carpentry and Joinery apprenticeship is part of the City & Guilds offer in the main trades of construction. Carpentry and joinery is a core trade within construction particularly in the house building sector. As the demand for new homes continues so does the demand for carpentry and joinery. Apprentices entering the industry as a carpenter or joiner may choose to be self-employed or, after achieving a CSCS card, work on a construction site, then progress to a site supervisor or manager.

The occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components.

After completing the standard, apprentices should be able to carry out all the activities undertaken by a carpenter and joiner, and work safely, develop communication with others, interpret specifications and carry out related tasks.

On-programme learning: Available autumn 2018
On-programme mandatory qualification (6571): Open for registrations
End-point assessment (EPA): We’re applying to be on the register of end-point assessment organisations

City & Guilds – helping you with an expert solution

There are four stages where we can work together to help your apprentices from the start through to successful completion of their training.

Plan
Helping you plan and prepare for the new standards with a bespoke solution to make the most of your investment in apprentices.

Attract
Simple online vacancy and candidate set up, TalentPortal can connect you to the talent you need to fill your apprenticeship vacancies.

Deliver
High-quality, online and offline content to help draw out the skills, knowledge and behaviours to prepare apprentices for end-point assessment as well as tracking options to monitor performance.

Assess
Support for you and your apprentices to prepare for end-point assessment by our first-rate, fully trained assessors. Our simple, flexible service meets the demands of your team and your partners.

Minimum duration: 12 months
Funding band: 9 (£9,000)*
Level 3

*Funding bands from May 2017
The City & Guilds Advanced Carpentry and Joinery apprenticeship

1 On-programme: what apprentices need to learn

Apprentices need to complete 20% off-the-job training during on-programme and specific rules govern this vital element. You can track and authorise the 20% through our e-portfolio, Learning Assistant.

Apprentices learn techniques and measures needed for carpentry and joinery, and by the end of the apprenticeship should be able to:
- demonstrate health and safety
- communicate effectively
- work in a team effectively and be prepared to lead
- interpret and follow verbal written work instructions
- calculate quantity, length, area and wastage of resources.

Our resources and tools that support on-programme delivery

Our core content for this standard covers Prevent, British values, equality and diversity, and health and safety which gives you the basics to deliver the standard and satisfy regulators. It’s a blend of e-learning and downloadable content. We also have:

- Mandatory qualification
- Apprenticeship training manual
- Learning Assistant
- SmartScreen
- Guidance documents

Mandatory qualification
The mandatory units of our Level 3 NVQ qualifications are closely aligned to the content of the apprenticeship standard and enhance the on-programme experience for the apprentice and employer. An apprentice can choose:
- NVQ Diploma in Wood Occupations – Site Carpentry (6571-27) or
- NVQ Diploma in Wood Occupations – Architectural Joinery (6571-28).

Apprenticeship training manual
Available in print and as part of our e-portfolio, the carpentry and joinery task manual guides apprentices through step-by-step tasks that develop the skills, knowledge and behaviours required.

Learning Assistant
Innovative and cost effective e-portfolio solution that lets you dramatically improve the delivery of their apprenticeship standards by tracking apprentices’ progress online in real time. And helps authorise and evidences 20% off-the-job learning.

SmartScreen
Online learning – engaging and interactive e-learning modules (including video content) allow apprentices to work at their own pace. The content covers majority of modules, preparing apprentices for their EPA. Tutors can track activity and results.

Guidance documents
- Mandatory qualifications with learning guidance
- Advice on gathering evidence for the practical standards and behaviours
- EPA preparation materials.

Maths and English requirements
If your apprentices need to complete maths and English, our popular Functional Skills qualifications fit within apprenticeship programmes and cover the core maths and English requirement for the workplace and further study. We have an extensive support package available, including e-Functional Skills, and an online teaching and learning platform, which guides learners from an initial and a diagnostic assessment, through to being exam ready.

The City & Guilds Advanced Carpentry and Joinery apprenticeship

2 Gateway
To move on to EPA, the apprentice must complete the NVQ and show evidence of the relevant carpentry and joinery knowledge, skills and behaviours as set out in the standard and have achieved maths and English Level 1 and taken the test for Level 2.

3 End-point assessment (EPA): how apprentices demonstrate their learning
EPA is the final stage that an apprentice goes through to complete their apprenticeship. The apprentice must demonstrate their learning to an independent end-point assessor and the grades available are distinction, merit, pass or fail. Assessment events for this standard are:

- **Multiple choice test**
  A 45-minute test with 35 questions designed to assess the apprentice’s understanding of the core and specific knowledge and behavioural requirements.
  Delivered in a controlled invigilated environment approved by the independent end-point assessment organisation.

- **One-day practical test**
  A supervised test in one day that is marked by an independent assessor, and approved and moderated by the independent end-point assessment organisation.
  The apprentice completes a practical activity with oral questioning where needed. The test takes at least six hours to complete.

Our resources and tools that support end-point assessment
We’re applying to be on the register of end-point assessment organisations for this standard. Our EPA service includes support resource as well as flexibility around assessment delivery and a dedicated EPA team to support you.

- **EPA preparation tool**
  Online content to help the apprentice feel ready for their EPA experience. Personalised to their confidence levels and the standard, they’re sent free access details once they’re registered with us for EPA.

- **EPA team**
  Our dedicated EPA team is on hand to help with bookings and questions on anything from the assessment process to evidence portfolios.

- **EPA pack and guidance**
  Let our support, including short videos and how to guides help you get to grips and stay on track with the EPA process.

4 Apprenticeship certificate
On successful completion, the end-point assessment organisation will apply to the Education and Skills Funding Agency (ESFA) for the apprenticeship certificate. The certificate is sent to the apprentice’s employer.

4 Apprenticeship certification
The apprentice will receive their Institute for Apprenticeships (IfA) apprenticeship certificate. Apprentices that complete a City & Guilds EPA will receive a City & Guilds statement of achievement for end-point assessment.
Progression with City & Guilds Group

This apprenticeships is part of our wider offering in the sector. And you can develop new and existing talent at all levels with ILM management apprenticeships including: Team Leader/ Supervisor Level 3; Operations/Departmental Manager Level 5; Chartered Manager Degree Level 6 and the Senior Leader Master’s Degree Level 7.

How our offer supports you:

Supportive payment structure
When you choose us for EPA you pay a small registration fee and the balance once the EPA has taken place and results submitted.

Personal support
Our Technical Advisors, Business Managers and Customer Service teams are on hand to help you with all aspects of apprenticeships.

Specialist online tools
Our e-Functional Skills can boost maths and English; Skills Zone develops workplace behaviours and skills; and our e-portfolio, Learning Assistant, lets you manage assignments and track the 20% off-the-job training requirement.

Events and webinars
We deliver a range of events and webinars run by industry specialists to advise and guide you, including regional networking and CPD events.

Pre-apprenticeship options
- Entry Level 3 Construction Skills (6219)
