

CONSTRUCTION

QUALIFICATION:

6720 Level 3

City & Guilds Level 3 Advanced Technical
Certificate in Constructing the Built Environment

FAST FACTS

- Construction is one of the UK's largest industries. It contributes almost £90 billion to the UK economy, comprises over 280,000 businesses and provides approximately 2.93 million jobs – approximately 10% of the nation's employment.
- A skilled workforce is key to the construction industry's success. Yet a fifth of all vacancies are hard to fill because employers can't recruit employees with the right skills, qualifications or experience.

6720-30

Advanced Technical
Certificate in Constructing
the Built Environment

LEVEL 3

KEY
STAGE 5
16-19 YEARS OLD

AT A GLANCE: This qualification is aimed at anyone who has ever wondered how the buildings, infrastructure and landscape around us come into existence, and would like to find out more. It will open up the world of the built environment sector, which covers all aspects of the creation of our towns and cities, and is fundamental to creating a sustainable future.

COMPULSORY TOPICS INCLUDE:

- Domestic construction technology
- Industrial and commercial construction technology
- Health and safety in the built environment
- Construction site supervision
- Construction science and materials

POTENTIAL JOB ROLES:

This qualification could lead to employment opportunities in areas such as:

- Construction design technician
- Site technician
- Civil engineering technician
- Work supervisor

WHAT NEXT?

Following this qualification you can progress to university, an apprenticeship or into the world of work.

For example: you could earn while you learn and study a Construction Technical Apprenticeship.
